**Breaking Open the Head** Mar 17 2021 A dazzling work of personal travelogue and cultural criticism that ranges from the primitive to the postmodern in a quest for the promise and meaning of the psychedelic experience. While psychedelics of all sorts are demonized in America today, the visionary compounds found in plants are the spiritual sacraments of tribal cultures around the world. From the iboga of the Bwiti in Gabon, to the Mazatecs of Mexico, these plants are sacred because they awaken the mind to other levels of awareness--to a holographic vision of the universe. *Breaking Open the Head* is a passionate, multilayered, and sometimes rashly personal inquiry into this deep division. On one level, Daniel Pinchbeck tells the story of the encounters between the modern consciousness of the West and these sacramental substances, including such thinkers as Allen Ginsberg, Antonin Artaud, Walter Benjamin, and Terence McKenna, and a new underground of present-day ethnobotanists, chemists, psychonauts, and philosophers. It is also a scrupulous recording of the author's wide-ranging investigation with these outlaw compounds, including a thirty-hour tribal initiation in West Africa; an all-night encounter with the master shamans of the South American rain forest; and a report from a psychedelic utopia in the Black Rock Desert that is the Burning Man Festival. *Breaking Open the Head* is brave participatory journalism at its best, a vivid account of psychic and intellectual experiences that opened doors in the wall of Western rationalism and completed Daniel Pinchbeck's personal transformation from a jaded Manhattan journalist to shamanic initiate and grateful citizen of the cosmos.

**School Blues** Oct 12 2020 Daniel Pennac has never forgotten what it was like to be a very unsatisfactory student, nor the day one of his teachers saved his life by assigning him the task of writing a novel. This was the moment Pennac realized that no-one has to be a failure for ever. In School Blues, Pennac explores the many facets of schooling: how fear makes children reject education; how children can be captivated by inventive thinking; how consumerism has altered attitudes to learning. Haunted by memories of his own turbulent time in the classroom, Pennac enacts dialogues with his teachers, his parents and his own students, and serves up much more than a bald analysis of how young people are consistently failed by a faltering system. School Blues is not only universally applicable, but it is unquestionably a work of literature in its own right, driven by subtlety, sensitivity and a passion for pedagogy, while embracing the realities of contemporary culture.

The Comfort of Things Apr 17 2021 What do we know about ordinary people in our towns and cities, about what really matters to them and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things – their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn out to be central to their relationships with other people – children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street in modern London, written by one of the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.
