The Secret Aug 31 2022 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since

1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

Innovations in Economic Education Aug 26 2019

Innovations in Economic Education addresses the growing issue of financial illiteracy by showing how economics can be successfully integrated into classrooms from kindergarten through higher education. Pre-service teachers, experienced educators, curriculum leaders, parents, and school administrators will find practical ideas to improve economic understanding. At the elementary level, the book provides creative ways of introducing young students to the basic concepts of economics, financial justice, and social action. For higher grade levels, the book offers ideas to integrate economics into current history, civics, and math curricula. The final portion of the book features recommendations by leading economic educators on how economics can play a greater role in teachers' professional development. The pedagogical tools presented in each chapter include lesson plans and practical insights, and are designed to meet the NCSS, C3 Framework, and Common Core State Standards for Social Studies. This book is a timely and valuable resource for all educators interested in improving their students' economic literacy and financial decision-making.

Advances in Human Factors in Training, Education, and Learning Sciences May 04

2020 This book focuses on the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices and discusses key principles of behavioral and cognitive science, which are extremely relevant to the design of instructional content and new technologies to support mobile and multimedia learning, virtual training and web-based learning, among others, as well as performance measurements, social and adaptive learning and many other types of educational technologies, with a special emphasis on those important in the corporate, higher education, and military training contexts. Based on the AHFE 2018 Conference on Human Factors in Training, Education, and Learning Sciences, held July 21-25, 2018 in Orlando, Florida, USA on July 21-25, 2018, the book offers a timely perspective on the role of human factors in education. It highlights important new ideas and will foster new discussions on how to optimally design learning experiences.

Tech Timeout, Grade 2 Jun 16 2021 Turn off the technology and get back to basics! *Tech Timeout* for grade 2 features engaging arts and crafts activities, puzzles, games, and physical exercises that children can complete independently or with friends. It's important to remind children that learning doesn't have to take place in front of screens. Children need time away from technology to develop critical thinking and communication skills. The *Tech Timeout* series promotes fun,

active learning that benefits children's academic growth and physical health. Each book is bursting with activities that improve concentration skills, stimulate creativity, and encourage outdoor adventures.

Advances in Human Factors and Simulation Mar 14 2021

This book focuses on modeling and simulation research that advances the current state-of-the-art regarding human factors in this area. It reports on cutting-edge simulators such as virtual and augmented reality, on multisensory environments, and on modeling and simulation methods used in various applications, including surgery, military operations, occupational safety, sports training, education, transportation and robotics. Based on the AHFE 2019 International Conference on Human Factors in Simulation and Modeling, held on July 24-28, 2019, in Washington D.C., USA, the book serves as a timely reference guide for researchers and practitioners developing new modeling and simulation tools for analyzing or improving human performance. It also offers a unique resource for modelers seeking insights into human factors research and more feasible and reliable computational tools to foster advances in this exciting research field.

arguably the most significant development in education over the past quarter century. While the book deals with education that uses technology, the focus is on teaching and learning and how its management can be facilitated through technology. This volume will be of interest to anyone engaged in distance education at either the K-12 or college level. It is also appropriate for corporate and government trainers and for administrators and policy makers in all these environments.

Bring Me The Head Of The Taskmaster Feb 10 2021

Fastest wins. Your adventure starts now ... This is a race. It is not a race against the clock, because that would be a far easier race. Clocks can be fast, but clocks never win races. It's nearly always humans, sometimes horses, and occasionally dogs. This is a race against your fellow Taskmaster players. You are competing against everyone

else who is reading this book. All you've got to do is find The Taskmaster's Head first. This is a race with many twists and turns, that requires very little running, much sideways thinking and quite a lot of patience. Thankfully, there will be a shedload of tasks along the way to distract you. There are tasks to do on your own, tasks to do with your family and friends, and tasks for bigger groups too. Some of these distractions may slow you down, but some may help you get where you need to go. As always, enjoy them, do your best, make good choices. So get going. Take on the tasks. The Ultimate Book of Scavenger Hunts Oct 01 2022
It's hard to resist a scavenger hunt. Give kids a list of things

to find, and they naturally want to turn it into a game and start checking things off. Add in an outdoor and nature twist, and the game is elevated to a whole new level—and what an amazing opportunity to engage kids and families with nature in a whole new way. The Ultimate Book of Scavenger Hunts will help turn every outdoor outing into a scavenger hunt, with plenty of things for your family to look for, discover, and learn about. Geared towards families with kids ages 4-10, the hunts are geared to just about any location—from city to farm to beach to mountains. The book includes a leveled difficulty rating system so you can find both easy and difficult items within each hunt (1 being easy, 2 medium, 3 hard). Each hunt comes complete with factoids and information about the items on the list, and each item is accompanied by a colorful spot illustration so that the hunter can easily identify what they are looking for.
