*The Emergence of Pressure Blade Making* Jan 02 2020 Human development is a long and steady process that began with stone tool making. Because of this skill, humans were able to adapt to climate changes, discover new territories, and invent new technologies. "Pressure knapping" is the common term for one method of creating stone tools, where a larger device or blade specifically made for this purpose is used to press out the stone tool. Pressure knapping was invented in different locations and at different points in time, representing the adoption of the Neolithic way of life in the Old world. Recent research on pressure knapping has led for the first time to a global thesis on this technique. The contributors to this seminal work combine research findings on pressure knapping from different cultures around the globe to develop a cohesive theory. This contribution to this volume represents a significant development to research on pressure knapping, as well as the field of lithic studies in general. This work will be an important reference for anyone studying the Paleolithic, Mesolithic, and Neolithic periods, lithic studies, technologies, and more generally, cultural transmission.

Decisions of the Commissioner of Patents and of the United States Courts in Patent and Trade-mark and Copyright Cases Jan 14 2021 "Compiled from Official gazette. Beginning with 1876, the volumes have included also decisions of United States courts, decisions of Secretary of Interior, opinions of Attorney-General, and important decisions of state courts in relation to patents, trade-marks, etc. 1869-94, not in Congressional set." Checklist of U. S. public documents, 1789-1909, p. 530.

complex, enigmatic plot; and its underlying questions about the nature of human identity. *The Blade Runner Experience: The Legacy of a Science Fiction Classic* examines the film in a broad context, examining its relationship to the original novel, the PC game, the series of sequels, and the many films influenced by its style and themes. It investigates Blade Runner online fandom and asks how the film's future city compares to the present-day Los Angeles, and it revisits the film to pose surprising new questions about its characters and their world.

**Clovis Blade Technology** Aug 01 2022 Around 11,000 years

ago, a Palcoindian culture known to us as "Clovis" occupied much of North America. This book offers the first comprehensive study of a little-known aspect of Clovis culture - stone blade technology. Michael Collins introduces the topic with a close look at the nature of blades and the techniques of their manufacture, followed by a discussion of the full spectrum of Clovis lithic technology and how blade production relates to the production of other stone tools. The second part of the book provides a full report of the discovery and examination of fourteen blades found in 1988 in the Keven Davis Cache in Navarro County; Texas. This book will be important reading for both specialists and amateurs who are piecing together the puzzle of the peopling of the Americas.

**Effect of Blade-tip Crossover Passages on Natural-convection Water-cooling of Gas-turbine Blades** Jul 20 2021

A water-cooled turbine was fabricated and tested to determine the effect of a connecting passage at the turbine rotor blade tip between a radial coolant passage 0.10 inch in diameter (length-diameter ratio = 25.5) and radial coolant passages in the length-diameter range of 5.1 to 20.4. Coolant flow through the connecting passage is induced by free-convection forces in the radial passages.

Annual Report of the National Advisory Committee for Aeronautics Nov 11 2020 Includes the Committee's Reports no. 1-1058, reprinted in v. 1-37.

battlefield.... "I'm going to enjoy this," he whispered. The nails raked harder, drawing blood in lines. The knife slid free from the sheath and I gripped it tightly in my hand, bracing for the kill. I breathed along his mouth, "So am I." Confusion chased away the cocky grin on his face and was replaced by anger. He was used to his victims begging and pleading for their lives, and I had spoiled the fun for him. Victims were not supposed to be cooperative or compliant, but I wasn't a victim. I had been one centuries ago, and once was enough. Katrina Armentani has lived and breathed revenge for the past three-hundred and twenty-eight years. Turned into a monster in the literal and figurative sense after the brutal murder of her family, she is driven by the desire to avenge their deaths and protect others from suffering a similar fate. Katrina invariably finds herself torn between the age-old conflicts of good and evil and what it means to be human, but after a series of uncanny events sees her life turned upside down, Katrina inches ever closer to regaining her lost humanity.

Blade: Cutting Loose Nov 04 2022 Wait, move in, hit hard. Hit again. Revenge isn't sweet. It's just necessary. From the Carnegie Medal-winning author of *River Boy*, *Starseeker* and *Bloodchild* comes the penultimate title in this startlingly compelling series. Contemporary, pacy, and utterly gripping, *Blade* takes you on a roller-coaster ride through the secret, dangerous life of its unforgettable narrator. This thrilling series for teenagers combines an enormously likable and engaging central character with the harsh realities of street life and the youth gang culture that is so prevalent in today's news. The mysteries and cliffhanger endings of these short, accessible books will have the power to tempt all readers as they gradually become absorbed into *Blade's* dangerous world.
