Conflict Resolution Beyond the Realist Paradigm Apr 12 2021 Conflict Resolution holds the promise of freeing approaches and policies with regard to politics of identity from the fatalistic grip of realism. While the conceptual literature on identity and conflicts has moved in this alternative direction, conflict resolution practice continues to rely on realist frames and acts as an unwanted auxiliary to traditional international relations. Perpetuation of conflict discourses, marginalization, and exclusion of affected populations are widespread. They are caused by the overreliance of conflict resolution practice on the binary frames of classic IR paradigms and also by the competitive and hierarchical relationships within the field. Philip Gamaghelyan relies on participatory action research and collective autoethnography to expose patterns of exclusion and marginalization as well as the paradoxical reproduction of conflict-promoting frames in current conflict-resolution practice applied to the Nagorno-Karabakh and Syrian crises. He builds on the work of postmodernist scholars, on reflective practice, and on discourse analysis to explore alternative and inclusive strategies with a transformative potential. The IR discipline that has dominated policymaking is only one possible lens, and often a deficient one, for defining, preventing, or resolving contemporary conflicts wrapped in identity politics. Other conceptual frameworks can help to rethink our understanding of identity and conflicts and reconstruct them as performative and not static phenomena. These transformative frameworks are increasingly influential in the conflict resolution field and can be applied to policymaking.

They’ll discover how to: Manage an ill-tempered boss before he or she explodes Defend themselves against idea-pilfering rivals before they steal all the credit Detach from those annoying co-workers whose irritating habits ruin the day And much, much more.

The Essential Guide to Workplace Mediation & Conflict Resolution Feb 20 2022 Workplace mediation is becoming an increasingly popular dispute resolution method to settle interpersonal employee conflicts, including harassment and bullying complaints. There is a direct ratio between the quality of relationships across the workplace and long-term effectiveness and success. Mediation addresses complex relationship difficulties head-on so that working relationships can be restored. Fostering a philosophy of mediation as a culture and a “co-entrepreneurial” business model, Doherty and Guyler consider what

mediation is, why it is necessary and how it works, including the main principles of operation and the 6-step structure of a mediation meeting. They analyze the reasons for conflict and suggest useful everyday communication skills to help defuse anger or aggression. Real case studies look at specific complaints of bullying, of sexual harassment and of racism, generational conflicts within family businesses and boardroom conflicts between chairmen and CEOs.

Handbook of Conflict Analysis and Resolution Aug 05 2020 This major new Handbook is a collection of work from leading scholars in the Conflict Analysis and Resolution (CAR) field. The central theme is the value of interdisciplinary approaches to the analysis and resolution of conflicts.

High Conflict Oct 26 2019 When we are baffled by the insanity of the "other side"—in our politics, at work, or at home—it's because we aren't seeing how the conflict itself has taken over. That's what "high conflict" does. It's the invisible hand of our time. And it's different from the useful friction of healthy conflict. That's good conflict, and it's a necessary force that pushes us to be better people. High conflict is what happens when discord distills into a good-versus-evil kind of feud, the kind with an us and a them. In this state, the brain behaves differently. We feel increasingly certain of our own superiority, and everything we do to try to end the conflict, usually makes it worse. Eventually, we can start to mimic the behavior of our adversaries, harming what we hold most dear. In this "compulsively readable" (Evan Osnos, National Book Award-winning author) book, New York Times bestselling author and award-winning journalist Amanda Ripley investigates how good people get captured by high conflict—and how they break free. Our journey begins in California, where a world-renowned conflict expert struggles to extract himself from a political feud. Then we meet a Chicago gang leader who dedicates his life to a vendetta—only to realize, years later, that the story he'd told himself about the conflict was not quite true. Next, we travel to Colombia, to find out whether thousands of people can be nudged out of high conflict at scale. Finally, we return to America to see what happens when a group of liberal Manhattan Jews and conservative Michigan corrections officers choose to stay in each other's homes in order to understand one another better, even as they continue to disagree. All these people, in dramatically different situations, were drawn into high conflict by similar forces, including conflict entrepreneurs, humiliation, and false binaries. But ultimately, all of them found ways to transform high conflict into good conflict, the kind that made them better people. They rehumanized and recategorized their opponents, and they revived curiosity and wonder, even as they continued to fight for what they knew was right. People do escape high conflict. Individuals—even entire communities—can short-circuit the feedback loops of outrage and blame, if they want to. This is an "insightful and enthralling" (The New York Times Book Review) book—and a mind-opening new way to think about conflict that will transform how we move through the world.

Root Narrative Theory and Conflict Resolution Jan 28 2020 This book introduces Root Narrative Theory, a new approach for narrative analysis, decoding moral politics, and for building respect and understanding in conditions of radical disagreement. This theory of moral politics bridges emotion and reason, and, rather than relying on what people say, it helps both the analyst and the practitioner to focus on what people mean in a language that parties to the conflict understand. Based on a simple idea—the legacy effects of abuses of power—the book argues that conflicts only endure and escalate where there is a clash of interpretations about the history of institutional power. Providing theoretically complex but easy-to-use tools, this book offers a completely new way to think about storytelling, the effects of abusive power on interpretation, the relationship between power and conceptions of justice, and the origins and substance of ultimate values. By locating the source of radical disagreement in story structures and political history rather than in biological or cognitive systems, Root Narrative Theory bridges the divides between reason and emotion, realism and idealism, without losing sight of the inescapable human element at work in the world's most devastating conflicts. This book will be of much interest to students of conflict resolution, peace studies and International Relations, as well as to practitioners of conflict resolution.

Muslim/Arab Mediation and Conflict Resolution Aug 24 2019 Inter- and intra-clan conflicts in Northern Israel pit hundreds against each other in revenge cycles that take years to resolve and impact the entire community. The Sulha is a Shari'a-based traditional conflict resolution process that works independently of formal legal systems and is widely practiced to manage such conflicts in the north of Israel, as well as throughout the Muslim and Arab worlds. The Sulha process works by effecting a gradual attitudinal transformation, from a desire for revenge to a willingness to forgive, through restoration of the victim's clan sense of honour. *Muslim/Arab Mediation and Conflict Resolution* examines the process of Sulha, as practiced by the Arab population of northern Israel, where it plays a central role in the maintenance of peace among Muslims, Christians, and Druze alike. It presents detailed analysis of every stage of this at times protracted process. It uses interviews with victims, perpetrators, Sulha practitioners, community leaders and lawyers, along with statistical analysis to examine how Sulha affects people's lives, how various sectors of society impact the practice, and how it coexists with Israel's formal legal system. Furthermore, it examines how Sulha compares to Western dispute resolution processes. This book offers the first comprehensive exploration of the entire Sulha process, and is a valuable resource for students and scholars of Middle East studies, Islamic studies and conflict resolution.

Getting to Zero Jun 22 2019 The relationship teacher, coach, and founder of The Relationship School reveals the origins of conflict styles, how to stop avoiding difficult conversations, and how to resolve conflict in our most important relationships. Conflicts in our closest relationships are scary because so much is at stake. If the conflict doesn't go well, we could lose our marriage, our family or our job, all connected to our security and survival. So we do just about anything not to lose those relationships,

including avoid conflict, betraying ourselves or becoming dishonest. Unresolved conflict affects every single aspect of our lives, from self-confidence to physical and mental health. Jayson Gaddis is a personal trainer for relationships and one of the world's leading authorities on interpersonal conflict. For almost two decades, Gaddis has helped individuals, couples, and teams get to the bottom of their deepest conflicts. He helps people see the wisdom in conflict and how to get to zero—which means we have successfully worked through our conflict and have nothing in the way of a good connection. In *Getting to Zero*, Gaddis shows the reader how to stop running away from uncomfortable conversations and instead learn how to work through them. Through funny personal stories, uncomfortable examples, and effective tools and skills, he shows the reader how to move from disconnection to connection, acceptance, and understanding. This method upgrades the old tired and static conflict resolution approaches and offers a fresh, street-level, user-friendly road map on exactly how to work through conflict with the people you care most about.

Conflict Management and Resolution Oct 31 2022 *Conflict Management and Resolution* provides students with an overview of the main theories of conflict management and conflict resolution, and will equip them to respond to the complex phenomena of international conflict. The book covers these four key concepts in detail: negotiation, mediation, facilitation, reconciliation. It examines how to prevent, manage and eventually resolve various types of conflict that originate from inter-state and inter-group competition, and expands the existing scope of conflict.

Alternative Approaches in Conflict Resolution Sep 17 2021 This edited volume brings together alternative and innovative approaches in conflict resolution. With traditional military intervention repeatedly leading to the transformation of entire regions into zones of instability and violence (Afghanistan, Iraq, Libya, Syria), the study of alternative and less violent approaches to conflict resolution has become imperative. Four approaches are presented here: negotiation, religion and gender, reconciliation and forgiveness, and the arts. This volume contains the insights and experiences of fourteen internationally renowned scholars and practitioners from different contexts. Can forgiveness help heal relationships in post-apartheid South Africa? How can art assist dealing with 'unrememberable' events such as the genocide in Rwanda? What transformational resources do women offer in contexts of massive human rights violations? The aim here is twofold: to provide and encourage critical reflection of the approaches presented here and to explore concrete improvements in conflict resolution strategies. In its interdisciplinary and international outlook, this work combines the tried-and-tested approaches from conflict resolution experts in academia, NGOs and civil society, making it an invaluable tool for academics and practitioners alike.

Conflict Resolution and Global Justice Dec 09 2020 This book examines how the different normative foundations of conflict resolution held by various global actors, their understandings of justice, and the differences between types of conflict influence the varying means by which conflicts can be prevented, managed, and ultimately resolved. By combining insights from political theory, conflict studies, and European Union (EU) foreign policy studies, the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order. It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas: resolving border disputes; strengthening the resilience of weak or divided states and societies after regime change, and intervention in humanitarian crises. Furthermore, it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice, asking what countervailing forces prevail and why. This book will be of key interest to scholars and students in European and EU Studies, Area studies, Conflict Resolution, War Studies, EU Foreign Policy Political Theory, International relations as well as policymakers.

The EU and Conflict Resolution May 14 2021 Through the study of five ethno-political conflicts lying on or just beyond Europe's borders, this book analyzes the impact and effectiveness of EU foreign policy on conflict resolution. Conflict resolution features strongly as an objective of the European Union's foreign policy. In promoting this aim, the EU's geographical focus has rested primarily in its beleaguered backyard to the south and to the east. Taking a strong comparative approach, Nathalie Tocci explores the principal determinants of conflict dynamics in Cyprus, Turkey, Serbia-Montenegro, Israel-Palestine and Georgia in order to assess the impact of EU contractual ties on them. The volume includes topical analysis based on first-hand experience, in-depth interviews with all the relevant actors and photography in ongoing conflict areas in the Middle East, the Eastern Mediterranean, the Balkans and the Caucasus. This revealing study shows that the gap between EU potential and effectiveness often rests in the specific manner in which the EU collectively chooses to conduct its contractual relations. *The EU and Conflict Resolution* will be of interest to all readers who wish to acquire an excellent understanding of the EU's impact on conflict contexts and will appeal to scholars of European politics, security studies and conflict resolution.

DIY Mediation Jul 24 2019 "If every HR professional were to read this book and apply what they learnt I'd be out of a job - and I'd be happy. Why? Because workplace conflict would no longer be damaging businesses or harming people." This was the motivation for Marc, a professional mediator, in writing this book - to create a practical conflict resolution toolkit for HR. *DIY Mediation* gives you the necessary skills and framework to use a mediation style approach to nip low level workplace conflict in the bud. This book covers: The Issue. The critical knowledge needed to understand conflict - what it is, why it matters and how to recognise it. The Skills. The four key skills to apply when using *DIY Mediation* supported by straightforward, practical tools. The Process. The AGREE framework, a simplified step by step mediation model you can follow to intervene quickly and effectively. Marc's 25 years corporate

management and HR experience and successful mediation track record combine in this book to create essential know-how for every HR professional. In top HR Director Martha Desmond's words this book is a "valuable resource which I will keep in my office library to be consulted on a frequent basis".

Business, Conflict Resolution and Peacebuilding Aug 17 2021 *Business, Conflict Resolution and Peacebuilding* examines the actions currently being taken by businesses in areas of violent conflict around the world, and explores how they can make a significant contribution to the resolution of violent conflicts through business-based peacebuilding. This book combines two approaches to provide a comprehensive look at the current state and future of business-based peacebuilding. It marries a detailed study of documented peacebuilding activities with a map of the possibilities for future business-related conflict work and pragmatic suggestions for business leaders, conflict resolution practitioners, and peacebuilding organizations. The use of the label 'business-based peacebuilding' is new and signifies actions business can take beyond simple legal compliance or making changes to avoid creating a conflict. Although business-based peacebuilding is new, examples are included from around the world to illustrate that, working together, businesses have a strong contribution to make to the creation of peaceful societies. The book advocates pragmatic peacebuilding, which is not overly concerned with cause-driven models of conflict. Instead, pragmatic peacebuilding encourages an examination of what is needed in the conflict and what can be provided. This approach is free of some of the ideological baggage of traditional peacebuilding and allows for a much wider range of participants in the peacebuilding project. This book will be of much interest to students of peace studies, conflict resolution, international security and business studies, as well as to practitioners and business leaders. Derek Sweetman is Dispute Resolution Director for Better Business Bureau in Washington, DC and Instructor at New Century College, George Mason University, USA.

The Conflict Resolution Toolbox Sep 29 2022 In real-life conflict resolution situations, one size does not fit all. Just as a mechanic does not fix every car with the same tool, the conflict resolution practitioner cannot hope to resolve every dispute using the same technique. Practitioners need to be comfortable with a wide variety of tools to diagnose different problems, in vastly different circumstances, with different people, and resolve these conflicts effectively. The Conflict Resolution Toolbox gives you all the tools you need: eight different models for dealing with the many conflict situations you encounter in your practice. This book bridges the gap between theory and practice and goes beyond just one single model to present a complete toolbox - a range of models that can be used to analyze, diagnose, and resolve conflict in any situation. It shows mediators, negotiators, managers, and anyone needing to resolve conflict how to simply and effectively understand and assess the situations of conflict they face. And it goes a step further, offering specific, practical guidance on how to intervene to resolve the conflict successfully. Each model provides a different and potentially useful angle on the problem, and includes worksheets and a step-by-step process to guide the reader in applying the tools. Offers eight models to help you understand the root causes of any conflict. Explains each model's focus, what kind of situations it can be useful in and, most importantly, what interventions are likely to help. Provides you with clear direction on what specific actions to choose to resolve a particular type of conflict effectively. Features a detailed case study throughout the book, to which each model is applied. Additional examples and case studies unique to each chapter give the reader a further chance to see the models in action. Includes practical tools and worksheets that you can use in working with these models in your practice. The Conflict Resolution Toolbox equips any practitioner to resolve a wide range of conflicts. Mediators, negotiators, lawyers, managers and supervisors, insurance adjusters, social workers, human resource and labour relations specialists, and others will have all the tools they need for successful conflict resolution.

The Anatomy of Peace May 26 2022

Creativity and Conflict Resolution Apr 24 2022 This book explores how creative ways of resolving social conflicts emerge, evolve, and subsequently come to be accepted or rejected in inter-group relations. *Creativity and Conflict Resolution* explores a subject with which political communities involved in social conflict have always grappled: creative ways of imagining and actualizing visions of conflict resolution. This is an ambitious question, which concerns human communities at many different levels, from families, regional-independence movements, and national governments, to inter-state alliances. The author argues that unconventional viability lies at the heart of creativity for transcending seemingly intractable inter-communal conflicts. More specifically, conflict resolution creativity is a social and epistemological process, whereby actors involved in a given social conflict learn to formulate an unconventional resolution option or procedure. Demystifying the origin of unthinkable breakthroughs for conflict resolution and illuminating theories of creativity based on 17 international case studies, this book will be of much interest to students of conflict resolution, peace and conflict studies, human security and IR. Tatsushi Arai is an Associate Professor of Peace and Conflict Transformation at the SIT Graduate Institute in Vermont, USA. He has a PhD in Conflict Resolution from George Mason University, Washington DC, and extensive practical experience in the field.

Cultures of Conflict Resolution in Early Modern Europe Jul 04 2020 Disputes, discord and reconciliation were fundamental parts of the fabric of communal living in early modern Europe. This edited volume presents essays on the cultural codes of conflict and its resolution in this period under three broad themes: peacemaking as practice; the nature of mediation and arbitration; and the role of criminal law in conflicts. Through an exploration of conflict and peacemaking, this volume provides innovative accounts of state formation, community and religion in the early modern period.

Conflict Resolution and the Scholarship of Engagement Feb 29 2020 As the field of conflict analysis and resolution continues to grow, scholars and practitioners increasingly recognize that we can learn from

one another. Theory must be informed by practice and practice must draw on sound theory. Above and beyond this lies a further recognition: without at least attempting to actually engage and transform entrenched conflicts, our field cannot hope to achieve its potential. We will merely remain in a more diverse, multi-disciplinary ivory tower. This edition breaks new ground in explicitly connecting the Scholarship of Engagement to the work of conflict resolution professionals including those in the academy, those in the field, and those who refuse to choose between the two. The text explores a wide variety of examples of, and thinking on, the Scholarship of Engagement from participatory action research to peace education, and from genocide prevention to community mediation and transitional justice.

The Handbook of Conflict Resolution Dec 21 2021 The Handbook of Conflict Resolution, Second Edition is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

Human Rights and Conflict Resolution Mar 12 2021 Human rights and conflict resolution have been traditionally perceived as two separate fields, sometimes in competition or in tension and occasionally with contradictory approaches towards achieving a lasting peace. Although human rights norms have been incorporated and institutionalized by various national, regional, and international organizations that deal with conflict resolution, negotiators and mediators are often pressured in practice to overlook international human rights principles in favor of compliance and more immediate outcomes. The chapters in this volume navigate the relationship between human rights and conflict resolution by fleshing out practical, conceptual, and institutional encounters of the two agendas and engaging with lessons learned and windows of opportunities for mutual learning. Recognizing the increasing relevance of this debate and important gaps in the current research on the topic, this book addresses the following questions: How can we improve our practical and theoretical understanding of the complementarity between human rights and conflict resolution? How would a human rights-based approach to conflict resolution look like? How are international, regional, and national organizations promoting, implementing, and/or adapting to better coordinate between human rights and conflict resolution? Building on empirical evidence from contemporary conflict resolution processes, how have human rights been integrated in different efforts on the ground? What are the main lessons learned in this regard? Examining a wide range of countries and issues, this work is essential reading for human rights, conflict resolution, and security experts including scholars, diplomats, policy-makers, civil society representatives, and students of international politics.

Cultural Variation in Conflict Resolution Jun 02 2020 This volume's central purpose is to provide a clearly written, scholarly exploration of cultural variation regarding conflict resolution and in so doing, highlight certain alternatives to violence. It presents an interdisciplinary examination of how conflicts are perceived and handled in a variety of cultural settings. Drawing on data and models from anthropology, psychology, and political science, the chapters analyze conflict resolution across the societal spectrum, including cases from Western and non-Western traditions, complex and tribal societies, and violent and non-violent cultures. While demonstrating the extremely important impact of culture on conflict resolution processes, the book does not solely emphasize cultural specificity. Rather—through introductory chapters, section introductions, and a concluding chapter—the volume editors draw attention to cross-cultural patterns in an attempt to further the search for more general conflict principles. An explicit message throughout the book is that alternatives to violence exist. The volume demonstrates that at various levels—from the interpersonal to the international—conflicts can be handled in ways that cause far less pain and destruction than violence. Chapters by psychologists discuss social and cognitive processes for facilitating the learning of alternatives to violence among children and youth.

Anthropology contributors explore mechanisms for dealing with social conflict which allow some cultures to remain relatively peaceful and consider implications of their work for reducing violence in other societies. Chapters by former President of Costa Rica, Oscar Arias, and by political scientists examine how non-violent political solutions can be employed as alternatives to warfare and violent resistance.

Conflict Management Mar 24 2022 This book draws on a wide range of practical examples to describe how conflicts within organisations are traditionally managed and the complementary conflict management methods that can be employed. Stephan Proksch clearly explains these innovative methods and their potential applications. The central focus is on mediation as an effective form of conflict resolution. Discussion and questioning techniques as conflict management tools are explained in simple and concise terms.

On the Significance of Religion in Conflict and Conflict Resolution Mar 31 2020 In this ground-breaking volume, the authors analyze the role of religion in conflict and conflict resolution. They do so from the perspectives of Judaism, Christianity, and Islam, while bringing different disciplines into play, including peace and conflict studies, religious studies, theology, and ethics. With much of current academic, political, and public attention focusing on the conflictive dimensions of religion, this book also explores the constructive resources of religion for conflict resolution and reconciliation. Analyzing the specific contributions of religious actors in this field, their potentials and possible problems connected with them, this book sheds light on the concrete contours of the oftentimes vague “religious factor” in processes of social change. Case studies in current and former settings of violent conflict such as Israel, post-genocide Rwanda, and Pakistan provide “real-life” contexts for discussion.

Combining cutting-edge research with case studies and concrete implications for academics, policy makers, and practitioners, this concise and easily accessible volume helps to build bridges between these oftentimes separated spheres of engagement.

Getting to Yes Oct 07 2020 This is the second, greatly expanded edition of one of the world's most successful books on negotiation. 'Getting to Yes' offers powerful principles to guide readers to success in the art of negotiation.

Natural Conflict Resolution Dec 29 2019 "Filippo Aureli and Frans De Waal have succeeded in cross-fertilizing fields as disparate as ethology and medieval law to create a rich new field of research -- natural conflict resolution. It makes one see conflict resolution among humans through a new and fascinating lens. This is a landmark contribution!"--William Ury, co-author *Getting to YES*, author of *Getting Past No* and *Getting to Peace*

Promise and Performance of Environmental Conflict Resolution Feb 08 2021 Environmental conflict resolution (ECR) is a process of negotiation that allows stakeholders in a dispute to reach a mutually satisfactory agreement on their own terms. The tools of ECR, such as facilitation, mediation, and conflict assessment, suggest that it fits well with other ideas for reforming environmental policy. First used in 1974, ECR has been an official part of policymaking since the mid 1990s. The *Promise and Performance of Environmental Conflict Resolution* is the first book to systematically evaluate the results of these efforts. The *Promise and Performance of Environmental Conflict Resolution* presents empirical research along with insights from some of ECR's most experienced practitioners. Beginning with a primer about concepts and methods, the book describes the kinds of disputes where ECR has been applied, making it clear that 'despite the faith of proponents in the power and usefulness of ECR, it is not applicable to all environmental conflicts.' The contributions that follow critically investigate the record and potential of ECR, drawing on perspectives from political science, public administration, regional planning, philosophy, psychology, anthropology, and law. ECR is being extended to almost every area of environmental policy. Rosemary O'Leary and Lisa Bingham argue that truly effective use of ECR requires something more than advocacy. The *Promise and Performance of Environmental Conflict Resolution* provides scholars, policymakers, students, and practitioners with critical assessments, so that ECR can be used to its best advantage.

Intercultural Mediation and Conflict Management Training Sep 05 2020 This book introduces the topic of intercultural mediation and conflict management. Based on the latest scientific research and successful conflict management practices, it provides theoretical insights and practical, self-reflective exercises, role-plays and case studies on conflict, mediation, intercultural mediation, and solution-finding in conflict mediation. The book serves both as a self-learning tool to expand personal competences and cultural sensitivity, and as training material for seminars, workshops, secondary, advanced and higher education and vocational training. It is a valuable contribution to the fields of intercultural conflict mediation and conflict management, intercultural communication, intercultural training and coaching. This is a book about practicing - the applied practice of competent conflict crafts in diverse intercultural contexts. Conflict practitioners, mediators, and intercultural trainers would be inspired by Professor Claude-Hélène Mayer's creative integration of relevant intercultural models with do-able conflict strategies and in reaching intergroup harmony with reflexivity and cultural resonance. --- Professor Stella Ting-Toomey, Human Communication Studies, California State University at Fullerton, USA, and Co-Editor of *The SAGE Handbook of Conflict Communication*, 2e Given the difficulty and complexity of successful intercultural collaboration and conflict mediation, this is a much-needed addition to cross-cultural positive psychology. It is rich in content and training. I highly recommend it for teaching, corporate training, and for executive coaches. --- Professor Paul T.P. Wong, President International Network on Personal Meaning and President Meaning-Centered Counselling Institute, Toronto, Canada Intercultural conflict resolution is a critically important task in this modern world. This book by Professor Mayer is a welcome handbook on how to use mediation to resolve those conflicts. It should be in the library of every conflict mediator. My congratulations to Professor Mayer for her important work. --- Dan Landis, Founding President, International Academy of Intercultural Research, Affiliate Professor of Psychology, University of Hawaii

Peacekeeping and Conflict Resolution Jul 28 2022 Conflict resolution theory has become relevant to the various challenges faced by the United Nations peacekeeping forces as efforts are made to learn from the traumatic and devastating impact of the many civil wars that have erupted in the 1990s. This work analyzes the theory.

Culture & Conflict Resolution Nov 19 2021 After years of relative neglect, culture is finally receiving due recognition as a key factor in the evolution and resolution of conflicts. Unfortunately, however, when theorists and practitioners of conflict resolution speak of culture, they often understand and use it in a bewildering and unhelpful variety of ways. With sophistication and lucidity, "Culture and Conflict Resolution" exposes these shortcomings and proposes an alternative conception in which culture is seen as dynamic and derivative of individual experience. The book explores divergent theories of social conflict and differing strategies that shape the conduct of diplomacy, and examines the role that culture has (and has not) played in conflict resolution. The author is as forceful in critiquing those who would dismiss or diminish culture's relevance as he is trenchant in advocating conflict resolution approaches that make the most productive use of a coherent concept of culture. In a lively style, Avruch challenges both scholars and practitioners not only to develop a clearer understanding of what culture is, but also to take that understanding and incorporate it into more effective conflict resolution processes."

Conflict Resolution and Ontological Security Sep 25 2019 This volume highlights the ways in which the prospect of peace can generate anxieties and consequently set in motion social and political processes that reproduce and reactivate conflicts. In analysing this issue, the volume builds on the notion of ontological security and its recent applications to international relations theory. Although conflicts threaten the physical security of the parties involved, they also help settle existential questions about basic parameters of life, being, and identity, and thus over time become sources of ontological security. The prospect of peace, through the resolution or transformation of conflict, threatens to unsettle the stability and consistency of self-narratives, and their associated routines and habits at the individual, group, and state levels. The contributors argue two key points: 1) that ontological insecurity may set in motion political and social processes that reproduce and reactivate conflicts; 2) that coping with peace anxieties necessitates the formulation of alternative self-narratives at the individual, societal, and state levels that re-situate the Self in relation to Other and to the world at large. Consequently, the book analyses the ways in which, and the conditions under which, conflict resolution induces ontological insecurity, and the different ways in which ontological insecurity has prevented the successful culmination of peace processes in different conflict contexts, including Cyprus, Israel-Palestine and Northern Ireland. This book will be of much interest to students of critical security studies, conflict resolution, peace and conflict studies, social theory and IR in general.

Global Conflict Resolution Through Positioning Analysis Nov 07 2020 Readers find here a volume that applies positioning theory in order to achieve a fuller and more in-depth understanding of conflict and its psychological resolution. Positioning theory is the study of the nature, formation, influence and ways of change of local systems of rights and duties as shared assumptions about them influence small scale interactions. This book will thus be of interest to social psychologists and anyone interested in the development and applications of positioning theory.

Conflict Resolution May 02 2020 This book is the first of three volumes on conflict resolution for school administrators. The introduction provides a context for the discussion by outlining seven human systems levels at which conflict can occur and suggesting that the approach to dealing effectively with conflict varies with the level of the system involved. Chapter 1 explores the nature of conflict and its sources. Chapter 2 suggests a positive attitudinal stance useful for administrators engaging in conflict resolution. Ten attitudes are identified that, if adopted, will lay the foundation for the successful management of conflict. The third chapter presents a model for understanding conflict resolution and the distinction between conflict management and negotiation. Specific processes for conflict management and negotiation are presented in the fourth chapter, providing guidelines for resolving conflicts as they emerge at any human systems level. Twelve figures are included. Contains 15 references. (LMI)

The Complete Guide to Conflict Resolution in the Workplace Jun 14 2021 People thrive on conflict in most areas of their lives - football games, political debates, legal disputes - yet steer clear from workplace conflicts. But conflict is actually a healthy way to challenge the existing order and essential to change in the workplace. The real problem is not conflict per se, but managing conflict. This authoritative manual explains step by step how to design a complete conflict resolution system and develop the skills to implement it. Packed with exercises, case studies, and checklists, the book also supplies: * an overview of workplace conflict * diagnostic tools for measuring it * techniques for resolving conflict, such as negotiation, labor/management partnerships, third-party dispute resolution, mediation, arbitration, more. The SAGE Handbook of Conflict Resolution Jun 26 2022 'The SAGE Handbook of Conflict Resolution demonstrates the range of themes that constitute modern conflict resolution. It brings out its key issues, methods and dilemmas through original contributions by leading scholars in a dynamic and expanding field of inquiry. This handbook is exactly what it sets out to be: an indispensable tool for teaching, research and practice in conflict resolution' - Peter Wallensteen, Professor of Peace and Conflict Research, Uppsala University and University of Notre Dame 'Bercovitch, Kremenyuk and Zartman are among the most important figures in the conflict resolution field. They have pieced together, with the help of more than 35 colleagues from numerous countries, a state-of-the-art review of the sources of international conflict, available methods of conflict management, and the most difficult challenges facing the individuals and organizations trying to guide us through these conflict-ridden times. The collection is brimming with penetrating insights, trenchant analyses, compelling cases, and disciplined speculation. They help us understand both the promise of as well as the obstacles to theory-building in the new field of conflict resolution' - Lawrence Susskind, Professor and Director of the MIT - Harvard Public Disputes Program 'The last three sentences of this persuasive book: "We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment. It is absolutely necessary. Resolving conflicts and making peace is no longer an option; it is an intellectual and practical skill that we must all possess." If you are part of that "we," intellectually or professionally, you will find this book a superb companion' - Thomas C Schelling, Professor Emeritus, Harvard University and University of Maryland Conflict resolution is one of the fastest-growing academic fields in the world today. Although it is a relatively young discipline, having emerged as a specialized field in the 1950's, it has rapidly grown into a self-contained, vibrant, interdisciplinary field. The SAGE Handbook of Conflict Resolution brings together all the conceptual, methodological and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters. The Handbook is designed to reflect where the field is today by drawing on the contributions of experts from different fields presenting, in a systematic way, the most recent research and practice. Jacob Bercovitch is Professor of International Relations, and Fellow of the Royal Society, at the University of Canterbury in Christchurch, New Zealand. Victor Kremenyuk is deputy director of the Institute for USA and Canada Studies, Russian Academy of Sciences, Moscow. He is also a research associate at IIASA. I. William Zartman is Jacob Blaustein Professor of Conflict Resolution and International Organization at the Nitze School of Advanced International Studies of Johns Hopkins University
