The Intellectual Revolution of the Seventeenth Century (Routledge Revivals) Jan 25 2022 Intellectual history and early modern history have always occupied an important place in Past and Present. First published in 1974, this volume is a collection of original articles and

debates, published in the journal between 1953 and May 1973, dealing with many aspects of the intellectual history of the seventeenth century. Several of the contributions have been extremely influential, and the debates represent major standpoints in controversies over genesis of modern ideas. Although England is the focus of attention for most of the contributors, their themes have wider significance. Among the topics covered in the collection are the political thought of the Levellers and of James Harrington; radical social movements of the Puritan Revolution; the ideological context of physiological theories associated with William Harvey; the relationship between science and religion and the social relations of science; and the function of millenarianism and eschatology in the seventeenth century. The editor's Introduction indicates the context in which the articles were composed and provides valuable bibliographical information about the subjects discussed.

Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Taking the Path Less Travelled Jun 25 2019 In 2017 I was suddenly diagnosed of ovarian cancer and peritoneal carcinoma and my journey began taking the path no one dares to trod. It started with LVM, then colds and fever. When I consulted my family physicians, I was sent to a CT Scan and then was advised to go be admitted in the hospital. Then in the hospital I had again I had series of medical check-ups, after which the Ob-gyn told me that I would have an open surgery in order to find out what was really wrong with my abdomen After my first surgical procedure, I was informed about some internal organs that should be removed but what I so sad of was that I had a colostomy. Thank God my colostomy was only temporary, it was of Hartmann operation. But even then the rituals of the stoma care were very difficult for me. I had cried everytime I cleaned the stoma and changed the pouching bag Before I was discharged in the hospital, the surgeon told me that I had a malignant ovarian cancer and peritoneal carcinom. Then I was advised to consult the oncologist. The first cycle of chemotherapy was scheduled on my birthday. One could just imagine how I felt. I had three major surgeries and six cycles of chemotherapy. During my first surgery, my left ovary, appendix and a part of my big intestine were removed. During my second surgery, I was hoping that my colostomy would be reversed, but to my dismay, it was not yet reversed because my intestine still needed some rest. It was during my third surgery that the colostomy was removed and I could move my bowel the normal way. The side effects of chemotherapy were very difficult for me to bear. Practically I stayed in and out of the hospital from 2017 to 2019. Hope, Faith and Love made me survive this painful ordeal... and the journey continues...

Tall Life Feb 23 2022 This is a book for tall people, those who relate to them, and anyone interested in height in general. Being tall coincides with considerable professional, athletic, and social benefits. Yet there are also some problems, and these raise some questions. For instance, if longer levers and more cells really are behind increased risk of injuries and cancer, then how is it that giraffes get by? And why is it that society reveres tall stature but then compromises our safety with cramped cars and other things? And, as tall women might be pondering, where have all the tall, dark, and handsome men gone? Lastly, what can be done about all this? These questions and more will all be answered by a tall protagonist over eight chapters: Evolution, Scaling, Spine, Manufactured, Ergonomics, Growth, Longevity, and Society.

Stories from Our Indian Elders Sep 28 2019 Your choices now and in the future are guided by the past. Tap into the resources and experiences of our Elders today! The Indians who travelled to St. Vincent over a hundred years ago demonstrated how human beings can adapt to deal with difficult situations. In the face of dire economic conditions and famines in India many of them showed bravery by travelling abroad. Their lives and that of their descendants over the years show how they survived and became successful. In this book you will be captivated by the Elders' stories of hardship, risk-taking, struggle, adaptation, assimilation, strategy, identity, resilience, progress, strength and success. The book is a collection of eight fascinating interviews followed by thematic analyses and commentaries. The stories are preceded with a background of the historical situation that existed both in India and St. Vincent before the Indians embarked on their journeys to the Caribbean. They are followed by a periodic review of the narratives and a consideration of available records while also looking at the current situation in St. Vincent and India and future relationship possibilities.

"This work by Lenroy Thomas is a compelling read. Although it is dedicated to Indo-Vincentians in SVG and in the diaspora, it is really for all Vincentians since the Indian population is a significant part of the nation and has made valuable contributions to overall national development... I congratulate Lenroy Thomas on this piece of work and was pleased that he used oral history as a tool for developing the story of his people." Dr. Adrian Fraser, Retired Head of the University of the West Indies Open Campus. This book by Lenroy Thomas is a rich, multi-layered and multi-faceted resource. It contains the historical background of Indians in SVG, transcribed interviews with elders, and rare photographs. The value of this book resides in its worth as a source of secondary and primary data. The analysis of the interviews themselves can be the material for another book. - Dr. Kumar Mahabir, Anthropologist, University of Guyana

Eclipse 3 Jul 27 2019 To observe an eclipse is to witness a rare and unusual event. Under darkened skies the sun becomes a negative image of itself, its corona transforming the landscape into a strange space where anything might happen, and any story may be true... In the spirit of classic science fiction anthologies such as Universe, Orbit, and Starlight, master anthologist Jonathan Strahan (The Best Science Fiction and Fantasy of the Year) presents the non-themed genre anthology Eclipse: New Science Fiction and Fantasy. Here you will find stories where strange and wonderful things happen--where reality is eclipsed by something magical and new. Continuing in the footsteps of the multiple-award-nominated anthologies Eclipse One and Eclipse Two, Eclipse Three delivers new fiction by some of the genre's most celebrated authors, including Karen Joy Fowler's story of a family's desperation and a rebellious young woman's strange incarceration; Ellen Klages's fable of a practical girl, an unusual tortoise, and an ancient mathematical puzzle; Pat Cadigan's story of a mysterious photograph and two friends' journey through space and time in order to solve its riddle; Jeffrey Ford's tale of a legendary sword imbued with the power to turn flesh to coral, and of the artist that wields it; Daniel Abraham's story of divine providence, sacred oaths, and the omens that indicate whether a man is fit to be king; and Caitlin R. Kiernan's chronicle of an astronaut whose memories of a lover lost to an alien intelligence haunt her.

Viral Marketing im E-Business Jan 01 2020 Inhaltsangabe: Einleitung: Werbung in all ihrer Ausführung ist dem Verbraucher im TV, Radio, in den Zeitungen und Zeitschriften gegenwärtig. Etwa 2.500- bis 5.000-mal wird jeder Konsument täglich mit ihr konfrontiert, ob bewusst oder unbewusst. Diese Zahlen lassen schon erahnen, dass die klassische Massenwerbung ein erhebliches Problem mit ihrer Effizienz hat. Konsumenten sind negativ gegenüber der Werbung eingestellt, weshalb sie eine Abwehrhaltung aufgebaut haben. Zudem ist es nicht möglich, diese Masse an Werbung aufzunehmen. Ein Beispiel zu dieser Problematik liefert e on , welche 90 Millionen Euro in eine Kampagne (u. a. TV-Spots) mit Arnold Schwarzenegger investierte, um für ihr Stromprodukt MixPower zu werben. Schlussendlich entschieden sich darauf nicht einmal 1.000 Konsumenten für das umworbene Produkt. Experten vermuten, dass 75% der Kampagnen kein ausgewogenes Kosten-Nutzen-Verhältnis haben. Quantitativ versickern hiernach 22 der jährlich in Deutschland 29 Milliarden Euro für Werbung. Dieses Buch beschäftigt sich mit dem Viral Marketing im E-Business und stellt alternative Formen des Marketings im Internet vor. Für den Begriff E-Business gibt es keine einheitliche Definition. Die Literatur beschäftigt sich erst seit kurzer Zeit mit der Thematik des VM. Besonders auf die theoretischen Grundlagen wird in der Literatur zumeist noch unbefriedigend eingegangen. Teil B beginnt mit diesem Punkt in Kapitel 1, in dem die Mund-zu-Mund-Propaganda und ihre Auswirkung auf den unternehmerischen Erfolg erläutert werden.
