Administering Active Directory Oct 08 2020 A must-have for busy administrators this comprehensive guide is organized in a task-at-a-glance fashion, making it easy to find the topic you need.

IBM ZPDT Guide and Reference Nov 08 2020 This IBM® Redbooks® publication provides both introductory information and technical details about the IBM System z® Personal Development Tool (IBM zPDT®), which produces a small System z environment suitable for application development. zPDT is a PC Linux application. When zPDT is installed (on Linux), normal System z operating systems (such as IBM z/OS®) can be run on it. zPDT provides the basic System z architecture and emulated IBM 3390 disk drives, 3270 interfaces, OSA interfaces, and so on. The systems that are discussed in this document are complex. They have elements of Linux (for the underlying PC machine), IBM z/Architecture® (for the core zPDT elements), System z I/O functions (for emulated I/O devices), z/OS (the most common System z operating system), and various applications and subsystems under z/OS. The reader is assumed to be familiar with general concepts and

terminology of System z hardware and software elements, and with basic PC Linux characteristics. This book provides the primary documentation for zPDT.

IP Attorney's Handbook for Insurance Coverage in Intellectual Property Disputes Nov 01 2022 This book addresses clients' questions regarding intellectual property insurance coverage and contains information vital to litigators who wish to use insurance to reimburse the cost of defending IP lawsuits, or obtain moneys for their settlement and/or indemnification of damage awards. The book focuses on the policy language carriers have used, how courts have interpreted these, and issues IP practitioners need to be sensitive to in litigating insurance cases.
