[Magnificent Failure](#) Mar 28 2020 Locked in a desperate Cold War race against the Soviets to find out if humans could survive in space and live through a free fall from space vehicles, the Pentagon gave civilian adventurer Nick Piantanida's Project Strato-Jump little notice until May Day, 1966. Operating in the shadows of well-funded, high-visibility Air Force and Navy projects, the former truck driver and pet store owner set a new world record for manned balloon altitude. Rising more than 23 miles over the South Dakota prairie, Piantanida nearly perished trying to set the world record for the highest free fall parachute jump from that height. On his next attempt, he would not be so lucky. Part harrowing adventure story, part space history, part psychological portrait of an extraordinary risk-taker, this story fascinates and intrigues the armchair adventurer in all of us.

The Post Office of India and Its Story Feb 07 2021 Sir Geoffrey Rothe Clarke was a senior civil servant in British India from 1903 to 1925. His book 'The Post Office of India and its Story' is his historical record of the evolution of postal services in British controlled India. He captures the pivotal moment when Postal services were formalized and brought under centralized control under a Director General. Clarke traces this journey from the enactment of the Post Office Act of 1854 to the subsequent growth of Indian postal services until the time of his writing the book in 1923. It is a fascinating read with a great deal of detail about the operations of the postal services in India.

The War of 1898, and U.S. Interventions, 1898-1934 Jun 30 2020 A fascinating encyclopedic survey of the Spanish-Cuban/American War, the Philippine War, and the small wars between 1899 and the end of the occupation of Haiti in 1934. The name changes themselves are instructive. The usage of "Spanish-American War" ignores the fact that the war in Cuba had been largely won by the Cuban revolutionaries before US intervention, hence the new title, Spanish-Cuban/American War. The use of "Philippine Insurrection" is replaced by Philippine War, since the Philippine forces had taken much of the islands from Spain before US ground forces arrived. And guerillas or revolutionaries have replaced "bandits," the term used by the US to discredit oppositional forces. Annotation copyright by Book News, Inc., Portland, OR

Pub2Pub Mar 08 2021 There's popping out for a quick pint, and then there's this - a gloriously preposterous 27,000 mile journey across 25 countries to grab a beer in pubs (bars) at opposite ends of the world. We're talking an epic adventure, from an abandoned Soviet mine 700 miles from the North Pole, to a remote pub at South America's southernmost tip. A journey undertaken in a TVR sports car, a car that many might consider untrustworthy just to drive to the shops. The journey packed a lot into its eight months. From braving the sheer drops of Bolivia's Death Road, to drag racing the locals in Texas. From roaring across flooded salt flats, to sailing the straits of Magellan. From the highs of the planet's best driving roads, to the lows of life in No-Man's-Land, trapped between borders by red tape and bureaucracy. And from looking out for Polar Bears in the High Arctic, to dodging penguins in Tierra del Fuego. The story of the Pub2Pub Expedition is an inspirational account of where your dreams can take you if only you believe in them. Chronicling the epic journey made by Ben Coombs in his TVR Chimaera, this book is both an exciting adventure and a fascinating snapshot of the life and culture of the countries that he drove through.

Land Without Evil Feb 25 2020 All too often, travel writers plunge into seemingly obscure parts of the globe with little knowledge of where they are, whom they are among, or what has happened there in the past. In this trend-breaking anti travel book, Richard Gott describes his own journey through the heart of South America, across the swampland that forms the watershed between the River Plate and the River Amazon. But the story of his expedition takes second place to a brilliant resurrection of the historical events in the area over five hundred years, of the people who have lived there and the visitors who have made the same journey. The land crossed by the Upper Paraguay river once formed the contested frontier in South America between Spanish and Portuguese territory. The Portuguese sent expeditions through it in attempts to reach the Spanish silver mines of the Andes, and the Jesuits (supported by the monarch in Madrid) established strategic hamlets—the famous Indian missions—to stabilize the frontier. But this was not the beginning or end of conflict in the area. Earlier, the Guarani-speaking Indian nations of Paraguay had made violent contact across the swamp with the Quechua-speakers of the Inca empire; later, after the departure of the Spaniards, the nineteenth century witnessed a prolonged period of purposeful extermination of the local peoples. Since the Spanish conquest, the area has seen an endless procession of newcomers pursuing unsuitable and utopian programmes of economic and social development that have inevitably ended in disaster for the local population. Intermingling accounts of his own travels over many years with those of Jesuit priests, Spanish conquistadors and Portuguese Mamelukes, together with those of other visitors such as Alcides D'Orbigny, Theodore Roosevelt, and Claude Levi-Strauss, Richard Gott weaves a complex web of narrative that brings to life the almost unknown frontier land of Brazil, Bolivia and Paraguay. Both gripping and polemical, *Land Without Evil* is a significant contribution to our knowledge of South America.

College & University Food Service Manual Feb 19 2022 Abstract: The successful college food service director has enthusiasm, empathy, dedication, ethics, quality consciousness, an outgoing personality, leadership ability, food service knowledge, business knowledge, close association with other food service

professionals, and awareness of and dedication to good nutrition. A new food service director chronologically prioritizes steps to take to reorganize his operation. The manual presents reorganization steps chronologically to include: 1) developing a master plan; 2) setting up a food purchasing system; 3) establishing budgets and control; 4) building a staff; 5) maintaining food quality; and 6) dealing with residence halls, cash operations, vending, sanitation, safety, catering, special events, and public relations. Appendixes and exhibits provide illustrative, helpful suggestions. A food service director's job can be creative, imaginative, challenging, interesting, and rewarding for the director who is on top of things.

Fundamentals of Automotive Technology Sep 26 2022 Fundamentals of Automotive Technology: Principles and Practice covers crucial material for career and technical education, secondary/post-secondary, and community college students and provides both rationales and step-by-step instructions for virtually every non-diagnosis NATEF task. Each section provides a comprehensive overview of a key topic area, with real-life problem scenarios that encourage students to develop connections between different skill and knowledge components. Customer service, safety, and math, science, and literary principles are demonstrated throughout the text to build student skill levels. Chapters are linked via cross-reference tools that support skill retention, critical thinking, and problem-solving. Students are regularly reminded that people skills are as important as technical skills in customer service fields.
