Secrets and Siblings Nov 03 2022 Thirty-two years ago Mrs Li and Mr Wu from Zhejiang abandoned their second baby daughter at a marketplace. Mrs Wang Maochen from Beijing has seven children, but six of them are illegal so they could not go to university, could not take a job, go to the doctor, or marry, or even buy a train ticket. Zhao Min from Guangzhou first learned about the concept of a sibling at university, in her town there were no sisters or brothers. With the Chinese government now adapting to a two child policy, *Secrets and Siblings* outlines the scale of its tragic consequences, showing how Chinese family and society has been forever changed. In doing so it also challenges many of our misconceptions about family life in China, arguing that it is the state, rather than popular prejudice, that has hindered the adoption of girls within China. At once brutal and beautifully hopeful, *Secrets and Siblings* asks what the state and its children will do now that they are becoming adults.

The Imperfect Secret Jan 13 2021 By 2020, we we will be unable to protect 75% of our online data - put simply: three out of four of our most precious secrets will be completely public. There is no such thing as total security. I wanted to write a book for everybody, but I couldn't write what I wanted to, because first I had to write it for a chosen few. There's a gap, wide as an ocean, between the ordinary reader's knowledge and that of the specialist, when we talk about information security issues. After 25 years as a cyber security expert, I have become convinced that this gap needs a bridge, in the form of a book, but that ocean is so wide, that first it needs a book to narrow it. This is that book. This book is about the smallest and most delicate asset that anyone and everyone possesses: our secrets. And I have bad news for you: our secrets are under threat, just when we thought they were in the most secure place that they could possibly be. Something happened, and it's irreversible, and still not fully understood. Don't think about those small secrets that are easy to share, or lose, or bring out into the light of day. Think about your most hidden, perhaps even forgotten secrets, things that could ruin your life, or the life of your loved ones; or bring down a company's reputation, damage its profits, or just tear the whole thing into pieces. Remember the VW emissions scandal? just insert the name of your company! Pretty scary, no? And now for the good news. I partnered with a good friend and social-psychology expert, Zsuzsanna Szvetelszky, and took a good look at where the world is heading. Should we really share everything with each other? Can a secret-service exist any longer, where secrets will remain secrets? In the future, will we know everything about our politicians, company leaders, or the family living across the street? What is a secret anyhow? Why are they so important for us? Critical and complicated times are ahead, from the point of view of sociologists and information theorists, and we need to change the way we protect our data. In this book you'll find some practical advice and observations, to offer some answers for the emerging challenges of the new world that is already arriving.

Secrets and Shadows Feb 11 2021 This book takes my personal experiences from childhood to the point of Living with PTSD for many years. I cannot speak for all Vietnam Veterans and only for myself. Coming from a middle class family and enjoying growing up till a war changed everything and created an atmosphere of resentment, bitterness and hopelessness for the future. As a Marine Corps drill instructor once said. “It’s our job to take kids straight out of high school whose biggest worry was getting a prom date and transforming them into cold blooded killers!” War is an ugly business that leaves unseen permanent scars. Back then there was no outreach programs or grief counseling. The Marine Corps solution was “Get drunk and forget it” or “Saddle up and move on because it won’t get better”. Over 58,000 of my brothers in arms lost their lives in Vietnam and no-one can really say why. Then returning home to a country that scorned our service forcing us to keep deep secrets and live the rest of our lives in the shadows of other Veterans who welcomed home with open arms. Vietnam veterans were the only veterans in history scorned, ridiculed and condemned for serving their country. Now we are put on the broken tools of war shelf to gather dust and be forgotten in time. As I have stated before. Don’t ask me to say the pledge of Allegiance because it won’t happen. I already did that, enlisted in the U.S. Marine Corps and served this nation in war. When I came home this Nation turned it’s back on me and all the others that served in the armpit of Asia as well. This country owes me “NOTHING” and I owe this country “NOTHING”. WE ARE EVEN!!

The Secret Life of Secrets Jan 25 2022 “If you’ve ever wondered why we keep secrets and what motivates us to spill them, look no further. Michael Slepian has spent the past decade studying the psychology of secrets, and is ready to reveal his findings to the world.”—Adam Grant, #1 New York Times bestselling author of *Think Again* “The Secret Life of Secrets gracefully blends engaging stories with compelling science.”—Sonja Lyubomirsky, University of California professor and author of *The How of Happiness* Think of a secret that you’re keeping from others. It shouldn’t take long; behavioral scientist Michael Slepian finds that, on average, we are keeping as many as thirteen secrets at any given time. His research involving more than 50,000 participants from around the world shows that the most common secrets include lies we’ve told, ambitions, addictions, mental health challenges, hidden relationships, and financial struggles. Our secrets can weigh heavily upon us. Yet the burden of secrecy, Slepian argues, rarely stems from the work it takes to keep a secret hidden. Rather, the weight of our secrets comes from carrying them alone, without the support of others. Whether we are motivated to protect our reputation, a relationship, a loved one’s feelings, or some personal or professional goal, one thing is clear: Holding back some part of our inner world is often lonely and isolating. But *The Secret Life of Secrets* shows you that it doesn’t have to be. Filled with fresh insight into one of the most universal—yet least understood—aspects of human behavior, *The Secret Life of Secrets* sheds a fascinating new light on questions like: At what age do children develop the cognitive capacity for secrecy? Do all secrets come with the same mental load? How can we reconcile our secrets with our human desires to relate, connect, and be known? When should we confess our secrets? Who makes for the ideal confidant? And can keeping certain types of secrets actually enhance our well-being? Drawing on over a decade of original research, *The Secret Life of Secrets* reveals the surprising ways that secrets pervade our lives, and offers science-based strategies that make them easier to live with. The result is a rare window into the inner workings of our minds, our relationships, and our sense of who we are.

The Spy Who Loved Jul 31 2022 The remarkable story of Krystyna Skarbek, aka Christine Granville, George Medal, OBE and Croix de Guerre. In June 1952, a woman was murdered by an obsessive colleague in a hotel in South Kensington. Her name was Christine Granville. That she died young was perhaps unsurprising, but that she had survived the Second World War was remarkable. The daughter of a feckless Polish aristocratic and his wealthy Jewish wife, she would become one of Britain's most daring and highly decorated secret agents. Having fled Poland on the outbreak of war, she was recruited by the intelligence services long before the establishment of the SOE, and took on mission after mission. She skied over the hazardous High Tatras into Poland, served in Egypt and North Africa and was later parachuted into Occupied France, where an agent's life expectancy was only six weeks. Her courage, quick wit and determination won her release from arrest more than once, and saved the lives of several fellow officers, including one of her many lovers, just hours before their execution by the Gestapo. More importantly, perhaps, the intelligence she gathered was a significant contribution to the Allied war effort and her success was reflected in the fact that she was awarded the George Medal, the OBE and the Croix de Guerre.

Shared Secrets Oct 10 2020 For nearly a century, British expatriate Charles Joseph Finger (1867–1941) was best known as a Newberry-award-winning author of children's literature. In Shared Secrets, Elizabeth Findley Shores relates Finger's untold story, exploring the secrets that connected the author to an international community of twentieth-century queer literati. As a young man, Finger reveled in the easy homosociality of his London polytechnical school, where he launched a student literary society in the mold of the city's private men's clubs. Throughout his life, as he wandered from England to Patagonia to the United States, he tried to recreate similarly open spaces—such as Gayeta, his would-be art colony in Arkansas. But it was through his idiosyncratic magazine All's Well that he constructed his most successful social network, writing articles filled with coded signals and winking asides for an inner circle of understanding readers. Shared Secrets is both the story of Finger's remarkable, adventurous life and a rare look at a community of gay writers and artists who helped shaped twentieth-century American culture, even as they artfully concealed their own identities.

Traffic Secrets May 17 2021 Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.
