Confessions of a Guide Dog Jun 11 2021 Have you ever wondered what a guide dog does? How do they know to lead a blind owner? Can they understand traffic lights? Most importantly, how does the owner know where to pick up the poop? This memoir answers these questions—and more. It tells what guide dogs are supposed to do. They're smart, loyal and well-trained—but not all dogs are created alike. Musket is proof of that. He's definitely got a thing for treats and belly rubs. For the first time, the dog has his say. (Of course he needed a little help with the typing, since he doesn't have opposable thumbs. That's where author Mark Carlson came in. Still, Musket is the brains of the outfit.) Mark and Musket tell their story with humor, emotion, and Musket's occasional contradictions. And at the end of the day, Musket somehow manages to be a great guide dog too. Confessions of a Guide Dog was written so a wonderful, devoted dog could reach out to those who haven't been lucky enough to meet him. He'll make you smile, laugh, cry, and want to give him treats. This is their story. (And they're sticking to it.)

German Military Vehicles of World War II Jul 20 2019 This volume presents a cross-section of the most common transport vehicles produced and used by the German army. Tanks plus auxiliary vehicles such as cars,

motorcycles, vans, ambulances, trucks and tractors made it possible for the troops to keep moving. These lightly armored or unarmored vehicles--aka "soft skins"--operated behind the front lines, maintaining supply lines, connecting armies with their home bases, and ultimately determining the outcome of battle. Beginning with the development of military vehicles in the early 1930s, this volume discusses the ways in which this new technology influenced and, to some extent, facilitated Hitler's program of rearmament. Nomenclature, standard equipment, camouflage and the combat roles of the various vehicles are thoroughly examined. Individual vehicle types are arranged and discussed by the following classifications: cars and motorcycles; trucks and tractors; half-tracks and wheeled combat vehicles. Accompanied by well-researched, detailed line drawings, each section deals with a number of individual vehicles, describing their design, manufacture and specific use.

A Good Dog's Guide to Murder Sep 02 2020 The great Gingerbread Dog & Cat House competition has come to Wagtail, along with another murder to solve for Holly and her supersmart Jack Russell terrier Trixie in the New York Times bestselling *Paws & Claws* series by Krista Davis! Visitors are arriving in droves to spend Thanksgiving in the mountains of pet-friendly Wagtail, Virginia. Many of them are bringing dog and cat gingerbread houses to enter in the contest that will be held in the new convention center. Wagtail resident Orly Biffle bequeathed the land to the town in his will, provided that they not cut down the grand old oak tree on the property. Orly's children are mighty miffed that they didn't inherit the prime piece of property overlooking the lake. Holly notices that Trixie and Twinkletoes, her calico kitty, are fixated on the big oak tree. Trixie barks at it as though she thinks it's a corpse! Just as contestants are spicing up their sweet gingerbread creations, the majestic tree drops an enormous limb. The mayor declares that the tree is dangerous and must come down. When a bulldozer churns up some roots, the tree falls over on its own accord revealing a body inside the trunk! Initially, everyone suspects this unsavory trick was Orly's doing. But it soon becomes clear

that someone is trying to keep the truth under wraps. Trixie and Twinkletoes now have to help Holly sniff out some suspects and leash a conniving killer.
