*Creative Safety Solutions* May 28 2022 With so much to do and so little time in today's workplace, it's often difficult to bring new ideas and concepts to the attention of employees-let alone make proposed measures regular practice. What's a safety manager to do in order to draw attention to workplace safety issues? Be creative! Creative Safety Solutions presents innovative ways to solve complex safety and health problems in the office or factory. The key to its distinctive approach: motivate employees to "think safety." It also details ways to convince management that a safety program is worth the funding and effort. Workplace safety awareness saves money... time... and lives. Creative Safety Solutions will encourage your employees and executives to pay attention-and take part.

**Web Based Corporate Institutes** Dec 31 2019 "In medieval times, stone castles dotted the countryside of Europe. They attracted itinerant merchants and craftsmen who would wander from castle to castle selling

their labor, products, and services. When wars occurred between the castle rulers which resulted in one castle taking over another, it was a common practice of the time to plunder the castles treasures, take prisoners, and scatter the occupants of the enemy castle throughout the countryside. Today, corporate castles of steel and glass dot the countryside of many modern nations. Itinerant professional college students and workers wander from corporate castle to corporate castle seeking employment much as their ancestors might have done during the middle ages. When modern economic wars between castles occur and one corporate castle takes over another corporate castle, the assets of the acquired corporation are taken over and the occupants of the former corporation are either incorporated into the new corporation or laid off." -T.H.Henning, From Web Based Corporate Institutes Defense industry and commercial industry corporate executives who are searching for strategies and solutions to better manage people in multicultural corporations may find a solution in Web Based Corporate Institutes. The case for developing a web based corporate institute as one way to resolve human resource development issues is thought provoking and insightful. The author provides highlights from his experience at International Business Machines Corporation, Loral Corporation, Lockheed Martin Corporation, Litton Industries TASC (now a division of Northrop Grumman), and Veridian (recently acquired by General Dynamics).

Designing and Delivering Training Nov 09 2020 David Simmonds' book focuses on the blend between theory and practice. It will not be (merely) a "how-to" set of checklists for operational practitioners, nor (just) an academic review of the literature for strategic managers. Instead, each chapter will specifically combine the relevant thinking with appropriate real-life evidence, through the use of pedagogical features.
