The Politics of Cancer Revisited May 03 2020 "The Politics of Cancer Revisited," by internationally renowned authority on cancer causes and preventions, Samuel S. Epstein, M.D., backed by meticulous documentation, charges that the cancer establishment remains myopically fixated on damage control--diagnosis and treatment, and basic genetic research with, not always benign, indifference to cancer prevention research and failure of outreach to Congress, regulatory agencies, and the public with scientific information on unwitting exposures to a wide range of avoidable causes of cancer. The National Cancer Institute (NCI) and the American Cancer Society (ACS) are also accused of pervasive conflicts of interest, particularly with the cancer drug industry.

Ready to Answer Oct 27 2019 Its an abomination! They want to pick and choose what parts of the Bible to obey! God created Adam and Eve, not Adam and Steve! Most same-gender-loving Christians from fundamentalist backgrounds have heard these phrases, over and over again, from their Accusers homophobic Christians who refuse to acknowledge LGBT Christians as part of the Body of Christ. In Ready to Answer, Rev. Marilyn Bowens responds to their favorite slogans; and shares additional insights from her journey from fundamentalism to peaceful, authentic, and intimate relationship with God. Ready to Answer is food for the souls of LGBT Christians who are struggling to heal from the abusive theology, policies, and practices of Accuser churches. * * * It is critically important that all LGBT Christians have an answer for those who would dare suggest that we are not embraced by the extravagant grace of our loving God. In the much needed and long awaited book, Ready to Answer, Rev. Bowens will enable us, our families and allies to conquer the fears within and the foes without. Rev. Dr. Yvette Flunder Founder and Presiding Bishop, The Fellowship of Affirming Ministries This is a book that can save lives, sanity; can help people really entrapped. It is very disarming. Rev. Dr. Nancy Wilson Moderator, Metropolitan Community Church

Understanding and Applying Research Design Sep 30 2022 A fresh approach to bridging research design with statistical analysis While good social science requires both research design and statistical analysis, most books treat these two areas separately. Understanding and Applying Research Design introduces an accessible approach to integrating design and statistics, focusing on the processes of posing, testing, and interpreting research questions in the social sciences. The authors analyze real-world data using SPSS software, guiding readers on the overall process of science, focusing on premises, procedures, and designs of social scientific research. Three clearly organized sections move seamlessly from theoretical topics to statistical techniques at the heart of research procedures, and finally, to practical application of research design: Premises of Research introduces the research process and the capabilities of SPSS, with coverage of ethics, Empirical Generalization, and Chi Square and Contingency Table Analysis Procedures of Research explores key quantitative methods in research design including measurement,

correlation, regression, and causation Designs of Research outlines various design frameworks, with discussion of survey research, aggregate research, and experiments Throughout the book, SPSS software is used to showcase the discussed techniques, and detailed appendices provide guidance on key statistical procedures and tips for data management. Numerous exercises allow readers to test their comprehension of the presented material, and a related website features additional data sets and SPSS code. Understanding and Applying Research Design is an excellent book for social sciences and education courses on research methods at the upper-undergraduate level. The book is also an insightful reference for professionals who would like to learn how to pose, test, and interpret research questions with confidence.
