**Slovenski etimološki slovar** Jan 29 2020 Slovenski etimološki slovar je namenjen vsakomur, ki ga zanima, zakaj se kruhu re?e kruh, vodi voda, vinu vino in ne kako druga?e, od kod so v slovenš?ino prišle besede aperitiv, gangster, garsonjera in kateri so njihovi prvotni pomeni. Zasnovan je kot jezikovni priro?nik, s katerim lahko tudi jezikoslovnih besedil manj vajen uporabnik izve, od kod izvirajo današnje slovenske knjižne besede in kaj so prvotno pomenile. Etimološke razlage so zato poljudnoznanstvene: spremlja jih minimalna argumentacija in dokumentacija, prvotni pomeni posameznih besed so nazorneje izraženi, vendar skušajo vsebinsko ustrežati današnji stopnji razvoja etimološke znanosti. Prva izdaja Slovenskega etimološkega slovarja je izšla leta 1997, druga leta 2003 (ponatis 2009). Tretja izdaja v 9494 slovarskih sestavkih obravnava nekaj ve? kot 30.000 slovenskih besed, predvsem knjižnih, ki jih osvetljuje s prikazom ve? kot 64.000 tujih. Od druge izdaje se razlikuje predvsem v izboljšanju nekaterih etimoloških razlag in v navajanju okvirnega pomena za vsako slovarsko izto?nico. Delo je v elektronski obliki prosto dostopno tudi na slovarskem portalu Fran.

**Sinonimni slovar slovenskega jezika** Aug 25 2019 Pomeni besed in besednih zvez slovenskega jezika so v veliki meri slovaropisno prikazani v Slovarju slovenskega knjižnega jezika, ki je bil dokon?an leta 1991 in z novejšim besedjem dopolnjen v drugi izdaji leta 2014. Pomenski opis danega jezika pa ni popoln, dokler ne omogo?a pregleda nad sinonimi, tj. besedami in besednimi zvezami, ki so medsebojno v razmerju pomenske podobnosti in variantno ubesedujejo dolo?eni pomen. Sinonimni slovar slovenskega jezika dopolnjuje pomenski opis slovenš?ine tako, da na 1292 straneh v 33 077 sinonimnih nizih prikazuje ve? kot 250 000 sinonimnih razmerij. Slovar prihaja k uporabnikom kot jezikovni priro?nik, ki omogo?a pomensko in zvrstno-stilno vrednotenje leksikalne izbire v slovenskem jeziku, bodisi pri ustvarjanju besedila, bodisi pri njegovem interpretiranju.

**Svet pod Krimom. Druga, prenovljena izdaja** Oct 08 2020 Mikrozgodovina upora in kolaboracije, kot bi lahko podnaslovili Gestrinovo študiju o življenju v podkrimskih vaseh v ?asu med 1941 in 1945 je avtorjev poskus rekonstrukcije najbolj travmatičnega obdobja slovenske zgodovine. Gestrinova zgodovina smrti in upanja ni samo še en deskriptivni opis vojskujo?ih se enot, temve? prerez nasilnega vsakdana, ki je nekdanje sodeze razdelil na odporne in sodelavce okupatorjev. Le-ti skozi osrednja poglavja knjige znova oživijo tudi zato, ker izvemo o njih skoraj vse: iz kakšne družine so izhajali, kaj so bili po poklicu, v kolikšni meri so bili (?e so bili) dejavni v komunistični partiji ali sindikalni organizaciji še pred za?etkom vojne. V kolikšni meri so bili (?e so bili) razpeti med delom v bližnji Ljubljani in opravi na doma?iji, kako so doživljali okupacijo, zakaj so se pridružili partizanskim enotam oz. enotam MAVC in, kon?no, zakaj so morali ali hoteli ene zamenjati z drugimi in kaj je to pomenilo za njihove družine ... Za današnji ?as izjemno pomemben pa je njegov namen, da se z dokumentirano študijo zoperstavi iz konteksta iztrganemu prikazovanju tega ?asa. Da se zoperstavi »poenostavljeni in nekritični oceni ve?plastnosti dogajanja na eni in na drugi strani«. Še ve?, instrumentalizacija te in katerekoli druge preteklosti je bila zanj »nesprejemljive«. Tako v ?asu takoj po vojni, kot v ?asu po 1989, je namre? pogrèšal »ljudi, doma?ine na obeh straneh, njihovo množično odzivanje na splošno in lokalno dogajanje ter njihovo sodelovanje v njem in posledice, tudi negativne, ki so temu sledile«. »Usoda jih je« po njegovem mnenju »v mnogih primerih premetavala z ene na drugo stran, v boju za eno ali drugo vizijo reševanja slovenskih eksistencialnih vprašanj tistega ?asa in poznejšega razvoja, v krvavi bratomorni boji, ki je dobival oblike in zna?ilnosti državljanske vojne v pogojih okupacije in kolaboracije«. Pri tem ga ni zanimala toliko vojaška plat dogajanja, ?eprav na posameznih mestih sre?amo dokaj natan?ne opise spopadov za Ig. Bistveno bolj ga je zanimalo razumevanje in interes za ?im bolj celovito predstavitev »vseh notranjih in zunanjih pretresov, telesnih in fizičnih naporov, strahu in groze ... ran in smrti«, podobno, kot ga je zanimala usoda posameznih doma?ij v podkrimskih vaseh. \_\_\_\_\_ The micro-history of resistance and collaboration, as the subtitle could read of Gestrin's study on the life in the villages at the base of Mt. Krim in 1941–1945, is the author's attempt at reconstructing the most traumatic period in Slovenian history. Gestrin's history of death and hope is not just another descriptive statistics of combat units, but rather a cross-section of a violent daily routine that divided former neighbors into members of the resistance and collaborators with the occupying forces. These are brought back to life in the central chapters of the book, also by revealing nearly every aspect of their existence: what kind of families they came from, what they did for a living, the extent to which were they (if at all) active in the Communist Party or a trade union organization before the war. To what extent were they (if at all) torn between work in the nearby Ljubljana and chores on their farms, how did they experience the occupation, why did they join the Partisan and MVAC units, respectively, and, finally, why were they forced or otherwise compelled to switch sides and what implications did that have for their families...

**Asset Forfeiture Law in the United States - Second Edition** Jul 29 2022 Asset Forfeiture Law in the United States - Second Edition serves as both a primer on forfeiture law for the newcomer to this area, as well as a handy resource for anyone needing a comprehensive discussion of any of the recurring and evolving forfeiture issues that arise daily in federal practice. The author is one of the federal government's leading experts on asset forfeiture law. As a federal prosecutor, he has been litigating asset forfeiture cases since the late 1980's, was a Deputy Chief of the Justice Department's Asset Forfeiture and Money Laundering Section for many years, and is now the Chief of the Asset Forfeiture and Money Laundering Section in the U.S. Attorney's Office in Baltimore, MD. Asset Forfeiture Law in the United States - Second Edition is a completely revised and up-to-date treatise that addresses important changes and significant developments in civil and criminal forfeiture law. Every chapter has been rewritten as a result of the explosive growth in this area of law and practice. This comprehensive one-volume resource examines and explores the outpouring of new case law stemming from federal law enforcement agencies that include the FBI, DEA, IRS and Homeland Security. The Second Edition continues to lead the practitioner, prosecutor, judge and policy maker through the labyrinth of statutes, rules and cases that govern this dynamic area of the law. Many countries in Europe, Asia and Africa, as well as Australia and the Americas, have enacted asset forfeiture statutes modeled on U.S. law, making the cases interpreting the statutes relevant beyond the borders of the United States.

**Gran Turismo 2** Feb 09 2021 "Where was this book when I was a new nurse just learning the ropes of labor and delivery? This is a true gem of a book-a must for any new grad going into labor and delivery .I recommend this book for every labor and delivery floor." Cindy Curtis, RNC, IBCLC, CCE Former Director, The Family Birth Center Culpeper Regional Hospital Lignum, VA "The best one stop reference book for the experienced and noviced Labor and Delivery RN....Finally an excellent Labor and Delivery book by RN's -- for RN's." Garla DeWall, RNC Presbyterian Hospital in the Family Birthing Center Albuquerque, New Mexico Labor and delivery nursing requires critical thinking, constant caring, teamwork, and communication. As the first line of defense to prevent injury, labor and delivery nurses take on some of the most difficult and trying challenges in the delivery room. Murray and Huelsmann present this clinically oriented guide to help labor and delivery nurses make wise decisions in the delivery room. The authors provide a wealth of insight on how to maximize both maternal and fetal outcomes. This book provides authoritative guidance on intervention options, creation of patient-centered plans of care, and improved communication with other members of the obstetrics team. Special Features: Explains the stages and phases of delivery, pain management, patient assessment, and much more Features references, relevant graphics, skills checklists, and review questions at the end of each section Useful for RNs new to the field, seasoned practitioners looking for updated methods and data, and nurses preparing for certification and licensure With this book, nurses will gain the confidence and competence to approach labor and delivery challenges with care and efficiency.

*The Use of Hereford* Feb 21 2022 The Use of Hereford, a local variation of the Roman rite, was one of the diocesan liturgies of medieval England before their abolition and replacement by the Book of Common Prayer in 1549. Unlike the widespread Use of Sarum, the Use of Hereford was confined principally to its diocese, which helped to maintain its individuality until the Reformation. This study seeks to catalogue and evaluate all the known surviving sources of the Use of Hereford, with particular reference to the missals and gradual, which so far have received little attention. In addition to these a variety of other material has been examined, including a number of little-known or unknown important fragments of early Hereford service-books dismembered at the Reformation and now hidden away as binding or other scrap in libraries and record offices.
