[The Immortal Conquistador](#) Feb 13 2021 From the author of the beloved Kitty Norville werewolf talk-show host series, the last full tale in the series: the vampire origins of Kitty's famed ally, Rick--and his sudden turn to darkness in the seventeenth century. More than 500 years before his friendship with Kitty, noble Ricardo de Avila met a fate-changing twist, where his morally-complex, blood-soaked existence as an immortal began. "A must have for Kitty Norville fans, but also an excellent standalone for readers new to Vaughn's worlds." --Kelley Armstrong, author of *Bitten* and *Wherever She Goes* Ricardo de Avila would have followed Coronado to the ends of the earth. Instead Ricardo met with the end of his mortal life--and a new one, as the renegade vampire, Rick. For over five hundred years, Rick has infuriated the demon world. He has ferociously protected his found-family from marauding vampires, joined forces with a legendary gunslinger, appointed himself the Master of Denver, and called upon a church buried under the Vatican. Of late, Rick has even made a famous friend: everyone's favorite werewolf talk-show host, Kitty Norville. Now, whether you are new to Vaughn's fan-favorite novels, or a longtime reader, you'll be riveted by the final full-length tale of the series. About the Kitty Norville series: Carrie Vaughn's series, about a werewolf who hosts a talk radio advice show for the supernaturally disadvantaged, began with *Kitty and the Midnight Hour*. The series will end with *The Immortal Conquistador*, and the forthcoming collection *Kitty's Mix-Tape*. For more about the Kitty Norville books, go to <https://carrievaughn.com/kittybooks.html>.

The Onion and Philosophy Aug 29 2019 The Onion, with its unique brand of deadpan satirical humor, has become a

familiar part of the American scene. The newspaper has a readership of over a million, and reaches millions more with its spin-off books and Onion News Network. The Onion has shown us that standard ways of thinking about the news have their grotesque and silly side, and this invites philosophical examination. Twenty-one philosophers were commissioned to provide witty philosophical perspectives on just what makes the Onion so truthful and insightful. Former Governor Sarah Palin reported: "I just couldn't put it down. The Onion and Philosophy is the most exciting book I've read since Principia Mathematica." Are the Onion writers truly cynical, or just cynically faking it? Does the Onion really have a serious point of view on religion? On sex? On politics? Who cares what Area Man thinks? If everyone's so dumb, how come so many Onion readers keep on laughing at how dumb they are?

[Reports of Cases Argued and Determined in the Supreme Court of the State of Missouri](#) Jul 29 2019

The Late Shift Oct 31 2019 On May 23, 1991, Johnny Carson stepped out onto the stage of New York's Carnegie Hall at the annual meeting of NBC affiliate stations - the final performer in the day's all-star lineup of NBC players, there to dazzle the affiliates with the power of the network's programming. But Carson had his own agenda: without any warning to his NBC bosses, he announced that he was leaving the "Tonight" show - NBC's flagship late-night program, and the most profitable television show ever. Carson's motive for dropping this bombshell in front of NBC's most treasured - and needed - allies is only the beginning of one of the most incredible stories of corporate infighting and show business intrigues ever to play itself out on the soundstages and in the boardrooms of New York and Hollywood. Bill Carter, who covers the television industry for the New York Times, has uncovered the true behind-the-scenes story of two giant corporations - CBS and NBC - and two quirky comedians with dreams and ambitions of their own, David Letterman and Jay Leno, fighting for the honor and the hundreds of millions of dollars that go with the abandoned late-night throne. It's a story that's as big as the manipulations of Hollywood's most feared power brokers and multi-million-dollar negotiators - and as personal as the effect on executives of being snubbed by a party invitation. Bill Carter interviewed all of the key - and dozens of not-so-key - players in this story to get the entire picture of posturing, infighting, hurt feelings, and political maneuvering that put NBC's biggest franchise at risk - and examines the fates of the executives whose wrongheaded decisions allowed it to happen. The Late Shift tells the never-before-told story behind Johnny Carson's role in Letterman's decision to defect to CBS; the secret NBC documents that sealed the future of the "Tonight" show before Carson announced his retirement; the bizarre story of Jay Leno hiding in a closet to spy on a secret NBC staff meeting; evidence that Carson didn't willingly retire - he was maneuvered out; and NBC's final offer to David Letterman, and their reasons for keeping it a secret. But, ultimately, like any great dramatic story, this is a story of people: Warren Littlefield, the head of NBC programming, who finally stepped out of the shadow of Brandon Tartikoff, only to make a tactical error that cost his company millions; Peter Lassally, David Letterman's executive producer, who tried desperately to mend the hard feelings between his boss and NBC - and almost pulled off a monumental coup; Helen Kushnick, Jay Leno's manager and producer, whose high-pressure tactics and high-decibel rantings cost her her job and her biggest client - and almost lost Jay his show; Howard Stringer, the president of CBS, whose strategic deal-making turned NBC against itself - ensuring that one way or another his network would become a force in late-night programming; and Bob Wright, the president of NBC, who realized too late that the executives beneath him had left the barn door open. And, of course, it's the story of two comedians whose careers and fates are inextricably linked, despite the fact that their personal and comedic styles couldn't be more different. Leno and Letterman - complex, driven men with their own inner needs to succeed - thrown into a wildly public media rivalry that is finally decided with remote control devices in bedrooms coast to coast. The Late Shift is the story of big corporations, big money, and big egos - and a cultural institution that shapes the American night.

[Going There](#) Sep 03 2022 This heartbreaking, hilarious, and brutally honest memoir shares the deeply personal life story of a girl next door and her transformation into a household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she's never shared, until now. Of the medium she loves, the one that made her a household name, she says, "Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is." Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn't afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest "get"—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric's position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more

trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her “welcome” was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn’t happen. If you thought you knew Katie Couric, think again. Going There is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

Kitty's House of Horrors Nov 05 2022 Talk radio host and celebrity werewolf Kitty Norville has agreed to appear on TV's first all-supernatural reality show. What she's expecting is cheesy competitions and manufactured drama starring shapeshifters, vampires, and psychics. But what begins as a publicity stunt is all too quickly turning into a fight for her life. Kitty and her fellow housemates arrive at the remote mountain lodge where the show is set, but no sooner does filming start when violence erupts. It doesn't take Kitty long to suspect the show is nothing more than a cover for some nefarious plot. Then the cameras stop rolling, cast members start dying, and Kitty learns she and her monster housemates are not battling for a prize: they are, ironically enough, themselves the ultimate prize, in a very different game. Stranded with no power, no phones, and no way to know who can be trusted, she must find a way to defeat the evil closing in ... before it kills them all.
