The Gargoyle Sep 07 2020 A young man is fighting for his life. Into his room walks a bewitching woman who believes she can save him. Their journey will have you believing in the impossible. The nameless and beautiful narrator of *The Gargoyle* is driving along a dark road when he is distracted by what seems to be a flight of arrows. He crashes into a ravine and wakes up in a burns ward, undergoing the tortures of the damned. His life is over - he is now a monster. But in fact it is only just beginning. One day, Marianne Engel, a wild and compelling sculptress of gargoyles, enters his life and tells him that they were once lovers in medieval Germany. In her telling, he was a badly burned mercenary and she was a nun and a scribe who nursed him back to health in the famed monastery of Engelthal. As she spins her tale, Scheherazade fashion, and relates equally mesmerising stories of deathless love in Japan, Greenland, Italy and England, he finds himself drawn back to life - and, finally, to love.

The Magicians and Mrs. Ouent Dec 31 2019 In this enchanting debut novel, Galen Beckett weaves a dazzling spell of adventure and suspense, evoking a world of high magick and genteel society--a world where one young woman discovers that her modest life is far more extraordinary than she ever imagined. Of the three Lockwell sisters--romantic Lily, prophetic Rose, and studious Ivy--all agree that it's the eldest, the book-loving Ivy, who has held the family together ever since their father's retreat into his silent vigil in the library upstairs. Everyone blames Mr.

Lockwell's malady on his magickal studies, but Ivy alone still believes—both in magic and in its power to bring her father back. But there are others in the world who believe in magick as well. Over the years, Ivy has glimpsed them—the strangers in black topcoats and hats who appear at the door, strangers of whom their mother will never speak. Ivy once thought them secret benefactors, but now she's not so certain. After tragedy strikes, Ivy takes a job with the reclusive Mr. Quent in a desperate effort to preserve her family. It's only then that she discovers the fate she shares with a jaded young nobleman named Dashton Rafferdy, his ambitious friend Eldyn Garritt, and a secret society of highwaymen, revolutionaries, illusionists, and spies who populate the island nation of Altania. For there is far more to Altania than meets the eye and more to magick than mere fashion. And in the act of saving her father, Ivy will determine whether the world faces a new dawn—or an everlasting night. . . .

Your Walk Walks and Your Talk Talks Jun 04 2020 Making decisions at any age is not always an easy feat. When you are walking with the Lord Jesus Christ, it makes sense to pray and do the next right thing. As life moves at ninety miles an hour, moving with the flow can set you up to make split-second decisions. Taking what we think is the easy way is often the hardest of all. We are told in 1 Peter 5:7 to cast all our cares on Him because He cares for us. Taking the Jesus way out is always the best way. It may not be the easy that we are looking for, but it will not leave the collateral damage that our way leaves behind. The roads that we walk down in life are covered with attractive billboards drawing us to off-ramps that will lead us to destruction. It is so important to keep our eyes fixed on Jesus Christ as we walk life's highways and byways so we are not lured into the craziness that the world has to offer. Taking life one moment at a time is actually a doable thing. Life moves in seconds, not days. Don't let one trial take you down. Romans 8:13 says that we are more than conquerors, and thankfully, God is a god of do-overs!

Evaluating Gun Policy May 04 2020 Compared with other developed nations, the United States is unique in its high rates of both gun ownership and murder. Although widespread gun ownership does not have much effect on the overall crime rate, gun use does make criminal violence more lethal and has a unique capacity to terrorize the public. Gun crime accounts for most of the costs of gun violence in the United States, which are on the order of \$100 billion per year. But that is not the whole

story. Guns also provide recreational benefits and sometimes are used virtuously in fending off or forestalling criminal attacks. Given that guns may be used for both good and ill, the goal of gun policy in the United States has been to reduce the flow of guns to the highest-risk groups while preserving access for most people. There is no lack of opinions on policies to regulate gun commerce, possession, and use, and most policy proposals spark intense controversy. Whether the current system achieves the proper balance between preserving access and preventing misuse remains the subject of considerable debate. *Evaluating Gun Policy* provides guidance for a pragmatic approach to gun policy using good empirical research to help resolve conflicting assertions about the effects of guns, gun control, and law enforcement. The chapters in this volume do not conform neatly to the claims of any one political position. The book is divided into five parts. In the first section, contributors analyze the connections between rates of gun ownership and two outcomes of particular interest to society—suicide and burglary. Regulating ownership is the focus of the second section, where contributors investigate the consequences a large-scale combined gun ban and buy-back program in Australia, as well as the impact of state laws that prohibit gun ownership to those with histories of domestic violence. The third section focuses on efforts to restrict gun carrying and includes a critical examination of efforts in Pittsburgh to patrol illegal gun traffic and a re-examination of the effects of permissive state gun-carrying laws. This section also features the first rigorous—and critical—analysis of Richmond's Project Exile, which serves as one model for the national Project Safe Neighborhoods program. The fourth section focuses on efforts to facilitate research on gun violence, including a database on state gun laws and the ongoing development of a nationwide violent-death reporting system. The book concludes with an examination of the policy process. Differences in opinion about gun policy flourish partly because of the lack of sound evidence in this area. The contributors to this volume demonstrate that skilled and dispassionate analysis of the evidence is attainable, even in an area as contentious as firearm policy. For pragmatists who wish to reduce the social burden of gun violence, there is no acceptable alternative.
