Pink Floyd and Philosophy Mar 02 2020 With their early experiments in psychedelic rock music in the 1960s, and their epic recordings of the 1970s and '80s, Pink Floyd became one of the most influential and recognizable rock bands in history. As "The Pink Floyd Sound," the band created sound and light shows that defined psychedelia in England and inspired similar movements in the Jefferson Airplane's San Francisco and Andy Warhol's New York City. The band's subsequent recordings forged rock music's connections to orchestral music, literature, and philosophy. "Dark Side of the Moon" and "The Wall" ignored pop music's ordinary topics to focus on themes such as madness, existential despair, brutality, alienation, and socially induced psychosis. They also became some of the best-selling recordings of all time. In this collection of essays, sixteen scholars expert in various branches of philosophy set the controls for the heart of the sun to critically examine the themes, concepts, and problems—usually encountered in the pages

of Heidegger, Foucault, Sartre, or Orwell—that animate and inspire Pink Floyd's music. These include the meaning of existence, the individual's place in society, the interactions of knowledge and power in education, the contradictions of art and commerce, and the blurry line—the tragic line, in the case of Floyd early member Syd Barrett (died in 2006)—between genius and madness. Having dominated pop music for nearly four decades, Pink Floyd's dynamic and controversial history additionally opens the way for these authors to explore controversies about intellectual property, the nature of authorship, and whether wholes—especially in the case of rock bands—are more than the sums of their parts.

Pink Jul 30 2022 Gus Van Sant goes from auteur to author in an brilliant, inventive, and endlessly entertaining first novel that reads like a Warholian mix of Kurt Vonnegut and Tom Robbins. In the town of Sasquatch, Oregon, Spunky Davis, middle-aged maker of infomercials, is trying to find his next assignment, finish the screenplay that he hopes will bring him Hollywood glory, and deal with the death of his friend and favorite infomercial presenter, teen idol Felix Arroyo. Enter two young aspiring filmmakers, Jack and Matt, whom Spunky finds strangely familiar--especially as Jack bears an uncanny resemblance to the late Felix. But Jack and Matt are not what they appear to be; they are messengers from a dimension beyond time known as Pink, and they invite Spunky to join them on their voyage of transcendence and recovery. 2020 "This book is intended for gay, lesbian, bisexual, transgender, and non-gay readers. It is divided into three sections: On Being Gay, On Being Politically Correct, and On Being Gay in the Real World. Section I, On Being Gay, focuses almost exclusively on what it means to be gay, the kinds of discrimination gays and lesbians face in their daily routines and lives, and how to face those issues of inequality, discrimination, and bigotry. Section II, On Being Politically Correct is directed toward contemporary issues within the gay community and presents a number of controversial topics that are hotly debated among gays and lesbians. Section III, On Being Gay in the Real World, focuses on issues that affect gay men, lesbians, and bisexuals as they try to live effectually in the prevailing majority community. This section includes several essays that are not necessarily gay-specific, but can apply to people of every orientation. Section III emphasizes that all people, regardless of orientation, race, religion, gender, nationality, or ethnic background share the same hopes, fears, dreams, and desires. John Arthur Maddux writes in the introduction of his book: " Read this book with an open mind. You never know what you might learn, or re-learn from a new perspective. Learning is essential to growth and if it ceases to be so, our hope for social, environmental, and political change will be thwarted, and we may find ourselves no better off than our primordial ancestors who lived in intellectual darkness and superstition." Drive Jun 16 2021 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

club and radio DJs, remixers, composers, improvisers, instrument builders, and installation and performance artists. The collection is an extension of Pinknoises.com, the critically-acclaimed website founded by musician and scholar Tara Rodgers in 2000 to promote women in electronic music and make information about music production more accessible to women and girls. That site featured interviews that Rodgers conducted with women artists, exploring their personal histories, their creative methods, and the roles of gender in their work. This book offers new and lengthier interviews, a critical introduction, and resources for further research and technological engagement. Contemporary electronic music practices are illuminated through the stories of women artists of different generations and cultural backgrounds. They include the creators of ambient soundscapes, "performance novels," sound sculptures, and custom software, as well as the developer of the Deep Listening philosophy and the founders of the Liquid Sound Lounge radio show and the monthly Basement Bhangra parties in New York. These and many other artists open up about topics such as their conflicted relationships to formal music training and mainstream media representations of women in electronic music. They discuss using sound to work creatively with structures of time and space, and voice and language; challenge distinctions of nature and culture; question norms of technological practice; and balance their needs for productive solitude with collaboration and community. Whether designing and building modular synthesizers with analog circuits or performing with a wearable apparatus that translates muscle movements into electronic sound, these artists expand notions of who and what counts in matters of invention, production, and noisemaking. Pink Noises is a powerful testimony to the presence and vitality of women in electronic music cultures, and to the relevance of sound to feminist concerns. Singe), Antye Greie (AGF), Jeannie Hopper, Bevin Kelley (Blevin Blectum), Christina Kubisch, Le Tigre, Annea Lockwood, Giulia Loli (DJ Mutamassik), Rekha Malhotra (DJ Rekha), Riz Maslen (Neotropic), Kaffe Matthews, Susan

Pink Mist Jun 28 2022 Winner of Wales Book of the Year Pink Mist is a verse-drama about three young soldiers from Bristol who are deployed to Afghanistan. School friends still in their teens, Arthur, Hads and Taff each have their own reasons for enlisting. Within a short space of time they return to the women in their lives (a mother, a wife, a girlfriend), all of whom must now share the psychological and physical aftershocks of their service.
