The Trial of Henry Kissinger

Sep 15 2021 'A good liar must have a good memory: Kissinger is a stupendous liar with a remarkable memory.' Christopher Hitchens Christopher Hitchens goes straight for the jugular in *The Trial of Henry Kissinger*. Under his fearsome gaze, the former Secretary of State and National Security Advisor is accused of being a war criminal whose reckless actions and heinous disregard for international law have led to torture, kidnapping, and murder. This book is a polemical masterpiece by a man who, for forty years, was the Angloshpere's preeminent man of letters. In *The Trial of Henry Kissinger*, Hitchens' verve, style and firebrand wit are on show at the height of their potency. 'This is a disturbing glimpse into the dark side of American power, whose consequences in remote corners of the globe are all too often ignored. Its countless victims have found an

impassioned and skilful advocate in Christopher Hitchens.' - Sunday Times **Leadership** Nov 05 2020 An instant New York Times bestseller Henry Kissinger, consummate diplomat and statesman, examines the strategies of six great twentieth-century figures and brings to life a unifying theory of leadership and diplomacy "An extraordinary book, one that braids together two through lines in the long and distinguished career of former Secretary of State Henry Kissinger...In *Leadership* he presents a fascinating set of historical case studies and political biographies that blend the dance and the dancer, seamlessly." - James Stavridis, *The Wall Street Journal* "Leaders," writes Henry Kissinger in this compelling book, "think and act at the intersection of two axes: the first, between the past and the future; the second, between the abiding values and aspirations of those they lead. They must

balance what they know, which is necessarily drawn from the past, with what they intuit about the future, which is inherently conjectural and uncertain. It is this intuitive grasp of direction that enables leaders to set objectives and lay down a strategy." In *Leadership*, Kissinger analyses the lives of six extraordinary leaders through the distinctive strategies of statecraft, which he believes they embodied. After the Second World War, Konrad Adenauer brought defeated and morally bankrupt Germany back into the community of nations by what Kissinger calls "the strategy of humility." Charles de Gaulle set France beside the victorious Allies and renewed its historic grandeur by "the strategy of will." During the Cold War, Richard Nixon gave geostrategic advantage to the United States by "the strategy of equilibrium." After twenty-five years of conflict, Anwar Sadat brought a vision of peace to the Middle East by a

“strategy of transcendence.” Against the odds, Lee Kuan Yew created a powerhouse city-state, Singapore, by “the strategy of excellence.” And, though Britain was known as “the sick man of Europe” when Margaret Thatcher came to power, she renewed her country’s morale and international position by “the strategy of conviction.” To each of these studies, Kissinger brings historical perception, public experience and—because he knew each of the subjects and participated in many of the events he describes—personal knowledge. Leadership is enriched by insights and judgements that only Kissinger could make and concludes with his reflections on world order and the indispensability of leadership today.

A World Restored May 31 2020 Years before he was Secretary of State and winner of the Nobel Peace Prize, Henry Kissinger wrote *A World Restored* to understand and explain one of history's most important and dramatic periods—a time when Europe went from political chaos to a balanced peace that lasted for almost a hundred years. After the fall of Napoleon, European diplomats gathered in a festive Vienna with the task of restoring stability following the French Revolution, the Napoleonic Wars, and the dissolution of the Holy Roman Empire. The central figures at the Congress of Vienna were the Foreign Secretary of the United Kingdom, Viscount Castlereagh and the Foreign Minister of Austria Klemens

Wenzel von Metternich. Castlereagh was primarily concerned with maintaining balanced powers, while Metternich based his diplomacy on the idea of legitimacy—that is, establishing and working with governments that citizens accept without force. The peace they brokered lasted until the outbreak of World War I. Through trenchant analysis of the history and forces that create stability, *A World Restored* gives insight into how to create long-lasting geopolitical peace—lessons that Kissinger saw as applicable to the period immediately following World War II, when he was writing this book. But the lessons don't stop there. Like all good insights, the book's wisdom transcends any single political period. Kissinger's understanding of coalitions and balance of power can be applied to personal and professional situations, such as dealing with a tyrannical boss or coworker or formulating business or organizational tactics. Regardless of his ideology, Henry Kissinger has had an important impact on modern politics and few would dispute his brilliance as a strategist. For anyone interested in Western history, the tactics of diplomacy, or political strategy, this volume will provide deep understanding of a pivotal time.

Philip Guston's Poor Richard Jun 19 2019 In 1971, as the race for the presidency heated up, the artist Philip Guston (1913-1980) created a series of caricatures of Richard Nixon

titled *Philip Guston's Poor Richard*. Produced two years before Watergate and three years before Nixon's resignation, these provocative, searing condemnations of a corrupt head of state are remarkable, prescient political satire. The drawings mock Nixon's physical attributes—his nose is rendered as an enlarged phallus throughout—as well as his notoriously dubious, shifty character. Debra Bricker Balken's book is the first book—length publication of these drawings. A visual narrative of Nixon's life, the drawings trace Nixon from his childhood, through his ascent to power, to his years in the White House. They incorporate Henry Kissinger (a pair of glasses), Spiro Agnew (a cone-head), and John Mitchell (a dolt smoking a pipe). They depict Nixon and his cohorts in China, plotting strategy in Key Biscayne, and shamelessly pandering to African Americans, hippies, and elderly tourists. As Balken discusses in her accompanying essay, these drawings also reflect a dramatic transformation in Guston's work. In response to social unrest and the Vietnam War, he began to question the viability of a private art given to self-expression. His betrayal of aesthetic abstraction in favor of imagery imbued with personal and political meaning largely engendered the renewal of figuration in painting in America in the 1970s. These drawings not only represent one of the few instances of an artist in the late twentieth century engaging caricature in his work, they are

also a witty, acerbic take on a corrupt figure and a scandalous political regime.

Master of the Game Jan 07 2021 A perceptive and provocative history of Henry Kissinger's diplomatic negotiations in the Middle East that illuminates the unique challenges and barriers Kissinger and his successors have faced in their attempts to broker peace between Israel and its Arab neighbors. "A wealth of lessons for today, not only about the challenges in that region but also about the art of diplomacy . . . the drama, dazzling maneuvers, and grand strategic vision."—Walter Isaacson, author of *The Code Breaker* More than twenty years have elapsed since the United States last brokered a peace agreement between the Israelis and Palestinians. In that time, three presidents have tried and failed. Martin Indyk—a former United States ambassador to Israel and special envoy for the Israeli-Palestinian negotiations in 2013—has experienced these political frustrations and disappointments firsthand. Now, in an attempt to understand the arc of American diplomatic influence in the Middle East, he returns to the origins of American-led peace efforts and to the man who created the Middle East peace process—Henry Kissinger. Based on newly available documents from American and Israeli archives, extensive interviews with Kissinger, and Indyk's own interactions with some of the main players, the author takes readers inside the negotiations. Here is a roster of

larger-than-life characters—Anwar Sadat, Golda Meir, Moshe Dayan, Yitzhak Rabin, Hafez al-Assad, and Kissinger himself. Indyk's account is both that of a historian poring over the records of these events, as well as an inside player seeking to glean lessons for Middle East peacemaking. He makes clear that understanding Kissinger's design for Middle East peacemaking is key to comprehending how to—and how not to—make peace.

White House Years Dec 18 2021 Kissinger's invaluable and lasting contribution to the history of this crucial time. One of the most important books to come out of the Nixon Administration, the New York Times bestselling *White House Years* covers Henry Kissinger's first four years (1969–1973) as Assistant to the President for National Security Affairs. Among the momentous events recounted in this first volume of Kissinger's timeless memoirs are his secret negotiations with the North Vietnamese in Paris to end the Vietnam War, the Jordan crisis of 1970, the India-Pakistan war of 1971, his back-channel and face-to-face negotiations with Soviet leaders to limit the nuclear arms race, his secret journey to China, and the historic summit meetings in Moscow and Beijing in 1972. He covers major controversies of the period, including events in Laos and Cambodia, his "peace is at hand" press conference and the breakdown of talks with the North Vietnamese that led to the Christmas bombing in 1972. Throughout, Kissinger

presents candid portraits of world leaders, including Richard Nixon, Anwar Sadat, Golda Meir, Jordan's King Hussein, Leonid Brezhnev, Chairman Mao and Chou En-lai, Willy Brandt, Charles de Gaulle, and many others. *White House Years* is Henry Kissinger's invaluable and lasting contribution to the history of this crucial time.

World Order Jun 12 2021 "Dazzling and instructive . . . [a] magisterial new book." —Walter Isaacson, *Time* "An astute analysis that illuminates many of today's critical international issues." —Kirkus Reviews Henry Kissinger offers in *World Order* a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true "world order," Kissinger observes. For most of history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In

Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík. He offers compelling insights into the future of U.S.-China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and

Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, *World Order* anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, *World Order* is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of *On China*.

Henry Kissinger Foreign Policy E-book Boxed Set Mar 21 2022 This ebook box set includes the following books by Henry Kissinger, detailing America's approach to foreign policy. *Crisis: By drawing upon hitherto unpublished transcripts of his telephone conversations during the Yom Kippur War (1973) and the last days of the Vietnam War (1975), Henry Kissinger reveals what goes on behind the scenes at the highest levels in a diplomatic crisis. Does America Need A Foreign Policy?: With a new afterword by the author that addresses the situation in the aftermath of September 11, this thoughtful and important book, written by America's most famous diplomat, explains why we urgently need a new and coherent foreign policy and what our foreign policy goals should be in this new millennium. In seven accessible chapters, Kissinger provides a crystalline assessment of how the United States' ascendancy as the world's dominant presence in the twentieth century may be*

effectively reconciled with the urgent need in the twenty-first century to achieve a bold new world order. *Diplomacy: Moving from a sweeping overview of history to blow-by-blow accounts of his negotiations with world leaders, Henry Kissinger describes how the art of diplomacy has created the world in which we live, and how America's approach to foreign affairs has always differed vastly from that of other nations. This is vital reading for anyone concerned with the forces that have shaped our world today and will impact upon it tomorrow. We Can All Do Better* Sep 22 2019 Bill Bradley is arguably one of the most well-versed public figures of our time. The eighteen-year New Jersey Senator, financial and investment adviser, Olympic and NBA athlete, national radio host, and bestselling author has lived in the United States as both political insider and outsider, national sports celebrity and behind-the-scenes confidante, leader and teammate. His varied experiences help to inform his unique and much-sought-after point of view on Washington and the country at large. In *We Can All Do Better*, for the first time since the financial meltdown and since the worst of the intensifying political gridlock, Bradley offers his own concise, powerful, and highly personal review of the state of the nation. Bradley argues that government is not the problem. He criticizes the role of money and politics, explains how continuing on our existing

foreign policy, electoral, and economic paths will mean a diminished future, and lays out exactly what needs to be done to reverse course. Breaking from the intransigent long-held viewpoints of both political parties, and with careful attention to our nation's history, Bradley passionately lays out his narrative. He offers a no-holds-barred prescription on subjects including job creation, deficit reduction, education, and immigration. While equally critical of the approaches of the Tea Party and Occupy Movements, he champions the power of individual Americans to organize, speak out, bridge divisions, and he calls on the media to assume a more responsible role in our national life. As this moving call to arms reminds us, we can all—elected officials, private citizens, presidents—do a better job of moving our country forward. Bradley is perhaps the best guide imaginable, with his firsthand knowledge of governments' inner-workings, the country's diversity, and the untapped potential of the American people.

In The Arena Aug 14 2021

"Eloquent of the man and . . . of the history he made." —The New York Times *In the Arena* is the most personal, profound, and revealing memoir ever written by a major political figure. It is Richard Nixon's frankest, most outspoken book—which includes the inside story of his resignation from the Presidency and its aftermath. President Nixon's previous books have brilliantly chronicled his public career

and examined America's strategic role in the world. Now, for the first time, he shares his private thoughts and feelings on his long career, other great leaders at home and abroad, his own family, the state of the world, the arts of politics and diplomacy, and much more—expanding on his 1978 *Memoirs* and documenting his role as America's Elder Statesman. It's a personal statement by one of the most important and influential figures in American history.

[America in the World](#) Jan 27

2020 America has a long history of diplomacy—ranging from Benjamin Franklin, Alexander Hamilton, and Thomas Jefferson to Henry Kissinger, Ronald Reagan, and James Baker—now is your chance to see the impact these Americans have had on the world. Recounting the actors and events of U.S. foreign policy, Zoellick identifies five traditions that have emerged from America's encounters with the world: the importance of North America; the special roles trading, transnational, and technological relations play in defining ties with others; changing attitudes toward alliances and ways of ordering connections among states; the need for public support, especially through Congress; and the belief that American policy should serve a larger purpose. These traditions frame a closing review of post-Cold War presidencies, which Zoellick foresees serving as guideposts for the future. Both a sweeping work of history and an insightful guide to U.S.

diplomacy past and present, *America in the World* serves as an informative companion and practical adviser to readers seeking to understand the strategic and immediate challenges of U.S. foreign policy during an era of transformation.

Kissinger on Kissinger Feb

26 2020 In a series of riveting

interviews, America's senior statesman discusses the challenges of directing foreign policy during times of great global tension. As National Security Advisor to Richard Nixon, Henry Kissinger transformed America's approach to diplomacy with China, the USSR, Vietnam, and the Middle East, laying the foundations for geopolitics as we know them today. Nearly fifty years later, escalating tensions between the US, China, and Russia are threatening a swift return to the same diplomatic game of tug-of-war that Kissinger played so masterfully.

Kissinger on Kissinger is a series of faithfully transcribed interviews conducted by the elder statesman's longtime associate, Winston Lord, which captures Kissinger's thoughts on the specific challenges that he faced during his tenure as NSA, his general advice on leadership and international relations, and stunning portraits of the larger-than-life world leaders of the era. The result is a frank and well-informed overview of US foreign policy in the first half of the 70s—essential reading for anyone hoping to understand tomorrow's global challenges.

26 2019 Foreword by Henry Kissinger In this groundbreaking, definitive guide to the art of negotiation, three Harvard professors—all experienced negotiators—offer a comprehensive examination of one of the most successful dealmakers of all time. Politicians, world leaders, and business executives around the world—including every President from John F. Kennedy to Donald J. Trump—have sought the counsel of Henry Kissinger, a brilliant diplomat and historian whose unprecedented achievements as a negotiator have been universally acknowledged. Now, for the first time, *Kissinger the Negotiator* provides a clear analysis of Kissinger's overall approach to making deals and resolving conflicts—expertise that holds powerful and enduring lessons. James K. Sebenius (Harvard Business School), R. Nicholas Burns (Harvard Kennedy School of Government), and Robert H. Mnookin (Harvard Law School) crystallize the key elements of Kissinger's approach, based on in-depth interviews with the former secretary of state himself about some of his most difficult negotiations, an extensive study of his record, and many independent sources. Taut and instructive, *Kissinger the Negotiator* mines the long and fruitful career of this elder statesman and shows how his strategies apply not only to contemporary diplomatic challenges but also to other realms of negotiation, including business, public policy, and law. Essential reading for

current and future leaders, *Kissinger the Negotiator* is an invaluable guide to reaching agreements in challenging situations. *The Back Channel* Feb 20 2022 The riveting story of many of the most dramatic international crises and conflicts of recent years, including everyone from presidents, warlords and 'the noble, the brutal, the cunning and the just-plain unhinged'. *The Back Channel* recounts with vivid detail and incisive analysis some of the seminal moments of a legendary diplomatic career—from the bloodless end of the Cold War to relations with Putin's Russia, and from post-9/11 tumult in the Middle East and secret nuclear talks with Iran to America's rebalance toward the Asia-Pacific and its deepening strategic partnership with India. Career diplomat William J. Burns draws on his treasure trove of newly declassified cables and memos to offer a rare peek at US diplomacy in action. He illuminates the back channels of his profession, and its value in a world that resembles neither the zero-sum Cold War of his early career, nor the 'unipolar moment' of American primacy that followed. His dispatches from war-torn Chechnya and Qadhafi's camp in the Libyan desert, and his memos warning of the 'perfect storm' unleashed by the Iraq War, will profoundly reshape both our understanding of history and the policy debates of the future. *The Back Channel* is an eloquent, deeply informed and impassioned argument for renewing diplomacy as the tool

of first resort in American statecraft. **Diplomacy** Oct 16 2021 Offering a panoramic view of history and a description of firsthand diplomatic encounters, the former Secretary of State describes his ideas about diplomacy and power balances, showing how national negotiating styles influence outcomes. 125,000 first printing. Major ad/promo. Tour. **Kissinger and the Invasion of Cyprus** Oct 04 2020 Can Henry Kissinger be described as a serious statesman who altered the course of relations between states? Or was he a shallow impersonator of those whom he admired, and a geopolitical engineer who treated people as collateral fodder, reducing morality to the status of a strategic and tactical tool? Using the story of Kissinger's behaviour over Cyprus, backed up by recently revealed government documents, many critical, William Mallinson, former diplomat and leading authority on Cyprus' history, provides an incisive analysis and evaluation of Kissinger's approach, revealing a man who appears to have considered political strategy more important than law and ethics. **Nixon, Kissinger, and the Shah** Mar 09 2021 Nixon, Kissinger, and the Shah offers a detailed account of three key historical episodes in the Nixon-Kissinger-Pahlavi partnership that shaped the global Cold War far beyond Iran's borders. It examines the emergence of Iranian primacy in the Persian Gulf as the Nixon

administration looked to the shah to fill the vacuum created by the British withdrawal from the region in 1971. It then turns to the peak of the partnership after Nixon and Kissinger's historic 1972 visit to Iran, when the shah succeeded in drawing the United States into his covert war against Iraq in Kurdistan. Finally, it focuses on the decline of the partnership under Nixon's successor, Gerald Ford, through a history of the failed negotiations from 1974 to 1976 for an agreement on U.S. nuclear exports to Iran. Taken together, these episodes map the rise and fall of Iran's Cold War partnership with the United States during the decade of superpower détente, Vietnam, and Watergate.

Years of Renewal Oct 28 2022 The final volume in the memoirs of one of the century's most influential political thinkers begins with Nixon's resignation and discusses his "shuttle" diplomacy in the Mideast

Realpolitik Nov 24 2019 Now most often associated with the conduct of foreign policy, Realpolitik has traditionally had pejorative connotations in the English-speaking world and sits uneasily alongside notions of "enlightenment," "morality" and "virtue." But it has also had its defenders, admirers and exponents, who regard it as the best tool for the successful wielding of political power and the preservation of global order. As such, Realpolitik has both successes and failures to its name, as Bew's comprehensive and even-handed overview displays. Bew

begins by charting the evolution of the idea through the work of important thinkers or statesmen from Machiavelli, Cardinal de Richelieu, and Thomas Hobbes up through Carl Schmitt, Kissinger, and Dennis Ross.

Years of Upheaval Aug 26 2022

Spin Dictators Oct 24 2019 Spin Dictators traces how leaders such as Singapore's Lee Kuan Yew and Peru's Alberto Fujimori pioneered less violent, more covert, and more effective methods of monopolizing power. The book reveals why most of today's authoritarians are spin dictators—and how they differ from the remaining "fear dictators" such as Kim Jong-un and Bashar al-Assad, as well as from masters of high-tech repression like Xi Jinping.

The Age of A.I. Aug 02 2020

Kissinger's Shadow Jan 19 2022 A new account of America's most controversial diplomat that moves beyond praise or condemnation to reveal Kissinger as the architect of America's current imperial stance In his fascinating new book Kissinger's Shadow, acclaimed historian Greg Grandin argues that to understand the crisis of contemporary America—its never-ending wars abroad and political polarization at home—we have to understand Henry Kissinger. Examining Kissinger's own writings, as well as a wealth of newly declassified documents, Grandin reveals how Richard Nixon's top foreign policy advisor, even as he was presiding over defeat in Vietnam and a disastrous,

secret, and illegal war in Cambodia, was helping to revive a militarized version of American exceptionalism centered on an imperial presidency. Believing that reality could be bent to his will, insisting that intuition is more important in determining policy than hard facts, and vowing that past mistakes should never hinder future bold action, Kissinger anticipated, even enabled, the ascendance of the neoconservative idealists who took America into crippling wars in Afghanistan and Iraq. Going beyond accounts focusing either on Kissinger's crimes or accomplishments, Grandin offers a compelling new interpretation of the diplomat's continuing influence on how the United States views its role in the world.

Henry Kissinger The Complete Memoirs E-book Boxed Set Sep 27 2022 This e-book box set includes the complete memoirs of Henry Kissinger, detailing his life and work. White House Years: One of the most important books to come out of the Nixon Administration, White House Years covers Henry Kissinger's first four years (1969–1973) as Assistant to the President for National Security Affairs. Years of Upheaval: This second volume of Henry Kissinger's monumental memoirs covers his years as President Richard Nixon's Secretary of State (1972–1974), including the ending of the Vietnam War, the 1973 Middle East War and oil embargo, Watergate, and Nixon's resignation. Secretary of State. Years of Renewal: This third and final volume of memoirs completes a major work of contemporary history. The third & final volume begins with the resignation of Nixon and takes the reader through the years of Ford's administration, in which Kissinger continued to play a decisive role. Years of Renewal is the triumphant conclusion of a major achievement and a book that will stand the test of time as a historical document of the first rank.

Ending the Vietnam War Apr 22 2022 The Definitive Account Many other authors have written about what they thought happened -- or thought should have happened -- in Vietnam, but it was Henry Kissinger who was there at the epicenter, involved in every decision from the long, frustrating negotiations with the North Vietnamese delegation to America's eventual extrication from the war. Now, for the first time, Kissinger gives us in a single volume an in-depth, inside view of the Vietnam War, personally collected, annotated, revised, and updated from his bestselling memoirs and his book *Diplomacy*. Here, Kissinger writes with firm, precise knowledge, supported by meticulous documentation that includes his own memoranda to and replies from President Nixon. He tells about the tragedy of Cambodia, the collateral negotiations with the Soviet Union and the People's Republic of China, the disagreements within the Nixon and Ford administrations, the details of

all negotiations in which he was involved, the domestic unrest and protest in the States, and the day-to-day military to diplomatic realities of the war as it reached the White House. As compelling and exciting as Barbara Tuchman's *The Guns of August*, *Ending the Vietnam War* also reveals insights about the bigger-than-life personalities -- Johnson, Nixon, de Gaulle, Ho Chi Minh, Brezhnev -- who were caught up in a war that forever changed international relations. This is history on a grand scale, and a book of overwhelming importance to the public record.

Richard Nixon and Europe

Dec 06 2020 The U.S.-European relationship remains the closest and most important alliance in the world. Since 1945, successive American presidents each put their own touches on transatlantic relations, but the literature has reached only into the presidency of Lyndon Johnson (1963-9). This first study of transatlantic relations during the era of Richard Nixon shows a complex, turbulent period during which the postwar period came to an end, and the modern era came to be on both sides of the Atlantic in terms of political, economic, and military relations.

Diplomacy Jun 24 2022

'Kissinger's absorbing book tackles head-on some of the toughest questions of our time . . . Its pages sparkle with insight' Simon Schama in the *NEW YORKER* Spanning more than three centuries, from Cardinal Richelieu to the fragility of the 'New World

Order', *DIPLOMACY* is the now-classic history of international relations by the former Secretary of State and winner of the Nobel Peace Prize. Kissinger's intimate portraits of world leaders, many from personal experience, provide the reader with a unique insight into what really goes on -- and why -- behind the closed doors of the corridors of power. 'Budding diplomats and politicians should read it as avidly as their predecessors read Machiavelli' Douglas Hurd in the *DAILY TELEGRAPH* 'If you want to pay someone a compliment, give them Henry Kissinger's *DIPLOMACY* ... It is certainly one of the best, and most enjoyable [books] on international relations past and present ... *DIPLOMACY* should be read for the sheer historical sweep, the characterisations, the story-telling, the ability to look at large parts of the world as a whole' Malcolm Rutherford in the *FINANCIAL TIMES*
Partial Hegemony Jul 01 2020 "When and why does international order change? Easy to take for granted, international governing arrangements shape our world. They allow us to eat food imported from other countries, live safely from nuclear war, travel to foreign cities, profit from our savings, and much else. New threats, including climate change and simmering US-China hostility, lead many to worry that the "liberal order," or the US position within it, is at risk. Theorists often try to understand that situation by looking at other

cases of great power decline, like the British Empire or even ancient Athens. Yet so much is different about those cases that we can draw only imperfect lessons from them. A better approach is to look at how the United States itself already lost much of its international dominance, in the 1970s, in the realm of oil. Only now, with several decades of hindsight, can we fully appreciate it. The experiences of that partial decline in American hegemony, and the associated shifts in oil politics, can teach us a lot about general patterns of international order. Leaders and analysts can apply those lessons when seeking to understand or design new international governing arrangements on topics ranging from climate change to peacekeeping, and nuclear proliferation to the global energy transition"--

Does America Need a

Foreign Policy? May 23 2022

The former Secretary of State under Richard Nixon argues that a coherent foreign policy is essential and lays out his own plan for getting the nation's international affairs in order.

Reporting Live Apr 29 2020

The television news correspondent chronicles her professional experiences

Washington Bullets Mar 29

2020 Engaging stories in the form of Marxist journalism about US imperialism
Washington Bullets is written in the best traditions of Marxist journalism and history-writing. It is a book of fluent and readable stories, full of detail about US imperialism, but never letting the minutiae

obscure the larger political point. It is a book that could easily have been a song of despair—a lament of lost causes; it is, after all, a roll call of butchers and assassins; of plots against people's movements and governments; of the assassinations of socialists, Marxists, communists all over the Third World by the country where liberty is a statue. Despite all this, Washington Bullets is a book about possibilities, about hope, about genuine heroes. One such is Thomas Sankara of Burkina Faso—also assassinated—who said: 'You cannot carry out fundamental change without a certain amount of madness. In this case, it comes from nonconformity, the courage to turn your back on the old formulas, the courage to invent the future. It took the madmen of yesterday for us to be able to act with extreme clarity today. I want to be one of those madmen. We must dare to invent the future.' Washington Bullets is a book infused with this madness, the madness that dares to invent the future.

Renewing the Atlantic

Partnership Sep 03 2020 In the year that has passed since the war in Iraq, the United States and its European allies have done much to repair their relations. Nonetheless, the end of the Cold War, Europe's continuing integration, and the new array of threats confronting the West continue to test the strength of the Atlantic partnership. To revitalize the Atlantic alliance, Europe and America must forge new "rules of the road"

governing the use of force, adapt the North Atlantic Treaty Organization (NATO) to meet today's threats coming from outside Europe, and launch a major initiative to bring about political and economic reform in the greater Middle East. These are the conclusions of an independent Task Force chaired by former secretary of state Henry A. Kissinger and former secretary of the treasury Lawrence H. Summers. This report argues that the current rift in transatlantic relations is not solely a product of the war in Iraq, but that the war "brought these strains to a point of crisis. ... What is surprising is the extent to which the terrorist attacks on the United States, and the reactions of Europeans to America's response to those attacks, have transformed these differences into active confrontation." The report sets out priorities for the transatlantic community, such as establishing new guidelines for the use of military force and developing a common policy toward irresponsible states that seek or possess weapons of mass destruction or that harbor or support terrorists. It also lays out guidelines for restoring and deepening transatlantic cooperation.
[Henry Kissinger The Complete Memoirs E-book Boxed Set](#) Jul 25 2022 This e-book box set includes the complete memoirs of Henry Kissinger, detailing his life and work. White House Years: One of the most important books to come out of the Nixon Administration, White House Years covers Henry Kissinger's first four

years (1969–1973) as Assistant to the President for National Security Affairs. Years of Upheaval: This second volume of Henry Kissinger's monumental memoirs covers his years as President Richard Nixon's Secretary of State (1972–1974), including the ending of the Vietnam War, the 1973 Middle East War and oil embargo, Watergate, and Nixon's resignation. Years of Upheaval opens with Dr. Kissinger being appointed Secretary of State. Years of Renewal: This third and final volume of memoirs completes a major work of contemporary history. The third & final volume begins with the resignation of Nixon and takes the reader through the years of Ford's administration, in which Kissinger continued to play a decisive role. Years of Renewal is the triumphant conclusion of a major achievement and a book that will stand the test of time as a historical document of the first rank.

On China Apr 10 2021 In 1971 Henry Kissinger took the historic step of reopening relations between China and the West, and since then has been more intimately connected with the country at the highest level than any other western figure. This book distils his unique experience, examining China's history from the classical era to the present day, describing the essence of its millennia-old approach to diplomacy, strategy and negotiation, and reflecting on these attitudes for our own uncertain future.

Postliberal Politics Feb 08 2021 Hyper-capitalism and

extreme identity politics are driving us to distraction. Both destroy the basis of a common life shared across ages and classes. The COVID-19 crisis could accelerate these tendencies further, or it could herald something more hopeful: a post-liberal moment. Adrian Pabst argues that now is the time for an alternative – postliberalism – that is centred around trust, dignity, and human relationships. Instead of reverting to the destabilising inhumanity of 'just-in-time' free-market globalisation, we could build a politics upon the sense of localism and community spirit, the valuing of family, place and belonging, which was a real theme of lockdown. We are not obliged to put up with the restoration of a broken status quo that erodes trust, undermines institutions and trashes our precious natural environment. We could build a pluralist democracy, decentralise the state, and promote embedded, mutualist markets. This bold book shows that only a politics which fuses economic justice with social solidarity and ecological balance can overcome our deep divisions and save us from authoritarian backlash.

The Inevitability of Tragedy: Henry Kissinger and His

World Jul 21 2019 A new portrait of Henry Kissinger focusing on the fundamental ideas underlying his policies: Realism, balance of power, and national interest. Few public officials have provoked such intense controversy as Henry Kissinger. During his time in the Nixon and Ford

administrations, he came to be admired and hated in equal measure. Notoriously, he believed that foreign affairs ought to be based primarily on the power relationships of a situation, not simply on ethics. He went so far as to argue that under certain circumstances America had to protect its national interests even if that meant repressing other countries' attempts at democracy. For this reason, many today on both the right and left dismiss him as a latter-day Machiavelli, ignoring the breadth and complexity of his thought. With *The Inevitability of Tragedy*, Barry Gewen corrects this shallow view, presenting the fascinating story of Kissinger's development as both a strategist and an intellectual and examining his unique role in government through his ideas. It analyzes his contentious policies in Vietnam and Chile, guided by a fresh understanding of his definition of Realism, the belief that world politics is based on an inevitable, tragic competition for power. Crucially, Gewen places Kissinger's pessimistic thought in a European context. He considers how Kissinger was deeply impacted by his experience as a refugee from Nazi Germany, and explores the links between his notions of power and those of his mentor, Hans Morgenthau—the father of Realism—as well as those of two other German-Jewish émigrés who shared his concerns about the weaknesses of democracy: Leo Strauss and Hannah Arendt. *The Inevitability of Tragedy* offers a

thoughtful perspective on the origins of Kissinger's sober worldview and argues that a reconsideration of his career is essential at a time when American foreign policy lacks direction.

World Order Jul 13 2021 How have the great states and empires of world history evolved their distinct identities and attitudes? And how do these shape global relations today? World Order is the summation of Henry Kissinger's thinking about statecraft, strategy, the fates of nations and tectonic plates of history. 'Exquisitely timed, deserves to be read . . . World order depends on it.' Lionel Barber, Financial Times 'Magisterial.' Jonathan Powell, Daily Telegraph 'A sage in the age of disorder.' Christopher Meyer, The Times 'Compelling, vintage Kissinger.' Hillary Rodham Clinton, Washington Post 'Kissinger is unique . . . this book is his summa diplomatica.' Paul Johnson, Spectator, Books of the Year
Crisis May 11 2021 By drawing upon hitherto unpublished transcripts of his telephone conversations during the Yom Kippur War (1973) and the last days of the Vietnam War (1975), Henry Kissinger reveals what goes on behind the scenes at the highest levels in a diplomatic crisis. The two major foreign policy crises in this book, one successfully negotiated, one that ended tragically, were unique in that they moved so fast that much of the work on them had to be handled by telephone. The longer of the two sections deals in detail with the Yom Kippur

War and is full of revelations, as well as great relevancy: In Kissinger's conversations with Golda Meir, Israeli Prime Minister; Simcha Dinitz, Israeli ambassador to the U.S.; Mohamed el-Zayyat, the Egyptian Foreign Minister; Anatoly Dobrynin, the Soviet Ambassador to the U.S.; Kurt Waldheim, the Secretary General of the U.N.; and a host of others, as well as with President Nixon, many of the main elements of the current problems in the Middle East can be seen. The section on the end of the Vietnam War is a tragic drama, as Kissinger tries to help his president and a divided nation through the final moments of a lost war. It is full of astonishing material, such as Kissinger's trying to secure the evacuation of a Marine company which, at the very last minute, is discovered to still be in Saigon as the city is about to fall, and his exchanges with Ambassador Martin in Saigon, who is reluctant to leave his embassy. This is a book that presents perhaps the best record of the inner workings of diplomacy at the superheated pace and tension of real crisis.
The Flawed Architect Nov 17 2021 Henry Kissinger dominated American foreign relations like no other figure in recent history. He negotiated an end to American involvement in the Vietnam War, opened relations with Communist China, and orchestrated détente with the Soviet Union. Yet he is also the man behind the secret bombing of Cambodia and policies leading to the overthrow of Chile's President Salvador

Allende. Which is more accurate, the picture of Kissinger the skilled diplomat or Kissinger the war criminal? In *The Flawed Architect*, the first major reassessment of Kissinger in over a decade, historian Jussi Hanhimäki paints a subtle, carefully composed portrait of America's most famous and infamous statesman. Drawing on extensive research from newly declassified files, the author follows Kissinger from his beginnings in the Nixon administration up to the current controversy fed by Christopher Hitchens over whether Kissinger is a war criminal. Hanhimäki guides the reader through White House power struggles and debates behind the Cambodia and Laos invasions, the search for a strategy in Vietnam, the breakthrough with China, and the unfolding of Soviet-American détente. Here, too, are many other international crises of the period--the Indo-Pakistani War, the Yom Kippur War, the Angolan civil war--all set against the backdrop of Watergate. Along the way, Hanhimäki sheds light on Kissinger's personal flaws--he was obsessed with secrecy and bureaucratic infighting in an administration that self-destructed in its abuse of power--as well as his great strengths as a diplomat. We see Kissinger negotiating, threatening and joking with virtually all of the key foreign leaders of the 1970s, from Mao to Brezhnev and Anwar Sadat to Golda Meir. This well researched account brings to life the complex nature of

American foreign policymaking during the Kissinger years. It will be the standard work on Kissinger for years to come. The White House Years Aug 22 2019 In this first volume of his memoirs, Dr Kissinger covers his first four years (1969-1973) as Assistant to the President for National Security Affairs - and President Nixon's closest adviser on foreign policy. It is undoubtedly the most significant book to come out of the Nixon Administration. Among the countless great and critical moments Dr Kissinger recalls

are his first meeting with Nixon, his secret trip to China, the first SALT negotiation, the Jordan crisis of 1970, the India-Pakistan war of 1971, and the historic summit meetings in Peking and Moscow. He covers the major controversies over Indochina policy during that period, including events in Laos, the overthrow of Cambodia's Prince Sihanouk, his secret talks with the North Vietnamese in Paris, his 'Peace is at hand' press conference, and the breakdown of the talks that led to the 'Christmas bombing' of 1972. He offers his insights into the Middle East

conflicts, Sadat's break with the Soviets, the election of Salvador Allende in Chile, issues of defence strategy, and relations with Europe and Japan. Other highlights are his relationship with Nixon, brilliant portraits of major foreign leaders, and his views as to the handling of crises and the art of diplomacy. Few men have wielded as much influence in the arena of American foreign policy as Henry Kissinger. This record makes an invaluable and lasting contribution to the history of this crucial time.
