Lazy Checkpoint Coordination for Bounding Rollback Propagation Mar 25 2022 Independent checkpointing allows maximum process autonomy but suffers from potential domino effects. Coordinated checkpointing eliminates the domino effect by sacrificing a certain degree of process autonomy. In this paper, we propose the technique of lazy checkpoint coordination which preserves process autonomy while employing communication-induced checkpoint coordination for bounding rollback propagation. The introduction of the notion of laziness allows a flexible trade-off between the cost for checkpoint coordination and the average rollback distance. Worst-case overhead analysis provides a means for estimating the extra checkpoint overhead. Communication trace-driven simulation for several parallel programs is used to evaluate the benefits of the proposed scheme for real applications. Wang, Yi-Min and Fuchs, W. Narrative of the Life of Frederick Douglass Illustrated Jun 23 2019 Narrative of the Life of Frederick Douglass is an 1845 memoir and treatise on abolition written by famous orator and former slave Frederick Douglass during his time in Lynn, Massachusetts[1]. It is generally held to be the most famous of a number of narratives written by former slaves during the same period. In factual detail, the text describes the events of his life and is considered to be one of the most influential pieces of literature to fuel the abolitionist movement of the early 19th century in the United States.

Las Tejanas Jul 05 2020 Since the early 1700s, women of Spanish/Mexican origin or descent have played a central, if often unacknowledged, role in Texas history. Tejanas have been community builders, political and religious leaders, founders of organizations, committed trade unionists, innovative educators, astute businesswomen, experienced professionals, and highly original artists. Giving their achievements the recognition they have long deserved, this groundbreaking book is at once a general history and a celebration of Tejanas' contributions to Texas over three centuries. The authors have gathered and distilled a wide range of information to create this important resource. They offer one of the first detailed accounts of Tejanas' lives in the colonial period and from the Republic of Texas up to 1900. Drawing on the fuller documentation that exists for the twentieth century, they also examine many aspects of the modern Tejana experience, including Tejanas' contributions to education, business and the professions, faith and community, politics, and the arts. A large selection of photographs, a historical timeline, and profiles of fifty notable Tejanas complete the volume and assure its usefulness for a broad general audience, as well as for educators and historians.

Voices of Hope Jan 11 2021 Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

Designing for Empathy Nov 20 2021 Designing for Empathy is a volume of twenty-three essays contributed by multidisciplinary experts, collectively exploring the state of empathy for its design elements that might lead to positive behavior change and a paradigm shift towards unifying, compassionate worldviews and actions. As museums are currently shaping their tools for fostering empathy as an intentional outcome of museum experiences, the idea of empathy-building is shaping them back as socially relevant institutions that increasingly value diversity, accessibility, and equality. This is a non-linear, multi-layered, and multi-dimensional transformation that requires multidisciplinary, cross-industries, and cross-sectors alliances for its sustainability. The potential of this collective transformation effort includes the invention of unconventional, evidence-based, and sustainable solutions that can be scaled up beyond the walls of traditional museums to all kinds of informal learning platforms to help eliminate the empathy-deficit in our world. Designing for Empathy expands our understanding of empathy and its potential for fostering compassionate worldviews and actions through a multidisciplinary exploration in three parts: "The Object of Our Empathy" explores how we define and perceive the "Other," "The Alchemy of Empathy" introduces thirteen design elements of empathy that might lead to transformative learning experiences, and "The Scope and the Spectrum of Empathy" highlights the importance of positioning empathy as a cross-industrial shared value for the benefit of people and the planet. Designing for Empathy will inspire and empower those who are interested in intentionally designing for empathy to cultivate compassionate worldviews and actions that celebrate and preserve the oneness of all people, the environment, and our planet.

Laying Down the Law Sep 26 2019 The Pharisees piled up a mountain of human made rules in their attempt to keep the law. But their fixation on the legal code ended up pushing them further away from the righteousness they sought to attain. In contrast, some modern Christians have abandoned the law in their pursuit of righteousness, declaring themselves liberated from outdated, unessential rules. So what role should God's law have in the Christians life? What part does it play in the work of salvation? How does it relate to grace? In Laying Down the Law Keith Augustus Burton explores the law of God through the perspective of Jesus Christ. With each chapter he reveals the role of the law, clarifies common misunderstandings, and challenges traditional assumptions about the function of the law. Through Bible verses, personal stories, and insights into the culture and worldview of biblical times, you'll discover what the law reveals about God's character and His loving plan for us. When The Blue Shift Comes Nov 28 2019 In the far future, Earth is about to be swallowed by a black hole in this sweeping SF epic from one of the masters of the genre.

In a time so far from our own that we cannot comprehend it, humanity has spread amongst the stars and changed in more ways than we can count. But they have never forgotten their birthplace - Earth. But now Earth stands on the brink of catastrophe, at risk of being swallowed by a black hole. One man, Hanzos Prime, ruler of his world, is determined to visit Earth before it is destroyed. His abdication from his throne and his wanderlust are to prove the beginning of a much longer journey - one that will see him fall in love, meet the Oracles of Earth and perhaps, if he is very lucky, provide a means to save the cradle of humanity. Originally started by Robert Silverberg more than 20 years ago but never completed, Hanzos's story is taken up by Alvaro Zinos-Amaro. Silverberg hand-picked Zinos-Amaro to complete the book, and provided notes and guidance. The result is a remarkable collaboration between one of the masters of SF and one of the most exciting new voices in the genre.

From Karaoke to the Platters Jun 03 2020 "From Karaoke to the Platters" is the inspirational tale of how Paul B Allen III went from singing in karaoke establishments, to become the lead singer of one of the greatest vocal groups of all time, The Platters (Only You, Smoke Gets In Your Eyes, The Great Pretender, etc.). Paul was not allowed entry into his elementary school chorus because of his "tin ear," so the trip from "reject" to lead vocalist was an incredible journey. Paul shares that journey, as well as all the things he did, step by step, that led him to performing at venues like the world-famous Kennedy Center, backed by the National Symphony Orchestra, and his singing for the rich and famous all around the world, including performing for the Royal Family in London, Prince Albert in Monaco, and being invited to the White House to perform for the President of the United States of America. This book is made up of two parts that are linked together by Paul's real-life experiences in the music industry, as an internationally published songwriter and as the lead vocalist of The Platters. Part One tells step by step how he did it (and how you can too), and Part Two tells what happened once he "arrived." It is a truly fascinating account that can only be told by someone who has lived the life. And as you read, you'll feel like you're living it right alongside of him.
