Glam!: An Eyewitness Account Apr 04 2020 “Glam was about make-up, mirrors and androgyny. It was narcissistic, obsessive, decadent and subversive. It was bohemian, but also strangely futuristic. It was Oscar Wilde meets *A Clockwork Orange*. It was a mutant bastard offspring of glitter. But while glitter was sparkling distraction, glam was anarchy in drag. It was sexy, glamorous, on the edge. It was the moment hippie finally died. It was absolutely rock’n’roll. But it was also fashion, art, theatre, lifestsyle. It was gay, straight, multisexual. It was totally titillating and absolutely naughty. Everybody held hands with

everybody, kissed everybody, went home with everybody. It was an age of accelerated discovery, when all the kinks of sexual yearning were flushed out. It was absolutely self-indulgent and it was ridiculously camp. It was a time we thought would never end. A time so long ago now it seems like a dream. But it wasn't and I have the pictures to prove it."

When Ziggy Played the Marquee Sep 02 2022 When Ziggy played The Marquee Club in Soho, London, in October 1973, most of those invited to the small venue did not realise that this would be the last performance David Bowie would ever give as Ziggy Stardust. Terry O'Neill, celebrated photographer, was given unprecedented access to document the event. O'Neill captured Bowie and his crew backstage as they went through costume changes, and Bowie transformed into the character he'd soon put to rest. On stage, dodging television cameras and lights, O'Neill snapped the incredible stage presence for which Bowie and his crew had become renowned. O'Neill remembers of Bowie: "He became a character on stage. As much as a person takes a role in a play for the West End or on Broadway, learning the lines, putting on the costumes - this was, I think, the way Bowie treated his stage. This night at the Marquee, I witnessed a modern-day Hamlet - and it was Ziggy Stardust".

AUTHOR: Terry O'Neill has had a star-studded career. He has been in the business of capturing the most iconic, candid, and unguarded moments of the famous and infamous for six decades. His reportage photography chronicled the evolution of fashion in the post-war

era, and later the emergence of bands such as The Beatles, The Rolling Stones, and The Animals, and icons like David Bowie and Elton John. He has been photographer-of-choice for a multitude of celebrities, from Sinatra and Audrey Hepburn to Raquel Welch and Paul Newman, and remains the only photographer to have captured shots not only of every James Bond to date, but also more than 25 Bond girls and a staggering 150 Oscar-nominated actors and actresses. O'Neill was awarded with the Royal Society of Arts' highest honour, the Centenary Medal, in 2012. SELLING POINTS: * Rare and unseen images from Terry O'Neill's unprecedented access to David Bowie's last performance as Ziggy Stardust, including candid backstage shots * New and original interviews from a host of people who witnessed the last performance, including Geoff MacCormack - one of Bowie's long-time friends and "Spider"; Suzy Ronson - Mick's wife and stylist; Jayne County - audience member and punk icon; Britt Eckland - noted actress and "it" girl; Mike Garson - Bowie's piano man; and many more * Foreword by Gary Kemp

Moonage Daydream Feb 24 2022 "The closest we'll ever get to a straight up Bowie autobiography -- but who'd ever want anything straight-up from Bowie?" - Rolling Stone In 2002, David Bowie and Mick Rock created *Moonage Daydream*, the defining document of the life and times of Ziggy Stardust. Twenty years later, it remains the closest readers will get to understanding Bowie through his own words. Alongside over 600 photographs taken

by Mick Rock, Bowie's intimate and often humorous commentary gives unprecedented insight into his best and most memorable creation. Readers can see how Bowie singlehandedly challenged and elevated 1970s culture through his style, his inspirations which ranged from Kubrick to Kabuki, and his creative spirit which persevered through the decades. Moonage Daydream is the essential David Bowie book. First published as a signed limited edition, Moonage Daydream sold out in a matter of months and became lore among David Bowie fans. Now, on the 50th anniversary of Bowie's acclaimed album, The Rise and Fall of Ziggy Stardust and the Spiders from Mars, the book is available again in a brand-new unabridged edition, keeping to Bowie and Rock's original vision, allowing readers to explore Moonage Daydream the way the authors intended. 'This is a book of extraordinary photographs. Ziggy Stardust blazed briefly but intensely, and I am delighted to see his life and times as a rock'n'roll star immortalised in this book.' - David Bowie

Here, There and Everywhere Oct 23 2021 An all-access, firsthand account of the life and music of one of history's most beloved bands--from an original mastering engineer at Abbey Road Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen, and was present as a new band called the Beatles recorded their first songs. He later worked with the Beatles as they recorded their singles "She Loves You" and "I Want to Hold Your Hand," the songs that would propel them to international superstardom. In 1964 he would witness the transformation of this young and playful group

from Liverpool into professional, polished musicians as they put to tape classic songs such as “Eight Days A Week” and “I Feel Fine.” Then, in 1966, at age nineteen, Geoff Emerick became the Beatles’ chief engineer, the man responsible for their distinctive sound as they recorded the classic album *Revolver*, in which they pioneered innovative recording techniques that changed the course of rock history. Emerick would also engineer the monumental *Sgt. Pepper* and *Abbey Road* albums, considered by many the greatest rock recordings of all time. In *Here, There and Everywhere* he reveals the creative process of the band in the studio, and describes how he achieved the sounds on their most famous songs. Emerick also brings to light the personal dynamics of the band, from the relentless (and increasingly mean-spirited) competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known.

The Man Who Sold The World Jun 26 2019 No artist offered a more incisive and accurate portrait of the troubled landscape of the 1970s than David Bowie. Cultural historian Peter Doggett explores the rich heritage of Bowie's most productive and inspired decade, and traces the way in which his music reflected and influenced the world around him. From 'Space Oddity', his dark vision of mankind's voyage into the unknown terrain of space, to the *Scary Monsters* album, Doggett examines in detail Bowie's audacious creation of an 'alien' rock star, Ziggy Stardust, and his increasingly perilous explorations of the nature of

identity and the meaning of fame. Mixing brilliant musical critique with biographical insight and acute cultural analysis, *The Man Who Sold The World* is a unique study of a major artist and his times.

Do the Birds Still Sing in Hell ? Jan 02 2020 Horace 'Jim' Greasley was twenty years of age in the spring of 1939 when Adolf Hitler invaded Czechoslovakia and latterly Poland. There had been whispers and murmurs of discontent from certain quarters and the British government began to prepare for the inevitable war. After seven weeks training with the 2nd/5th Battalion Leicester, he found himself facing the might of the German army in a muddy field south of Cherbourg, in Northern France, with just thirty rounds of ammunition in his weapon pouch. Horace's war didn't last long. He was taken prisoner on 25th May 1940 and forced to endure a ten week march across France and Belgium en - route to Holland. Horace survived...barely...food was scarce; he took nourishment from dandelion leaves, small insects and occasionally a secret food package from a sympathetic villager, and drank rain water from ditches. Many of his fellow comrades were not so fortunate. Falling by the side of the road through sheer exhaustion and malnourishment meant a bullet through the back of the head and the corpse left to rot. After a three day train journey without food and water, Horace found himself incarcerated in a prison camp in Poland. It was there he embarked on an incredible love affair with a German girl interpreting for his captors. He experienced the sweet taste of freedom each time he escaped to see her, yet

incredibly he made his way back into the camp each time, sometimes two, three times every week. Horace broke out of the camp then crept back in again under the cover of darkness after his natural urges were fulfilled. He brought food back to his fellow prisoners to supplement their meagre rations. He broke out of the camp over two hundred times and towards the end of the war even managed to bring radio parts back in. The BBC news would be delivered daily to over 3,000 prisoners. This is an incredible tale of one man's adversity and defiance of the German nation.

Principle Or Profit Mar 16 2021 Ever since Malcolm James was a child, cold blooded murder has played a significant part in his life. Whether it be from both of his parents being brutally assassinated right in front of him, or having blood on his own hands, murder has been his reality. Constantly haunted and consumed by his own actions, the only thing stronger than Malcolm's thirst for blood, is his hunger for money and power! Flooding the crime ridden and gang infested inner city streets of Denver, Colorado with Cocaine and pounds of Kush, grindin, as his "Gang Green" squad of misfits commit robberies, mayhem

and murder while on their way to the top. However, the sudden murder of Malcolm's friend and right hand man, not only cause the homicide rate to shoot through the roof, but also derails their mission. All while Malcolm battles with a dark secret brewing deep down inside, at which only "Tear Drop and Buds" are able to recognize and tame. Both OG's in the game graduating to bosses of a mountain west and west coast black underworld syndicate, whom eventually put Malcolm on the payroll as a triggerman, which of course leads to more problems, money, women, and deadly consequences. Why Principle or Profit you ask? Because nine times outta ten every time a life is taken out in these streets, it's a direct result of one or the other. To profit is self explanatory; however, principle could be ones personal belief, or even a weak emotion like jealousy and greed, to killing over territory, a debt, turf, stripes, or other principles of the streets. At the end of the day we all gotta go, so which one are you willing to die for?

The Hacienda Dec 01 2019 Legendary musician Peter Hook tells the whole story - the fun, the music, the vast loss of money, the legacy - of Manchester's most iconic nightclub Peter Hook, as co-founder of Joy Division and New Order, has been shaping the course of popular music for thirty years. He provided the propulsive bass guitar melodies of 'Love Will Tear Us Apart' and the bestselling 12-inch single ever, 'Blue Monday' among many other songs. As co-owner of Manchester's Hacienda club, Hook propelled the rise of acid house in the late 1980s, then suffered through its violent fall in the 1990s as gangs, drugs,

greed and a hostile police force destroyed everything he and his friends had created. This is his memory of that era and 'it's far sadder, funnier, scarier and stranger' than anyone has imagined. As young and naive musicians, the members of New Order were thrilled when their record label Factory opened a club. Yet as their career escalated, they toured the world and had top ten hits, their royalties were being ploughed into the Hacienda and they were only being paid £20 per week. Peter Hook looked back at that exciting and hilarious time to write HACIENDA. All the main characters appear - Tony Wilson, Barney, Shaun Ryder - and Hook tells it like it was - a rollercoaster of success, money, confusion and true faith.

Sound Man Mar 28 2022 Born just outside London in 1942, Glyn Johns was sixteen years old at the dawn of rock and roll. His big break as a producer came on the Steve Miller Band’s debut album, Children of the Future, and he went on to engineer or produce iconic albums for the best in the business: Abbey Road with the Beatles, Led Zeppelin’s and the Eagles’ debuts, Who’s Next by the Who, and many others. Even more impressive, Johns

was perhaps the only person on a given day in the studio who was entirely sober, and so he is one of the most reliable and clear-eyed insiders to tell these stories today. In this entertaining and observant memoir, Johns takes us on a tour of his world during the heady years of the sixties, with beguiling stories that will delight music fans the world over: he remembers helping to get the Steve Miller Band released from jail shortly after their arrival in London, he recalls his impressions of John and Yoko during the Let It Be sessions, and he recounts running into Bob Dylan at JFK and being asked to work on a collaborative album with him, the Stones, and the Beatles, which never came to pass. Johns was there during some of the most iconic moments in rock history, including the Stones' first European tour, Jimi Hendrix's appearance at Albert Hall in London, and the Beatles' final performance on the roof of their Savile Row recording studio. Johns's career has been long and prolific, and he's still at it—over the last two decades he has worked with Crosby, Stills & Nash; Emmylou Harris; Linda Ronstadt; Band of Horses; and, most recently, Ryan Adams. *Sound Man* provides a firsthand glimpse into the art of making music and reveals how the industry—like musicians themselves—has changed since those freewheeling first years of rock and roll.

Rock 'n' Film Jan 26 2022 "In the mid-1950s, rock 'n' roll amalgamated earlier black and white working-class musical traditions to displace the Great American Songbook's hegemony over Anglophone popular music. At the same time, the classic musical was both

displaced and re-created in a new form of film: the rock 'n' roll musical. For the next two decades, the genre's evolution in the United States and the United Kingdom accompanied and sustained the emergence, flowering, and decay of a counterculture. Cinema was second only to records in the production of the new cultural gestalt that the music generated."-- [Source inconnue].

Blackstar Theory Aug 28 2019 *Blackstar Theory* takes a close look at David Bowie's ambitious last works: his surprise 'comeback' project *The Next Day* (2013), the off-Broadway musical *Lazarus* (2015) and the album that preceded the artist's death in 2016 by two days, *Blackstar*. The book explores the swirl of themes that orbit and entangle these projects from a starting point in musical analysis and features new interviews with key collaborators from the period: producer Tony Visconti, graphic designer Jonathan Barnbrook, musical director Henry Hey, saxophonist Donny McCaslin and assistant sound engineer Erin Tonkon. These works tackle the biggest of ideas: identity, creativity, chaos, transcendence and immortality. They enact a process of individuation for the Bowie meta-persona and invite us to consider what happens when a star dies. In our universe, dying stars do not disappear - they transform into new stellar objects, remnants and gravitational forces. The radical potential of the *Blackstar* is demonstrated in the rock star supernova that creates

a singularity resulting in cultural iconicity. It is how a man approaching his own death can create art that illuminates the immortal potential of all matter in the known universe.

[Spider from Mars](#) Sep 21 2021 For many fans, David Bowie's Ziggy Stardust era remains the most extraordinarily creative period in his career. As a member of Bowie's legendary band at the time - The Spiders From Mars - Woody Woodmansey played drums on four seminal albums: *The Man Who Sold The World*, *Hunky Dory*, *The Rise And Fall Of Ziggy Stardust And The Spiders From Mars* and *Aladdin Sane*. Woody's memoir, which he started work on in 2014, focuses on this key period and brings it to glorious life. With the confidence of youth, Woody always thought he'd be in a famous band but the nineteen-year-old rocker from Hull never expected to be thrust into London's burgeoning glam rock scene, and also into a bottle-green velvet suit and girl's shoes. Playing with Bowie took him on an eye-opening and transformative journey. In *Spider From Mars* he writes candidly about the characters who surrounded Bowie, recalling the album sessions as well as behind-the-scenes moments with one of the world's most iconic singers. The result is an insightful, funny, poignant memoir that lovingly evokes a seminal moment in music history and pays tribute to one of the most outstanding and innovative talents of our time.

When Ziggy played The Marquee Club in Soho, London, in October 1973, most of those invited to the small venue did not realize that this would be the last performance David Bowie would ever give as Ziggy Stardust. Terry O'Neill, celebrated photographer, was given unprecedented access to document the event. O'Neill captured Bowie and his crew backstage as they went through costume changes, and Bowie transformed into the character he'd soon put to rest. On stage, dodging television cameras and lights, O'Neill snapped the incredible stage presence for which Bowie and his crew had become renowned.

O'Neill remembers of Bowie: "He became a character on stage. As much as a person takes a role in a play for the West End or on Broadway, learning the lines, putting on the costumes - this was, I think, the way Bowie treated his stage. This night at the Marquee, I witnessed a modern-day Hamlet - and it was Ziggy Stardust". Award-winning music writer Daniel Rachel interviews key contributors of the day, including O'Neill, Ava Cherry, Amanda Lear and Geoff MacCormack along with new insights and memories from fans who were in the audience who played witness to this incredible moment.
