**Carjacked: The Culture of the Automobile and Its Effect on Our Lives** May 20 2022 Carjacked is an in-depth look at our obsession with cars. While the automobile's contribution to global warming and the effects of volatile gas prices are widely known, the problems we face every day because of our cars are much more widespread and yet much less known -- from the surprising \$14,000 per year that the average family pays each year for the vehicles it owns, to the increase in rates of obesity and asthma to which cars contribute, to the 40,000 deaths and 2.5 million crash injuries each and every year. Carjacked details the complex impact of the automobile on modern society and shows us how to develop a healthier, cheaper, and greener relationship with cars.

**The Lovers** Apr 19 2022 New York Times bestselling author John Connolly writes an “unfailingly compelling” (New Orleans Times-Picayune) and lyrical tale that forces Private Investigator Charlie Parker to examine his haunting past and all that he has ever believed true about his beloved parents—and himself. Charlie Parker is a lost soul. Deprived of his private investigator's license and under scrutiny by the police, Parker takes a job in a Portland bar. But he uses his enforced retirement to begin a different kind of investigation: an examination of his own past and an inquiry into the death of his father, who took his own life after apparently shooting dead two unarmed teenagers. It's a search that will eventually lead Parker to question all that he believed about his beloved parents, and about himself. But there are other forces at work: a troubled young woman who is running from an unseen threat, one that has already taken the life of her boyfriend; and a journalist-turned-writer named Mickey Wallace, who is conducting an investigation of his own. And haunting the shadows, as they have done throughout Parker's life, are two figures: a man and a woman who seem driven to bring an end to Charlie Parker's existence. Haunting, lyrical, and impossible to put down, *The Lovers* is John Connolly at his best.

**Lemon-Aid Used Cars and Trucks 2011-2012** Aug 23 2022 As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, *Lemon-Aid Used Cars and Trucks 2011-2012* shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. *Lemon-Aid* guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, *Lemon-Aid Used Cars and Trucks* is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

**Building a Special with Ant Anstead Master Mechanic** Jul 18 2019 Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

**What We Have Lost** Apr 07 2021 When the hen lays her eggs, the shells are soft and pliable, forming their durable armour as they experience the outside world. Each of us enters the world, with similarly flawed and weak shells. Our shells are not broken and cracked by life, but are formed of the fragments that we encounter, piece by piece, growing more complete with each experience. What We Have Lost is a series of disconnected but closely related anecdotes in the lives of a family shaped by extreme poverty. These individual narratives chronicle the slow sculpting of the characters, as they fuse with their world, enveloped in mental illness. Molded by their mother's paranoia, social isolation and obsessive drive to instill the hunger for learning and sense of duty to others, the four siblings evolve in unique and often pathological ways. Not knowing or understanding the bonds of familial love, Garry, Judy, Rob and Roger need to discover their own path to personal peace. None may make it. What We Have Lost exposes the cruelty of poverty. It opens up the heart of that world, in surprising and convoluted ways. The pathos is clear, the hidden pleasures need unearthing. What We Have Lost is a collection of anecdotes, but, as you read, you will find that they are far from disconnected, after all.

**Auto Repair For Dummies** Aug 19 2019 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000

copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
