[But Like Maybe Don't?](#) Sep 29 2022 The creator of the Instagram sensation [But Like Maybe](#) takes us on an illustrated journey through her worst dating mistakes—a hilarious, hopeful guide to what you need to get wrong in love before you get it right. Arianna Margulis's pen was set aflame when a boyfriend took her for a walk in Central Park. She was sneak-attack dumped because she "interfered with his meditation schedule." After a few sobs, she found her way to a Sharpie, doodled the hilarity and the heartbreak, and [But Like Maybe](#) was born. As her cartoons became an Instagram cult hit, Arianna chronicled her misadventures through modern love via a crop-topped doppelganger, equal parts optimistic and anxious, who holds tight to the belief that bae is out there. Now, with 70 never-before-seen toons, her first book is a witty and winning primer on what not to do when dating. Inspired by all the ways Arianna's gone wrong in her search for love, from planning matching outfits with her high school boyfriend without his knowledge to deplaning an aircraft because her crush texted, this charming and off-kilter anti-guide gently leads you to what matters: realizing that you're already pretty awesome. With plenty of advice for recognizing and moving on when he's just not that into you, Arianna shows how to not let a read receipt ruin your night, what to do when the slow fade commences, and how to flip the busy script on a guy. Dating can make the best of us a bit crazy. Keep this guide by your side so that the next time tequila urges you to text your ex, you can instead tell yourself . . . but like maybe don't.

[The Parents' Guide to Climate Revolution](#) Sep 17 2021 "Relax," writes author Mary DeMocker, "this isn't another light bulb list. It's not another overwhelming pile of parental 'to dos'; designed to shrink your family's carbon footprint through eco-superheroism." Instead, DeMocker lays out a lively, empowering, and — doable — blueprint for engaging families in the urgent endeavor of climate revolution. In this book's brief, action-packed chapters, you'll learn hundreds of wide-ranging ideas for being part of the revolution — from embracing simplicity parenting, to

freeing yourself from dead-end science debates, to teaching kids about the power of creative protest, to changing your lifestyle in ways that deepen family bonds, improve moods, and reduce your impact on the Earth. Engaging and creative, this vital resource is for everyone who wants to act effectively — and empower children to do the same.

**Operating Manual for Spaceship Earth** Jul 24 2019 One of Fuller's most popular works, *Operating Manual for Spaceship Earth*, is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity. How will humanity survive? How does automation influence individualization? How can we utilize our resources more effectively to realize our potential to end poverty in this generation? He questions the concept of specialization, calls for a design revolution of innovation, and offers advice on how to guide "spaceship earth" toward a sustainable future. Description by Lars Muller Publishers, courtesy of The Estate of Buckminster Fuller

The contents include: mathematics; astronomy and surveying; physics; chemistry; earth sciences; palaeontology; anthropology; biology; natural history; botany; zoology; patents and interventions; medicine; engineering; transport vehicles; agriculture and livestock; household management; communication; chemical industry; manufactures; industries, trades and crafts; and the building industry.  
**Life Science (Teacher Guide)** Jan 28 2020 Chapter Discussion Question: Teachers are encouraged to participate with the student as they complete the discussion questions. The purpose of the Chapter Purpose section is to introduce the chapter to the student. The Discussion Questions are meant to be thought-provoking. The student may not know the answers but should answer with their thoughts, ideas, and knowledge of the subject using sound reasoning and logic. They should study the answers and compare them with their own thoughts. We recommend the teacher discuss the questions, the student's answers, and the correct answers with the student. This section should not be used for grading purposes. DVD: Each DVD is watched in its entirety to familiarize the student with each book in the course. They will watch it again as a summary as they complete each book. Students may also use the DVD for review, as needed, as they complete each chapter of the course. Chapter Worksheets: The worksheets are foundational to helping the student learn the material and come to a deeper understanding of the concepts presented. Often, the student will compare what we should find in the fossil record and in living creatures if evolution were true with what we actually find. This comparison clearly shows evolution is an empty theory simply based on the evidence. God's Word can be trusted and displayed both in the fossil record and in living creatures. Tests and Exams: There is a test for each chapter, sectional exams, and a comprehensive final exam for each book.
