*Questions Without Answers* May 28 2020 This major work presents a remarkable sequence of photo-stories from pioneering photo agency VII, documenting world history as we have experienced it since the end of the Cold War. The 11 extraordinarily talented photographers who make up this agency work at the cutting edge of digital photojournalism, committed to recording social and cultural change as it happens around the world. *Questions Without Answers* is an ambitious book featuring a strikingly broad selection of photo stories. Photos documenting Barack Obama giving a speech on Afghanistan to American troops sit alongside a collection of portraits featuring famous cultural figures such as David Bowie and Bernardo Bertolucci. We move from an exploration of the spread and impact of AIDS in Asia to dispatches from the current economic crisis and its effect on those working in finance. The crucial work done by VII in documenting conflict - environmental, social and political, both violent and non-violent - is also represented, including stories from the war in Iraq, the crisis in Darfur and the terrible events of 9/11. With an introduction by the eminent David Friend, Vanity Fair's editor of creative development and the former director of photography of Life magazine, this book is an important, moving and compelling record of the world we live in.

Questions Are the Answer Dec 15 2021 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. *Questions Are the Answer* delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.
