Five Dimensions of Quality Oct 29 2019 Meet calls for increased quality and understand accreditation expectations Author Linda Suskie is internationally recognized for her work in higher education assessment, and she is a former vice president of a major regional accreditor. In Five Dimensions of Quality: A Common Sense Guide to Accreditation and Accountability in Higher Education she provides a simple, straightforward model for understanding and meeting the calls for increased quality in higher education ever-present in today's culture. Whether your institution is seeking accreditation or not, the five dimensions she outlines will help you to identify ways to improve institutional quality and demonstrate that quality to constituents. For those wading through the accreditation process, which has become more difficult in recent years due to increasing regulation and pressure for greater accountability, Suskie offers expert guidance on understanding the underlying principles of the expectations of accrediting bodies. Using the model presented here, which is much easier to understand than the sometimes complex resources provided by individual accrediting bodies, American colleges and universities can understand what they need to do to earn and maintain their regional accreditation as well as improve overall institutional quality for their students. You'll be able to: Identify ways to improve institutional quality Demonstrate the quality of your institution to internal and external constituents Avoid wasting time and energy on misguided institutional processes to comply with accreditation requirements By focusing on why colleges and universities should take particular actions rather than only on what those actions should be, Five Dimensions of Quality give them the knowledge and strategies to prepare for a successful review. It is an ideal resource for leaders, accreditation committee members, and everyone on campus.

Hard Questions on Global Educational Change Sep 01 2022 This new book, from internationally renowned education scholar Pasi Sahlberg and his colleagues, focuses on some of the most controversial issues in contemporary education reform around the world. The authors devote a chapter to each of these "hard questions": Does parental choice improve education systems? Is there a future for teacher unions? What is the right answer to the standardized testing question? Can schools prepare children for the 21st-century workplace? Can technology save schools? Can anyone be a teacher? Should higher education be for the public good? What knowledge and skills should an educator have? Each educational change question sheds much-needed light on today's large-scale education policies and related reforms around the world. The authors focus on what makes each question globally significant, what we know from international research, and what can be inferred from benchmark evidence. The final chapter offers a model for policymakers with implications for teaching, learning, and schooling overall. "This is an impressive and engaging book. If you care about the impacts of technology, testing, and teacher education designs, then this book will stretch your thinking and challenge your assumptions." —Andy Hargreaves, Boston College "Fascinating case studies open up our imaginations and provide clues for the most sustainable pathways forward for educators in the years to come." —Dennis Shirley, Boston College "Features enlightening chapters with an international perspective for educators and teacher educators alike. Highly recommended." —David C. Berliner, Arizona State University

History Education in the Digital Age Apr 03 2020 This book reflects on how teachers and students use new technologies in classroom settings in order to improve the capacity of teaching and learning in history to successfully meet the challenges of the twenty-first century through a complex understanding of the relation between past and present. Key authors in the field from Europe and the Americas present a comprehensive overview of the central questions at the heart of the book. They contribute to this process of reflection by taking diverse methodological, pedagogical and conceptual approaches to analyse the ways in which digital tools could advance the development of historical comprehension in the fields of formal and informal history education in different settings as schools, museums, exhibitions, sites of memory, videogames and films. Drawing together a disciplinary diversity that approaches the topic from the viewpoints of collective memory, global history, historical thinking and historical consciousness, the book's cutting-edge content offers interested academics and practitioners with a broad-based view on the current state of debate in this area, examined via theoretical exploration in-depth case analysis.

Foreign Relations of the United States Oct 22 2021

A Chronicle of Echoes Sep 28 2019 "Corporate reform" is not reform at all. Instead, it is the systematic destruction of the foundational American institution of public education. The primary motivation behind this destruction is greed. Public education in America is worth almost a trillion dollars a year. Whereas American public education is a democratic institution, its destruction is being choreographed by a few wealthy, well-positioned individuals and organizations. This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school.

Trayvon Martin, Race, and American Justice Dec 25 2019 Trayvon Martin, Race, and "American Justice": Writing Wrong is the first comprehensive text to analyze not only the killing of Trayvon Martin, but the implications of the event for the state of race in the United States. Bringing together contributions from a variety of disciplines and approaches, this text pushes readers to answer the question: "In the wake of the killing of Trayvon Martin, and acquittal of his killer, how post-racial can we claim to be?" This collection of short and powerful chapters is at times angering and at times hopeful, but always thought provoking, critical, and poignant. This interdisciplinary volume is well suited for undergraduate and graduate students as well as faculty in sociology, social work, law, communication, and education. This book can also be read by anyone interested in social justice and equity through the lens of race in the 21st century. "This text is an invitation to a rebellion—the inevitable insurgency Black youth brewing right now across the land as the descendants of enslaved workers step up to exercise the agency, and at that moment become agents of liberty and actors in history." – William Ayers, Distinguished Professor from the University of Illinois–Chicago "... the authors [...] offer incisive and vivid examinations of the contours of white supremacy today, inviting readers into a much-needed discussion of moral questions surrounding the very foundation life in the U.S." – Christine Sleeter, Professor Emerita, California State University Monterey "Trayvon Martin, Race, and American Justice: Writing Wrong is a powerful assemblage of voices that speak to the salience of race, gender, and their intersection. Collectively, the authors provide us with poignant reminders of the multiple forces that rail against Black males in our society. Each chapter grabs our attention, ignites our activism, and encourages us to remain steadfast in the struggle toward a true democracy for all Americans – a society where Black males' lives are valued and they no longer face daily threats to their humanity." – Yolanda Sealey-Ruiz, Assistant Professor, Teachers College, Columbia University "While motivated by Trayvon Martin's unfortunate and tragic death, this impressive collection serves as a one-of-a-kind tribute to Martin and will help to keep his legacy alive. The contributions are evocative and accessible, and while the focus is on Martin, the contributions also call attention to mundane, severe, and systemic racial wrongdoings, biases in existing research, colorblindness and white privilege, and erasures of history and failures of memory." – Tony E. Adams, Professor at Northeastern Illinois University and NCA book award winner "The editors and contributors have taken a tragic topic and presented it in a way that is engaging, effective, and surprisingly optimistic. There is a style for everyone here, making it a great text for multiple audiences and classrooms. A truly superb addition to any classroom and a great read for those interested in social justice in today's world." – U. Melissa Anyiwo, Professor and Coordinator of African American Studies, Curry College "Trayvon Martin, Race, and American Justice: Writing Wrong is true to its title; it focuses attention—through critical writing—on the pernicious, pervasive, and persistent violence waged against black men, especially black male youth, in American society. Using the still unpunished pre-meditated murder of Trayvon Martin as a highly emblematic example of this violence, the editors and authors use carefully crafted and sequenced poetry and prose to write truth to power about the economic, political, social, and cultural factors that produce and reproduce systemic aggression toward especially men and boys of African descent, but also toward members of other societally minoritized groups. The breadth and depth of the contributions included in Trayvon Martin, Race, and American Justice: Writing Wrong makes it a particularly valuable resource for faculty and students engaged in teaching, learning, research, service, and activism related to issues of race, racism, blackness, whiteness, class, caste, classism, language, dialect, literacy, linguistic, geographic and national origin, immigration status, sex, gender, gender identity and expression, masculinity, sexual orientation, size, appearance, and, more broadly, equity, equality, and social justice. Chapters reflect the thoughtful insight and advanced expertise of their authors, who bring increased levels of complexity to historical

and contemporary dialogue, discussion, and debate about especially race and racism in the United States. The editors' selection of contributors and organization of contributions balances pain truth-telling with hope and possibility for a more just future. In sum, *Trayvon Martin, Race, and American Justice: Writing Wrong* reciprocally links theory and practice relating to issues of power, privilege, oppression, discrimination—and liberation." – Christine Clark, Professor & Senior Scholar in Multicultural Education, and Founding Vice President for Diversity and Inclusion, University of Nevada, Las Vegas "Chapters in this timely and probing book stare straight at a difficult incident, refuse to ignore injustice, but call on a higher purpose of great academic criticism in "writing the wrong." Here the wrong is the corrosive and sometimes lethal bias by many in power toward black males, who are too often seen as dangerous and disposable in American society. The killing of Trayvon Martin and the subsequent acquittal of his killer George Zimmerman are examined by minds informed by reflection on theory and history. We hear of conversations that black parents, particularly mothers who often felt on trial themselves, had with their teenage sons. Some of these endangered sons were outraged by the act and verdict, while some others were indifferent. Chapters are devoted to the incident, the trial and aftermath, and to the future of the struggle against racial injustice. Through what T. J. Yosso calls "resistant capital" we are urged to continue to interrogate a judicial system that prosecutes not only black males but their parents and families. There is much to learn here about the current state of social justice and the way we live with and among each other. In both prose and poetry these impassioned authors strive to write the wrong of Trayvon Martin and many others like him. I recommend this volume highly and will use it in my graduate classes." – AG Rud, Distinguished Professor, College of Education, Washington State University Kenneth J. Fasching-Varner, PhD is Shirley B. Barton Endowed Assistant Professor of Foundations and Elementary Education and holds a Ph.D in Language, Literacy, and Culture from The Ohio State University. Rema E. Reynolds, PhD is Assistant Professor of Education Policy, Organization, and Leadership and holds a doctorate in Education from the University of California, Los Angeles. Katrice A. Albert, PhD is Vice President for Equity and Diversity and holds a doctorate in Counseling from Auburn University. Lori L. Societal Benefits of Freely Accessible Technologies and Knowledge Resources July 27 2019 Open access to information resources and technology can have a profound impact on the economic development of a region as well as society in general. In recent years, reaction against proprietary knowledge and technology has led to tremendous debate both in academic and professional circles. *Societal Benefits of Freely Accessible Technologies and Knowledge Resources* analyzes current perspectives on the advantages of unrestricted access to information resources and technology intended to advance the prospect for knowledge, innovation, and development across the globe. Touching on topics of relevance to the private and public sectors, this publication is ideally designed for use by policymakers, business managers, academicians, researchers, students, IT practitioners, and legal professionals.

Language Curriculum Innovation in a Chinese Secondary School Feb 23 2022 This book offers a comprehensive overview of the changes in foreign language teachers' cognition and practices during a four-year innovation project at a Chinese secondary school, and explores the factors that influenced the trajectory of those changes. It makes a substantial contribution to research on educational change by offering a longitudinal observation of the facts and voices in EFL settings in China; as such, the book offers a valuable resource for scholars, teacher educators, teachers, and others interested in initiating, managing and evaluating innovations in EFL classrooms.

Contemporary Sport Management, Fifth Mar 15 2021 Contemporary Sport Management, Fifth, provides students with an overview of sport management by presenting extensive discussions of the foundational aspects of the profession and current topics from the field. The fifth edition continues to engage students with a full-color format and an integrated web study guide. The text also discusses the role of social media in revolutionizing the industry and the significance of sport as an international institution. Students will learn the relevance of legal, sociocultural, historical, political, and psychological concepts to the management of sport; the professional skills and attitudes of successful sport managers; and ways in which the globalization of sport continues to affect sport management professions.

Analytical Theory of Democracy Jul 19 2021 This book operationalizes the idea of political representation, which is fundamental to modern democracies. Both individual representatives and representative bodies are evaluated using the indices of popularity (the average percentage of the population whose opinion is represented on topic policy issues) and universality (the percentage of issues for which the prevailing public opinion is represented). Viewed as objective functions, these indices can aid in the search for optimal representatives and representative bodies. By replacing the consistency analysis of the social choice axioms with the calculation of the best compromises, the paradoxes of social choice, such as those of Condorcet and Arrow, can be overcome. These indices also form the core of an alternative election method that is aimed at enhancing policy representation — recent concept of political representation, which is not supported by the conventional voting systems shaped during the American and French Revolutions. This method is tested in a series of election experiments that focus on implementation details. In addition, non-societal applications such as MCDM, finance or traffic control are considered, where the objects that reflect the properties or behavior of other objects are regarded as their “representatives.” Given its scope, the book will appeal to political scientists, economists and operations

researchers, as well as to politicians interested in improving democratic performance and electoral system design. Journal of the House of Representatives of the United States 2020 Some vols. include supplemental journals of "such proceedings of the sessions, as, during the time they were depending, were ordered to be kept secret, and respecting which the injunction of secrecy was afterwards taken off by the order of the House".

Cybersecurity Ethics Nov 30 2019 This textbook offers an accessible introduction to the topic of cybersecurity ethics. The second edition has been revised and updated, and contains new chapters on social justice, AI, and Big Data. The book is split into three parts. Part I provides an introduction to the field of ethics, philosophy, and philosophy of science, three ethical frameworks – virtue ethics, utilitarian ethics, and communitarian ethics – and the notion of ethical hacking. Part II applies these frameworks to particular issues within the field of cybersecurity including privacy rights, surveillance, and intellectual property. The third part concludes by exploring current codes of ethics used in cybersecurity, with chapters on artificial intelligence, social diversity, Big Data, and cyberwarfare. The overall aims of the book are to: Provide ethical frameworks to aid decision-making Present the key ethical issues in relation to computer security Highlight the connection between values and beliefs and the professional code of ethics The textbook also includes three different features to aid students: "Going Deeper" features provide background on individuals, events, and institutions in cybersecurity; "Critical Issues" features contemporary case studies; and "Tech Talks" contain features that assume some familiarity with technological developments. The book will be of much interest to students of cybersecurity, cyberethics, hacking, surveillance studies, ethics, and information science.

Understanding Israel/Palestine Apr 27 2022 The Israeli-Palestinian conflict is the longest, ongoing hot-and-cold war of the 20th and 21st centuries. It has produced more refugees than any current conflict, generating fully a quarter of all refugees worldwide. Everyone knows that the Palestinian-Israeli conflict is important itself, and is also fueling tensions throughout the Middle East. Yet most people shy away from this conflict, claiming it is "just too complicated" to understand. This book is written for people who want a point of entry into the conversation offers both a historic and analytic framework. Readers, whether acting as students, parishioners, neighbors, voters, or dinner guests will find in these pages an analysis of the most commonly heard Israeli positions, and a succinct account of the Palestinian voices we seldom hear. I argue that human rights standards have never been used as the basis on which the Israeli-Palestinian conflict should be resolved and that only these standards can produce a just and sustainable resolution. This book will be useful for classes in Middle East studies, peace and conflict studies, Middle East history, sociology of race, and political science. It can be helpful for church groups, labor groups, or other grass roots organizations committed to social justice, and for all readers who wish to be informed about this important topic. "Professor Spangler's ... quest for historical and political understanding takes us on a brave and intimate journey into the consequences of Jewish privilege and Jewish victimhood, the agendas of imperial superpowers, and the Palestinian struggle for self-determination." Alice Rothchild, MD, author of Broken Promises, Broken Dreams: Stories of Jewish and Palestinian Trauma and Resilience, and producer and director of documentary film, Voices Across the Divide "[A] sharp, poignant, well-documented dossier [that] provides readers with all the most-needed facts to grasp the conflict and get involved." – Sam Bahour, co-editor of Homeland: Oral Histories of Palestine and Palestinians and business development consultant and activist based in Palestine "[T]his one is exceptional! It recounts a historical tale; it provides theoretical underpinnings; it does comparative work; it examines all the details and aspects of ongoing debates; and it brings all to life with real-life stories ... the wonder of this book is its insistence on hope – not a naive, idealistic hope, one accompanied by a tool-box for concrete action that might right the wrongs of this tragic tale." Anat Biletzky, Professor of Philosophy, Tel Aviv University and Albert Schweitzer Professor of Philosophy, Quinnipiac University; Chairperson of B'Tselem, 2001–2006 Eve Spangler is a sociologist and a human and civil rights activist. For the last decade, her work has focused on the Israel/Palestine conflict; she argues that human rights are the neglected standards that could lead to a just and sustainable solution.

Read, Write, Lead May 05 2020 Literacy is a skill for all time, for all people. It is an integral part of our lives, whether we are students or adult professionals. Giving all educators the breadth of knowledge and practical tools that help students strengthen their literacy skills is the focus of *Read, Write, Lead*. Drawing on her experience as a mentor teacher, reading specialist, instructional coach, and staff developer, author Regie Routman offers time-tested advice on how to develop a schoolwide learning culture that leads to more effective reading and writing across the curriculum. She explains how every school—including yours—can

- * Implement instructional practices that lead to better engagement and achievement in reading and writing for all students, from kindergarten through high school, including second-language and struggling learners.
- * Build Professional Literacy Communities of educators working together to create sustainable school change through professional learning based on shared beliefs.
- * Reduce the need for intervention through daily practices that ensure success, even for our most vulnerable learners.
- * Embed the language of productive feedback in responsive instruction, conferences, and observations in order to accelerate learning for students, teachers, and leaders.

In their own voices, teachers, principals, literacy specialists, and students offer real-life examples of changes that led to dramatic improvement in literacy skills and—perhaps just as important—increased joy in teaching and learning. Scattered throughout the book are “Quick Wins”—ideas and actions that can yield positive, affirming results while tackling the tough work of long-term change.

Exploring Issues of Diversity within HBCUs 17 2021 The purpose of this edited volume is to examine the historical and contemporary dynamics of diversity as well as the realities, challenges, and opportunities associated with diversity work at Historically Black Colleges and Universities (HBCUs). This proposed book will include four sections, focusing on the historical developments and socio-political factors impacting diversity work at HBCUs, organizational structure and philosophical approaches, challenges and opportunities facing particular populations, and analysis of best practices. This text is designed to provide an overview and better understanding of diversity and multiculturalism that exists in historically Black colleges and universities. The contents of the text will examine equity and inclusion efforts in these institutions, and will explore various theories and practices utilized within the academy. Also, the text will examine race, class, gender, ethnicity, nationality, religion, age, ability and sexuality. The goal of the book is to assist students, faculty, and staff in the higher educational landscape in developing their own understandings of historical and contemporary issues related to diversity at HBCUs. Critical analysis of the multiple worldviews will be discussed as we explore the origin, nature and scope of multiple ideologies within diversity, equity and inclusion at HBCUs. In addition, this book will be an invaluable teaching resource for faculty in Educational Leadership Programs, Student Affairs Programs, or Sociology Programs, and other fields interested in issues of retaining and supporting diverse college students.
