The Prosperity Workbook Learn How to Be Prosperous, Successful, and Happy! Apr 07 2021 Do you find yourself in a dead-end job? Do you find yourself wondering time and time again, Is this all there is? Do you feel that you have a talent but don't know how to develop it? Do you wish you could experience an abundance of joy, love, and wealth in your life? Tap into what author and motivational teacher Christine Goss calls the smashing power of the mind. Goss has led hundreds of clients toward realizing their full potential through her belief system of illuminating the psyche into believing in what can be what truly is-if only one recognizes the power within. The possibilities that the Universe allows us are infinite. The immeasurable dynamics of living are at our disposal each and every second. Goss' theory is partly based on the concept of Biocentrism, a theory that proposes that the universe exists because of the life that it contains; therefore, you matter. Your thoughts, your actions, and your perceptions are all that stand between you manifesting your own abundance. Create the life you crave and deserve. Goss' enlightening and spiritual workbook will guide you toward releasing your ill-rational beliefs about money and embracing a life beyond your wildest imagination. Christine Goss is a writer, counselor and teacher. Mrs. Goss has written two other books and lives with her husband in Georgia.

*The Moon of Wisdom* Aug 23 2022 Nagarjuna, in his seminal text, *The Fundamental Wisdom of the Middle Way*, summarized the vast teachings of the Buddha and used logical reasoning to prove the validity of his words. Entering the Middle Way is Chandrakirti's explanation of Nagarjuna's work. Its sixth chapter, which comprises the majority of the text, has four main sections: an explanation of how in genuine reality phenomena do not truly arise; a refutation of the Mind-Only School's assertion that mind truly exists; a refutation of the true existence of the personal self; and an explanation of the sixteen emptinesses taught by the Buddha in the Transcendent Wisdom Sutras. The Moon of Wisdom is thus a book that explains the Buddha's ultimate teachings, how to gain confidence in them, and how to put them into practice in one's own life to the great benefit of oneself and others.

*Clinical Guide for the Treatment of Male Sexual Addiction* Dec 15 2021 The book, *Clinical Guide for the Treatment of Male Sexual Addiction*, will facilitate therapists use of the books, *Recovery from Sexual Addiction: a Mans Guide*, and the accompanying Workbook in individual therapy or a group program. The guide may serve as a syllabus for a Sex Addiction Therapy Group program. It supports clinical therapists by providing insightful guidance and interventions to help men who wish to end addictive sexual behaviors. The program objective is to lead men through a structured clinical process to help them become aware and understand the complex factors that contribute to sexual addiction and steps they can take to achieve long-term recovery. Unwanted sexual behavior and addiction have become rampant in today's society, largely through the availability of Internet pornography. For example, Family Safe Media reports that 40 million men regularly visit Internet pornography sites. It is so insidious that when a man looks to his left and then to his right he will likely encounter a man for whom pornography is a major problem in his home. Increasingly therapists will need clinical knowledge in order to work with sexually-addicted men as well as with couples in marital counseling where the male is sexually addicted. The book *Clinical Guide for the Treatment of Male Sexual Addiction*, is intended to guide therapists efforts to serve this growing population.

Empire From the Ashes Oct 21 2019 WE HAVE A JOB FOR YOU ... Just a routine day in lunar orbit. That's all Lieutenant Commander Colin MacIntyre, USN, expected. Only a simple training mission to test a new survey instrument intended for the first manned American-Russian interstellar flight. What he got was just a bit different. First, there was the fact that Earth didn't actually have a Moon. Then there was the three thousand-kilometer diameter alien starship pretending it was the Moon. And the millennia-old cybernetic intelligence that shanghaied him to serve as its crew. Colin might have been forgiven for thinking that those were enough surprises for any one man, but there were a few other small problems. Like the deadly mutiny which had been raging longer than the human race had existed on Earth ... and still wasn't over. Or like the millions of other starships, crewed by genocidal aliens dedicated to the extermination of all possible competing life forms, which just happened to be headed straight towards Earth. Or like the interstellar empire whose aid offered humanity's only hope for survival... except for the minor fact that its last emperor and all of his subjects had died forty-five thousand years ago. Add in the occasional homicidal terrorist, religious fanatics convinced that the only good MacIntyre was a dead MacIntyre, a bio-weapon capable of killing every living thing on any planet, a super-bomb which could take out whole worlds, a starship drive which could destroy complete solar systems, and the need to organize the entire planet Earth and all of its warring, mutually murderous factions, for a probably hopeless last-ditch defense, and Colin was convinced that things were just about as bad as they could possibly get. Until he found out whose job it had just become to fix all those problems, of course.... At the publisher's request, this title is sold without DRM (Digital Rights Management).

*Nineteen Eighty-Four* Oct 25 2022 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
