Motocourse 2020-2012 2021 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winner saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of this compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, chasing pack including Alavaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

The Last Vispo AnthologyOct 23 2019 This book collects experimental "visual poetry." With The Last Vispo Anthology, Fantagraphics spotlights the intersection of art and language in this innovative new collection ? without peer in the field that gathers the work of visual poets from around the world into one stunning volume. The alphabet is turned inside-out and the results culminate in a compilation of daring and surprising verbo-visual gems. The Last Vispo is a history of visual poetry (a portmanteau of the words "visual" and "poetry") from the years 1998 to 2008, during a burst of creative activity fueled by file sharing and e-mail, which made it possible for the vispo community to establish a more heterogeneous and sophisticated dialogue with one another. The collection extends the dialectic between art and literature that began with ancient "shaped text," medieval pattern poetry, and dada typography, pushing past the concrete poetics of the 1960s to the subsequent mail art movement of the 1980s to its current incarnation. Rather than settle into predictable, unchanging patterns, this vibrant poetry seizes new tools to expand the body of work that inhabits the borderlands of visual language. The Last Vispo features 148 contributors from 23 countries on five continents. It includes 12 essays that explore the abundant history and the state of vispo today. The anthology offers a broad amalgam of long-time practitioners and new to visual poetry over the last decade, underscoring the longevity and the continued vitality of the art form.

Ducati 999 Apr 21 2022 How do you replace a legend? For Ducati, the Italian motorcycle manufacturer worshipped by racers and riders all over the world, the answer was to start from scratch. When the company decided to produce a successor to its immensely popular 916/996/998 series, it allowed designer Pierre Terblanche to create a completely new motorcycle from the inside out. This approach resulted in a radically styled motorcycle whose improved ergonomics offer greater rider comfort and control, with more agile handling at all speeds. Ducati also broke with tradition by allowing two of the top motorcycling writers, Alan Cathcart and Marc Cook, to document the birth of the 999—from the earliest design sketches through final production. In an industry where product plans and manufacturing techniques are usually guarded secrets, Cathcart and Cook were given complete access to the designers, engineers, and technicians who worked on the 999 a superbike sensation.
