Is corporate governance effective in Kazakhstan? Aug 10 2020 Master's Thesis from the year 2013 in the subject Business economics - Business Management, Corporate Governance, grade: 61, University of Sheffield (Management), course: Accounting and Finance, language: English, abstract: The loud corporate failures have seriously shaken the public belief in modern corporate system and challenge the arguments of agency theorists. While modern corporate system in the developed economies has been built for centuries, the issues stemming of separation of ownership and control threaten to be-come considerable for post-transitional countries. This dissertation aims is to assess the effectiveness of corporate governance mechanisms in Kazakhstan. Taking the agency perspective, the assessment is carried out by examining the management turnover - performance relationship in 73 Kazakh firms listed on Kazakhstan Stock Exchange for the period of 2011-2013. The negative association between past performance of firms and management turnover was found significant at borderline line of 5% level, which cannot be interpreted as evidence of strong relationship

Capital Ideas Apr 29 2022 The right of governments to employ capital controls has always been the official orthodoxy of the International Monetary Fund, and the organization's formal rules providing this right have not changed significantly since the IMF was founded in 1945. But informally, among the staff inside the IMF, these controls became heresy in the 1980s and 1990s, prompting critics to accuse the IMF of indiscriminately encouraging the liberalization of controls and precipitating a wave of financial crises in emerging markets in the late 1990s. In *Capital Ideas*, Jeffrey Chwieroth explores the inner workings of the IMF to understand how its staff's thinking about capital controls changed so radically. In doing so, he also provides an important case study of how international organizations work and evolve. Drawing on original survey and archival research, extensive interviews, and scholarship from economics, politics, and sociology, Chwieroth traces the evolution of the IMF's approach to capital controls from the 1940s through spring 2009 and the first stages of the subprime credit crisis. He shows that IMF staff vigorously debated the legitimacy of capital controls and that these internal debates eventually changed the organization's behavior--despite the lack of major rule changes. He also shows that the IMF exercised a significant amount of autonomy despite the influence of member states. Normative and behavioral changes in international organizations, Chwieroth concludes, are driven not just by new rules but also by the evolving makeup, beliefs, debates, and strategic agency of their staffs.

Cherry Seed Oct 12 2020 It all started with Ayşe adopting the seed from one of the cherries she ate. Ayşe named it Seed Lili. The cherry seed was overjoyed and felt special when she got the name Lili. Now everyone would call her Lili, she would be known everywhere by that name. Ayşe kissed and loved her seed every day, and when the time came, she entrusted it to the bosom of the earth... As Seed Lili went from state to state to transform into a tree; loving, caring, and patience were necessary. This wonderful story of Mümine Yıldız and her little daughter Ayşe fills the hearts with crimson cherries... It invites us to a wonderful journey of discovery on endeavor, patience, love, friendship, fidelity and love of nature...
