Patina Volkswagens Jan 31
2020 Since the early 2000s, the
apparent explosion of interest
in Volkswagens with original
paint, rust and patina has
inspired a generation of car
fanatics, who might not be able
to afford to restore a car to
show condition, but still want a
good looking, cool car that will
stand out from the crowd. Once
looked upon as being in need of
restoration, cars with original
paint, rust and patina,
especially within the global
Volkswagen community, have
gradually become far more
popular than restored cars.
When walking down a line of
cars at a car show, it's easy to
see why; these cars are rare,
unspoiled survivors - cars that
tell a story of an interesting
and varied past. The look of the
Volkswagens being built in this
style is so honest, unspoiled
and characterful, that it has

begun to inspire the media;
even Hollywood movie stars
and celebrities. Whilst this has
undoubtedly resulted in
increased car values, and
turned a brand of cars that had
always been a cheap, honest
mode of transportation into
something cool with a high
price tag, the generation it
initially inspired has grown
with the hobby, and produced a
micro-industry that still
manages to embrace the 'Built
not bought' ethos. This book,
superbly illustrated with
stunning colour photographs,
takes an inside look at some of
the key car builders, dealers,
celebrities and hobbyists, as
well as the different styles of
build, meaning every single car
has a style all its own.

Foreword by Drew Pritchard of
TV's 'Salvage Hunters' fame.
