[Plunkett's Sports Industry Almanac 2008](#) Jul 18 2021 The sports business is a dynamic and growing industry in the U.S., Europe, Asia Pacific and elsewhere. In addition to major sporting leagues and teams, related sectors include sporting goods manufacturing, sports apparel, sporting events broadcasting and retailing. Sports and professional athletes attract companies interested in endorsements, advertising, merchandising and marketing opportunities. Plunkett's Sports Industry Almanac 2008 covers such sectors, providing competitive intelligence, market research and business analysis. Our coverage includes sports business trends analysis and sports industry statistics. We also include a sports business glossary and a listing of sports industry contacts, such as industry associations. Next, we profile over 350 leading teams, leagues and sports sector companies. Profiles include business descriptions and up to 27 executives by name and title. Price includes a CD-ROM, which enables you to search, filter, view and export selected contact data, including executive names for mail merge and contact management. You'll find industry analysis, an overview and market research report of sports, sporting goods, sports marketing, stadiums, teams, and leagues business in one value-priced package.

Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Maintaining Social Well-Being and Meaningful Work in a Highly Automated Job Market Mar 02 2020 In mainstream media, there has been wide discussion on what the world will look like when the artificial intelligence (AI) and robotics incursions into traditional human work result in fewer jobs in manufacturing, service industries, and other domains. Turning to automation is a practical endeavor for corporations because of the efficiencies and increased performance it fosters, but these changes have a major impact on humanity. The resulting lack of work has been linked to social ills and human failure to thrive. Maintaining Social Well-Being and Meaningful Work in a Highly Automated Job Market is a pivotal reference source that explores how the world will re-shape as one with less demand for human labor and how to potentially balance how people engage as part-workers and as consumers of others' creations. Additionally, the book looks at how people will co-create meaningful lives at micro, meso, and macro levels. While highlighting topics such as mobile technology, positive psychological capital, and human capital, this book is ideally designed for technologists, AI designers, robotics designers, policymakers, social engineers, CIOs, politicians, executives, economists, researchers, and students.
