Au plus profond de nous-même May 28 2022 Dans une société où, pour le bonheur des citoyens, l'Etat a rendu le mariage et l'adultère obligatoires, Paul arrive à l'âge où il doit épouser celle que l'administration a identifiée pour être sa femme. Sélectionnés par les puissants algorithmes des ordinateurs du bureau matrimonial qui analysent les données personnelles des citoyens, la compatibilité des couples est réputée optimale. Pour la première fois Paul est confronté à la réalité de cette société qui tente de bannir solitude et frustration sexuelle pour le bien-être de tous. Mais l'amour dans tout ça a-t-il une place ? Cette recette du bonheur est-elle vraiment faite pour libérer les hommes et les femmes ? Sous le supposé progrès social que prétend prodiguer le système, se cache une tout autre logique où chacun doit faire face à ses peurs, à ses contradictions, à son passé pour se libérer et trouver son chemin afin d'accomplir son destin.

Principles of Managerial Finance Oct 01 2022 Once again, Principles of Managerial Finance brings you a user friendly text with strong pedagogical features and an easy-to-understand writing style. The new edition continues to provide a proven learning system that integrates pedagogy with concepts and practical applications, making it the perfect learning tool for today's students. The book concentrates on the concepts, techniques and practices that are needed to make key financial decisions in an increasingly competitive business environment. Not only does this text provide a strong basis for further studies of Managerial Finance, but it also incorporates a personal finance perspective. The effect is that students gain a greater understanding of finance as a whole and how it affects their day-to-day lives; it answers the question "Why does finance matter to ME?" By providing a balance of managerial and personal finance perspectives, clear exposition, comprehensive content, and a broad range of support resources, Principles of Managerial Finance will continue to be the preferred choice for many introductory finance courses.

Sister Heart Jun 04 2020 A young Aboriginal girl is taken from the north of Australia and sent to an institution in the distant south. There, she slowly makes a new life for herself and, in the face of tragedy, finds strength in new friendships. Poignantly told from the child's perspective, Sister Heart affirms the power of family and kinship. Suitable for ages 10-15, this compelling novel about the stolen generations helps teachers sensitively introduce into the classroom one of world's most confronting histories.

Intelligence artificielle Jul 18 2021 Et si l'intelligence artificielle nous était contée ? Intelligence artificielle - Défis & perspectives a été conçu comme une invitation à découvrir cette révolution technologique et intellectuelle dont les avatars ne sont ni entièrement connus ni sans doute proprement maîtrisés. Si le concept a d'ores et déjà intégré l'imaginaire commun sous bien des formes, il soulève de véritables enjeux juridiques, éthiques et sociétaux que cet ouvrage collectif se propose d'aborder de façon non totalement linéaire, préférant au jardin à la française les arrangements subtilement décalés des espaces verts d'outre-Manche. Tout en permettant d'initier le lecteur à des domaines d'application variés et novateurs et de montrer combien l'intelligence artificielle fait désormais partie de notre quotidien, cet ouvrage apporte des réflexions prospectives sur les évolutions attendues ou souhaitées dans son domaine d'élection. Il reste à espérer qu'à sa lecture, le lecteur voudra bien adhérer à l'idée que l'intelligence artificielle peut rester un formidable outil au service du progrès et non constituer une création susceptible à terme de détruire son humanité.

Electrical Principles 5e Nov 02 2022 Electrical Principles by Peter Phillips covers the core knowledge components of the current UEE Electrotechnology Training Package, particularly targeting the Certificate III and Certificate II qualifications. The writing style and technical content is aimed at Certificate III students while retaining the terminology typically used in the Electrical Trades and referencing the AS/NZS 3000:2018 Wiring Rules. The book uses a student-friendly writing style, a range of fully worked examples and full-colour illustrations integrated with the text to make the basic principles easier to understand. This text is structured, written and illustrated to present the information in a way that is accessible to students. Accompanying instructor resources include mapping grid, solutions manual and downloadable PDF worksheets. Premium Instructor Resources Pack contains PowerPoint slides, Test Bank and artwork. Coptic Studies on the Threshold of a New Millennium Mar 14 2021 The congresses organised every four years under the auspices of the International Association for Coptic Studies (IACS) are the main forum for scholars of Egyptian Christian life and culture through the ages. The proceedings of the seventh congress, which was held in Leiden in 2000, comprise ninety-nine papers, reflecting the growth and

diversification of Coptic studies worldwide. They include valuable and sometimes groundbreaking essays in topics of, for example, Coptic language, literature, monasticism and archaeology. A particularly noteworthy and important feature of the present proceedings are the state-of-the-art reviews of current trends and achievements in the main fields of the discipline, written by invited experts and accompanied by extensive bibliographies. These review articles cover aspects of Coptic studies as diverse as papyrology, gnosticism, liturgy, Copto-Arabic and art history. They turn these two volumes into real reference books, indispensable for every scholar of early Church history, late antiquity and Near Eastern Christianity.
