Teachers in Action Oct 27 2022 This book provides an accessible introduction to action research for teachers, by encouraging teachers to adopt a research attitude to their practice and development. It bridges the gap between theoretical and practical teacher training. This versatile resource book contains a range of tasks suitable for many different in-service teacher education and development programmes.

The materials are specifically designed to help teachers develop their skills, knowledge and attitudes so they can become more effective teachers. The book will be of particular interest to teacher trainers in countries which are undergoing educational reform, or where teacher training is being given special priority by the Government and Ministry of Education.

Measurement: Word Problems Vol. 5 Gr. 3-5 May 30 2020 **This is the chapter slice "Word Problems Vol. 5 Gr. 3-5" from the full lesson plan "Measurement"** For grades 3-5, our resource meets the measurement concepts addressed by the NCTM standards and encourages the students to learn and review the concepts in unique ways. We provide students the opportunity to learn, review, and master essential measurement skills by encouraging them to use, compare, analyze, and assess different units of measurement. Students will reinforce and develop their knowledge of measurement tools including: length, volume, time, money, weight and area. Students will be asked to use standard as well as metric units of measure as they practice these measurement skills. The task sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, color activity posters and bonus worksheets. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.

Enhanced Discovering Computers, Essentials Feb 25 2020 Based on extensive customer feedback, DISCOVERING COMPUTERS ©2014 has been completely reexamined and revised to reflect the evolving needs of the concepts portion of the Introductory Computing course. This exciting new edition maintains many longstanding hallmarks, but is now highly focused on relevancy to provide students only with what they really need to know to be successful digital citizens in college and beyond. To better reflect the importance of certain topics in today's digital world, coverage of enterprise computing, ethics, Internet research skills, mobile computing, operating systems (other than Windows), browsers, security, and Web 2.0 has been expanded and integrated. New critical thinking and problem solving exercises are included in every feature throughout the text, engaging students in regular practice of higher-order thinking skills. In addition, students have more opportunity for hands-on practice with the completely revised end-of-chapter activities. With these enhancements and more, the new DISCOVERING COMPUTERS is an even more engaging teaching and learning tool for your classroom. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Discovering Computers ©2018: Digital Technology, Data, and Devices Mar 08 2021 Learn to maximize the use of mobile devices, make the most of online tools for collaboration and communication, and fully utilize the web and cloud with the latest edition of DISCOVERING COMPUTERS 2018. Clearly see how technology skills can assist in both gaining employment and advancing a career. This edition highlights web development, how to create a strong web presence, and take full advantage of the latest Windows 10. Content addresses today's most timely issues with coverage of contemporary technology developments and interesting in-text discussions. The authors provide helpful suggestions within a proven learning structure and offer meaning practice to reinforce skills. Self-assessments open each module and equip readers to focus study efforts and master more skills in less time. DISCOVERING COMPUTERS presents the key content needed for success using an approach that ensures understanding. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Getting Beyond "interesting" Apr 09 2021 Make use of a detailed plan and ready-to-use lessons for teaching appeal terms and Book Hook writing to students. Getting Beyond Interesting: Teaching Students the Vocabulary of Appeal to Discuss Their Reading is a practical application book that gives librarians all the tools they need to implement the teaching of both appeal terms and Book Hook writing and sharing. When students know how to write Book Hooks and have access to an easy-to-use system for allowing students to share Book Hooks, the result is greatly increased reading through the power of peer recommendations. This book not only supplies a detailed plan for teaching appeal terms and Book

Hook writing, but it also provides two extensive appendices containing all the black line masters and forms needed to implement these lessons. As a result, practitioners will be able to enhance their students' reading culture through increased sharing of reading--and most importantly, by empowering students with the ability to clearly define their reading preferences.

Parables of the Kingdom Jul 24 2022 Parables of the Kingdom is a language arts curricular unit on the New Testament Parables for seventh grade and up. The unit correlates to state standards and outcomes and the curriculum calendar provides over 30 hours of content material. Each session is accommodated with a full lesson plan, as well as the accompanying worksheets and keys. The narrative unit investigates the parables as literature, and provides historic critical and sociological background of the text. This unit is based on best practices in teaching and learning, and it is enriched by socratic circles, story-maps, role plays as well as relevant reading and writing assignments, and creative, productive projects.

Evidence-Based Interventions for Students with Learning and Behavioral Challenges May 22 2022 This book assembles into one volume summaries of school-based intervention research that relates to those who deal on a regular basis with the growing body of students having high-incidence learning disabilities and/or behavior disorders: special educators, school psychologists, and clinical child psychologists. Chapter authors begin with an overview of their topic followed by a brief section on historical perspectives before moving on to the main section – a critical discussion of empirically based intervention procedures. In those instances where evidence-based prescriptions can legitimately be made, authors discuss best practices and the conditions (e.g., classroom environment, teacher expertise) under which these practices are most effective. A final section deals with policy issues.

Medical Terminology Jul 20 2019

The Primary English Encyclopedia Jun 18 2019 This newly updated, user friendly Primary English Encyclopedia addresses all aspects of the primary English curriculum and is an invaluable reference for all training and practising teachers. Now in its fifth edition, entries have been revised to take account of new research and thinking. The approach is supportive of the reflective practitioner in meeting National Curriculum requirements in England and developing sound subject knowledge and good classroom practice. While the book is scholarly, the author writes in a conversational style and includes reproductions of covers of recommended children's books and examples of children's writing and drawing to add interest. The encyclopedia includes: over 600 entries, many expanded and entirely new for this edition, including entries on apps, blogging and computing; short definitions of key concepts; input on the initial teaching of reading including the teaching of phonics and the other cue-systems; extended entries on major topics such as speaking and listening, reading, writing, drama, poetry, non-fiction, bilingualism and children's literature; information on new literacies and new kinds of texts for children; discussion of current issues and input on the history of English teaching in the primary years; extended entries on gender and literacy; important references for each topic, advice on further reading and accounts of recent research findings; and a Who's Who of Primary English and lists of essential texts, updated for this new edition. This encyclopedia will be ideal for student teachers on BA and PGCE courses preparing for work in primary schools and primary school teachers. Anyone concerned with bringing about the informed and imaginative teaching of primary school English will find this book helpful and interesting.
