Personal Finance Jun 15 2021 This text is written directly at the student. It introduces the student to the concepts, tools, and applications of personal finance and investments. In order to leave a lasting impression, this book concentrates on the fundamentals and underlying principles of personal finance, rather than focusing on equations and specific

tools, which are more easily forgotten. Building on the 15 Axioms of Personal Finance, the text helps the students develop an intuitive understanding not only of the process of financial planning, but also the logic that drives it. This text is designed for a one-semester introductory course in Personal Finance at the college and university level.

By introducing key finance concepts with personal and business-related finance examples, this text helps readers understand how the tools of finance can help them in any career or business situation. This edition features strengthened material on financial statements, a discussion on yield curves, new and advanced spreadsheet problems, and

updated material.

The Byzantine Lady Jul 17 2021 What kind of lives did women in the Byzantine empire lead? Just how subservient were they in so male-dominated a society? In this collection of biographies Donald M. Nicol uncovers the unexpected fact that in the later years of the empire, at least, some aristocratic women enjoyed influence and exercised initiative. The ten ladies whose lives are described here did not complain of male oppression: instead, despite the conventions of caste and court, they found an outlet for their talents in religion, patronage, friendship and scholarship. They left a lasting influence on the society in which they lived. The story of their achievements offers new perspectives on the Byzantine empire, and a fascinating insight into the lives of women in past times.

Financial Management: Principles and Applications Nov 01 2022 The sixth edition of Financial Management provides students with an overview of financial management suited to the first course in finance. The focus of the text is on the big picture, providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions. Attention is paid to

both valuation and capital markets, as well as their influence on corporate financial decisions. The 10 basic principles of finance are introduced in the first chapter and woven throughout the text, to give students a solid foundation from which to build their knowledge of finance. The goal of this text is to go beyond teaching the tools of a discipline or a trade and help students gain a complete understanding of the subject. This will give them the ability to apply what they have learnt to new and as yet unforeseen problems—in short, to educate students in finance.
