**Metal Clay Rings** Jan 03 2020 Metal Clay Rings presents simple instructions for making 18 beautifully designed, wearable rings. Author Irina Miech teaches a wide repertoire of ring-forming skills that readers can develop as the projects move from easy to challenging. The book contains a helpful section on metal clay basics, specialty tools and techniques for making rings, thorough instructions, and clear photographs. Beginners can try such projects as River Stones, Wrapped Leaf-Imprinting, and Burst of Beads. Intermediate beaders can create the Jeweled Project Setting, Moonrise, and Organic Splendor. Advanced crafters can make an Elegant Solitaire, a Whimsical Framed Gem-Bezel, and a Spinner Ring. These are just some of the lovely original designs featured here. Metal Clay Rings encourages beaders to try metal clay and inspires metal clay artists to incorporate beads in wonderful new ways.

**How to Make Resin Jewellery** Jul 09 2020 Resin jewellery first started in the US around 6 years ago and has now become one of the fastest-growing trends in jewellery making. The technique is very simple - you simply mix the two-part resin together and pour into a bezel or pendant. Rings, pendants, brooches, cufflinks, hairpins and bracelets are all easy to make and look incredibly professional when done. In this inspiring book, well-known crafter Sara Naumann shows you just how easy and quick resin jewellery is to make, using minimal equipment and readily available products, and provides over 50 fabulous projects for you to try. You can add numerous items to the resin to achieve different effects. You can place paper in the bezels to act as a background to the resin - such as old book paper, map paper, scrapbook paper and photographs. Paper can also be painted, stencilled, or layered with washi tape before being coated with resin. Try sheet music for a vintage vibe, or origami papers for a fresh, contemporary look. In addition, you can also immerse various items in the resin before it cures, such as dried flowers and leaves, feathers, shells, beads and charms, or try adding glitter, coloured inks, nail polish and virtually anything else you can think of. The versatility of resin jewellery is awe-inspiring, providing papercrafters as well as jewellery-makers with all the skills and inspiration they need to design and make their own stunning pieces.

Yamuna River Project Aug 10 2020 This publication presents the results of more than five consecutive years of focused research initiatives and designs from The University of Virginia School of Architecture towards the revitalization of New Delhi, India's water bodies. In collaboration with the Delhi Jal Board, The University of Virginia's Yamuna River Project is an inter-disciplinary research program, proposing to revitalize the ecology of the Yamuna River in Delhi and creating vital urban links with the Yamuna River as it flows through India's capital city. Through the research, methodologies, and designs contained within this publication, this project aims to serve as a catalyst for the urgent recovery of the Yamuna River and its tributaries, building a publically accessible body of information and expertise resulting in visions of what an alternative future would be. Only by addressing human equality and the complexity of Delhi's urban phenomenon can the social and ecological crises manifested through these neglected water bodies be solved.

The Country Houses of John F. Staub Apr 17 2021 "This ambitious study of Staub's work by architectural historian Stephen Fox goes beyond a description of Staub's houses. Fox analyzes the roles of space, structure, and decoration in creating, defining, and maintaining social class structures and expectations and shows how Staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients. In the process, he contributes greatly to a fuller understanding of Houston's emergence as a premier American city."--BOOK JACKET.
