Research Handbook on Labour, Business and Human Rights Law Jun 21 2022 Inquisitive and diverse, this innovative Research Handbook explores the ways in which human rights apply to people at work, through national constitutional provisions, judicial decisions and the application of rights expressed in supranational instruments. Analysing why certain human rights are deemed fundamental and how they apply in the context of work, this expansive Research Handbook highlights the gulf between the ideal applications of these rights universally, and the increasing reality in the new economy that these are rarely enforceable for employees in alternative forms of employment. Established and emerging scholars provide perspectives from countries across all continents, identifying issues of prominence in their area of the globe. Probing workers' rights and business obligations, the Research Handbook on Labour, Business and Human Rights Law will be imperative reading for scholars and students working within the fields of labour law, human rights, and business ethics. This timely Research Handbook will also appeal to lawyers, trade union officials and government affairs staff, broadening their understanding of the laws and obligations impacting their positions.

Current Issues in Human Rights and International Relations Mar 18 2022 This book comprises many of the papers presented at these seminars, as well as two public lectures linked to CNRC/CCJO activities. The papers and lectures reflect the high quality of the materials produced for CNRC projects, and are distinguished by the broad range of experience of the contributors, who include academics, clergymen and senior officials of international organisations, as well as military officers of the highest rank and civil servants at the heart of government decision-making.

Research Handbook on Human Rights and Intellectual Property Oct 01 2020 Research Handbook on Human Rights and Intellectual Property is a comprehensive reference work on the intersection of human rights and intellectual property law. Resulting from a field-specific expertise of over 40 scholars and professionals of world re

Applying a Human Rights Approach to Social Work Research and Evaluation Oct 25 2022 This brief introduces a human rights approach to social work research and evaluation, compares it to traditional research approaches, and explains how to apply it in real world social work research. The author draws from a human rights framework that incorporates dignity and respect for all persons, the universality and interrelatedness of rights (political, civil, social, economic, and cultural), nondiscrimination, participation, accountability, and transparency. To advance a human rights approach, it introduces a rights-based model that accentuates the use of mixed methods and participatory research and evaluation. This brief aims to increase competencies in how to apply a rights based approach to research decision-making process from the formulation of research questions, research and practice design, and participatory action strategies that advance human rights. It is a call to action for social workers to forge a rights-based research agenda that fosters empowerment.

Research Handbook on Human Rights and Poverty Aug 23 2022 This important Research Handbook explores the nexus between human rights, poverty and inequality as a critical lens for understanding and addressing key challenges of the coming decades, including the objectives set out in the Sustainable Development Goals. The Research Handbook starts from the premise that poverty is not solely an issue of minimum income and explores the profound ways that deprivation and distributive inequality of power and capability relate to economic, social, cultural, civil and political rights.

Rights-based Approaches to Development May 20 2022 * Comprehensive summary and case studies of major of rights-based approach to development * Arranged in point/counterpoint format The associations between human rights and the work of development activists didn't receive widespread attention from international development agencies until the mid to late 1990s. The most visible sign that attitudes were changing occurred when the UN held its World Summit for Social Development in Copenhagen in 1995. From that point on, rights became a stated objective of most agencies, regardless of the level of effort they actually spent in incorporating these ideas into their activities. Now, over a decade after that crucial turning point, *Rights-Based Approaches to Development* reflects on the effect of the development community's major shift in focus from market-based frameworks to a rights-based one. Contributors, both academics and practitioners, reflect on their experience with rights-based development activities. They draw out the current debates, theoretical and practical concerns and achievements, and larger implications about poverty and the relationship between citizens and the state. With powerful insights into where the development community has been and where it needs to go, *Rights-Based Approaches to Development* is critical to understanding the role of social justice in the context of development.

Handbook of Research on Women's Issues and Rights in the Developing World Oct 13 2021 Equal rights for women are an essential aspect for establishing strong societies. By making strides on these issues, nations are helping to create valuable civilizations for their own population to establish livelihoods in. The *Handbook of Research on Women's Issues and Rights in the Developing World* is a pivotal scholarly resource that discusses the current issues facing women's rights in developing nations, as well as suggestions for improvements on these problems. Featuring in-depth discussions on relevant topics such as working-class women, gender theories, and international migration, this publication is an ideal resource for academicians, students, and researchers that are interested in learning more about the current challenges to the women's rights movement, and how to best combat them.

***Research Methods in Human Rights* Mar 06 2021** Methodological discussion has largely been neglected in human rights research, with legal scholars in particular tending to address research methods and methodological reflection implicitly rather than explicitly. This book advances thinking on human rights methodology, offering instruction and guidance on the methodological options for human rights research.

Childhood and Children's Rights between Research and Activism Dec 15 2021 Subjective human rights of children are reasonably fathomed cooperatively by practice, activism and research. Approaches in interdisciplinary learning and teaching in childhood and children's rights are demonstrated as possibilities for social change through acquiring competencies to think and act children's rights. This book is dedicated to Manfred Liebel and focuses on his life's work. He has, throughout his life and work, combined social scientific childhood theories and children's rights discourses with practical, topical examples of protagonism and agency of children and young people in different national and international contexts.

Methods of Human Rights Research Apr 19 2022 In academic human rights research, especially legal human rights research, little attention tends to be devoted to questions of methodology. One reason for this may be that human rights scholars often are former human rights activists. Dispensing with methodological niceties enables them to engage in wishful thinking and to come up with the conclusions they were hoping to find in the first place. Furthermore, although much emphasis continues to be put on the need to carry out human rights research from a multidisciplinary perspective, the methods to be applied in such research remain far from clear. Which criteria can be identified to qualify a piece of human rights research as a methodologically sound piece of work? Are there aspects and considerations that are typical for human rights research? What are good practices in human rights research? This book addresses these questions from the perspective of different scholarly fields relevant for human rights research, including international law, criminal law, criminology, political science, comparative politics, international relations, anthropology; philosophy, and history. This book is essential reading for any PhD candidate embarking on a dissertation in the field of human rights and any human rights scholar wishing to critically reflect on the quality of her/his own methods of work.

Research Handbook on Human Rights and Investment Dec 03 2020 The interplay between human rights and investments is a key and complex issue in today's world. To take stock of this importance and to tackle this complexity, this Research Handbook offers a unique multi-faceted approach. It gathers in-depth contributions which focus on the interplay between human rights and investments in various international legal regimes, economic sectors

and regions. It also provides thorough analyses of the various types of accountability that may result from the activities of multinational corporations in relation to human rights. This Research Handbook is intended for practitioners, policy-makers, academics and students eager to understand the interaction between human rights and investments in all its dimensions.

Research Handbook on the International Law of Indigenous Rights Mar 26 2020 This ground-breaking Research Handbook provides a state-of-the-art discussion of the international law of Indigenous rights and how it has developed in recent decades. Drawing from their extensive knowledge of the topic, leading scholars provide strong general coverage and highlight the challenges and cutting-edge issues arising in international Indigenous rights law.

A Research Paper Aug 11 2021

Research Handbook on Labour, Business and Human Rights Law Feb 05 2021 Inquisitive and diverse, this innovative Research Handbook explores the ways in which human rights apply to people at work, through national constitutional provisions, judicial decisions and the application of rights expressed in supranational instruments. Key topics include evaluation of the role of the ILO in developing and promoting internationally recognized labour rights, and the examination of the meaning of the obligation of business to respect human rights, considering the evolution from international soft law to incorporation in codes of conduct and the emerging requirement of due diligence.

The United Nations and Human Rights Dec 23 2019 The very concept of human rights implies governmental accountability. To ensure that governments are indeed held accountable for their treatment of citizens and others the United Nations has established a wide range of mechanisms to monitor compliance, and to seek to prevent as well as respond to violations. The panoply of implementation measures that the UN has taken since 1945 has resulted in a diverse and complex set of institutional arrangements, the effectiveness of which varies widely. Indeed, there is much doubt as to the effectiveness of much of the UN's human rights efforts but also about what direction it should take. Inevitable instances of politicization and the hostile, or at best ambivalent, attitude of most governments, has at times endangered the fragile progress made on the more technical fronts. At the same time, technical efforts cannot dispense with the complex politics of actualizing the promise of human rights at and through the UN. In addition to significant actual and potential problems of duplication, overlapping and inconsistent approaches, there are major problems of under-funding and insufficient expertise. The complexity of these arrangements and the difficulty in evaluating their impact makes a comprehensive guide of the type provided here all the more indispensable. These essays critically examine the functions, procedures, and performance of each of the major UN organs dealing with human rights, including the Security Council and the International Court of Justice as well as the more specialized bodies monitoring the implementation of human rights treaties. Significant attention is devoted to the considerable efforts at reforming the UN's human rights machinery, as illustrated most notably by the creation of the Human Rights Council to replace the Commission on Human Rights. The book also looks at the relationship between the various bodies and the potential for major reforms and restructuring.

International Human Rights of Women Jul 22 2022 This book provides a comprehensive introduction to the broad spectrum of human rights issues and violations as they are experienced by women and sexual minorities across civil, political, social, economic, and/or cultural domains, in different regions, countries, and contexts. It offers cogent summaries of concepts, debates, and trends vital to understanding the field and informing practice to advance the human rights of women. The book looks into such issues as: persistent discrimination in political and economic life; gender-based violence in public and private spheres; obstacles to reproductive and maternal human rights; threats to women human rights defenders; discrimination and violence against LGBT people; violations of women's human rights in conflict situations; and the nexus between sustainable development goals, climate change, and the human rights of women. It also addresses human rights violations in the name of culture or religion, and the challenges in realising the human rights of girls. Finally, the volume showcases effective strategies to advance the human rights of women in the form of national remedial measures and through engagement with international and regional human rights bodies and mechanisms.

A Research Agenda for Human Rights Jul 18 2019 This Research Agenda maps thought-provoking research trends for the next generation of interdisciplinary human rights scholars in this particularly troubled time. It charts the historic trajectory of scholarship on the international rights regime, looking ahead to emerging areas of inquiry and suggesting alternative methods and perspectives for studying the pursuit of human dignity.

AHRA Working Paper Aug 19 2019

Research Handbook on EU Law and Human Rights Jan 04 2021 The place of human rights in EU law has been a central issue in contemporary debates about the character of the European Union as a political organisation. This comprehensive and timely Handbook explores the principles underlying the development of fundamental rights norms and the way such norms operate in the case law of the Court of Justice. Leading scholars in the field discuss

both the effect of rights on substantive areas of EU law and the role of EU institutions in protecting them.

Research Handbook on International Law and Social Rights May 08 2021 This comprehensive Research Handbook offers a comparative overview of the history, nature and current status of social rights at the universal and regional level. Tracing their evolution from rather modest beginnings, to becoming the category of rights responding most accurately to the 21st century's policy objectives of poverty eradication and equitable resource allocation, this Research Handbook assesses the mechanisms used to enhance the implementation and enforcement of social rights.

Research Handbook on Global Governance, Business and Human Rights Feb 17 2022 This essential Research Handbook provides a comprehensive and critical assessment of the global governance instruments related to business and human rights from an interdisciplinary perspective. Contributions from a diverse range of leading international scholars offer an overview of the existing literature and rapidly-evolving research discipline, as well as identifying key trends and outlining an ambitious future research agenda.

Research Handbook on Compliance in International Human Rights Law Aug 31 2020 This comprehensive Research Handbook offers an in-depth examination of the most significant factors affecting compliance with international human rights law, which has emerged as one of the key problems in the efforts to promote effective protection of human rights. In particular, it examines the relationships between regional human rights courts and domestic actors and judiciaries.

Human Rights, Digital Society and the Law Nov 14 2021 The Internet has created a formidable challenge for human rights law and practice worldwide. International scholarly and policy-oriented communities have so far established a consensus regarding only one main aspect - human rights in the internet are the same as offline. There are emerging and ongoing debates regarding not only the standards and methods to be used for achieving the "sameness" of rights online, but also whether "classical" human rights as we know them are contested by the online environment. The internet itself, in view of its cross-border nature and its ability to affect various areas of law, requires adopting an internationally oriented approach and a perspective strongly focused on social sciences. In particular, the rise of the internet, enhanced also by the influence of new technologies such as algorithms and intelligent artificial systems, has influenced individuals' civil, political and social rights not only in the digital world, but also in the atomic realm. As the coming of the internet calls into question well-established legal categories, a broader perspective than the domestic one is necessary to investigate this phenomenon. This book explores the main fundamental issues and practical dimensions related to the safeguarding of human rights in the internet, which are at the focus of current academic debates. It provides a comprehensive analysis with a forward-looking perspective of bringing order into the somewhat chaotic online dimension of human rights. It addresses the matter of private digital censorship, the apparent inefficiency of existing judicial systems to react to human rights violations online, the uncertainty of liability for online human rights violations, whether the concern with personal data protection overshadows multiple other human rights issues online and will be of value to those interested in human rights law and legal regulation of the internet.

Research Handbook on Human Rights and Business Jun 09 2021 This authoritative Research Handbook brings together leading international scholars and practitioners to provide in-depth analysis of some of the most hotly debated topics and issues concerning the interface of human rights and business. Offering critical insights on prominent strands of research within the field of business and human rights, this comprehensive Research Handbook examines key challenges and potential solutions in the field.

Research Handbook on Implementation of Human Rights in Practice May 28 2020 Building upon the growing body of scholarship on the factors and actors that influence the extent to which states implement human rights law, this cutting-edge Research Handbook takes an interdisciplinary approach to exploring the roles of actors within supranational human rights bodies, the decisions and judgements they make, and the tools they use to facilitate human rights implementation.

The Construction of Fatherhood Oct 21 2019 This book tackles one of the most topical socio-legal issues of today: how the law - in particular, the European Court of Human Rights - is responding to shifting practices and ideas of fatherhood in a world that offers radical possibilities for the fragmentation of the conventional father figure and therefore urges decisions upon what kind of characteristics makes someone a legal father. It explores the Court's reaction to changing family and, more specifically, fatherhood realities. In so doing, it engages in timely conversations about the rights and responsibilities of men as fathers. By tracing values and assumptions underpinning the Court's views on fatherhood, this book contributes to highlight the expressive powers of the ECtHR and, more specifically, the latter's role in producing and legitimising ideas about parenting and, more generally, in influencing how family life is regulated and organised.

Book Review Digest Sep 12 2021

Digital Evidence and Electronic Signature Law Review Jun 16 2019 The Digital Evidence and Electronic Signature Law Review brings articles, legal developments and case reports to academics, practitioners and the industry in

relation to digital evidence and electronic signatures from across the world. The review also seeks to include reports on technical advances and book reviews.

Children's Rights, Educational Research and the UNCRC Jan 16 2022 'Children's Rights, Educational Research, and the UNCRC' provides international perspectives on contemporary issues pertaining to children's rights in education. The global context, relevance and implications of children's rights, educational research and the United Nations Convention on the Rights of the Child (UNCRC) are explored from multiple perspectives. Since the development of the UNCRC over 25 years ago, significant changes have occurred in the way that children's rights are considered, conceptualised and enacted. Even so, there remains a continued debate surrounding the extent to which the children's rights agenda is embraced within education, as researchers, teachers and other educational professionals continue to consider the degree to which the UNCRC informs practice. This book provides critical and focused discussion on the challenges of enacting children's rights in educational research contexts and alerts readers to the ways in which children's rights provide a provocation to think and practise differently. Chapter contributions from scholars in Australia, Finland, Portugal, Sweden and the United Kingdom provide diverse contexts from which subsequent educational and research practice can be derived. Each chapter problematises different aspects of children's rights within the context of educational research with both broad and specific wide-ranging implications and provides examples of different ways that these aspects are considered in practice.

Research Handbook on Human Rights and the Environment Apr 26 2020 Bringing together leading international scholars in the field, this Research Handbook interrogates, from various angles and positions, the fractious relationship between human rights and the environment and between human rights and environmental law.

Romani Communities and Transformative Change Jul 10 2021 Available Open Access under CC-BY-NC-ND.

Drawing on Roma community voices and expert research, this book provides a powerful tool to challenge conventional discourses and analyses on Romani identity, poverty and exclusion. Through the transformative vehicle of a 'Social Europe', this edited collection presents new concepts and strategies for framing social justice for Romani communities across Europe. The vast majority of Roma experience high levels of exclusion from the labour market and from social networks in society. This book maps out how the implementation of a new 'Social Europe' can offer innovative solutions to these intransigent dilemmas. This insightful and accessible text is vital reading for the policymaker, practitioner, academic and activist.

The New Civil Rights Research Nov 02 2020 First published in 2006, this book brings together some of the most innovative and important research on civil rights law and legality, this book draws on narratives of individuals from a variety of contexts to provide a rich and contextualized understanding of what happens when law interacts with other competing systems or forms of social organization. By privileging the real world experiences of those most influenced by rights, the collection moves beyond the traditional polarizing debates and presents a constitutive approach to rights that is not reducible to a simple 'for or against' rights formula. While this complex consciousness approach often contributes to the reproduction of dominant-subordinate social relations, it also allows for spaces of resisting existing hierarchical structures embedded in various law-related sites.

Disability Studies Today Nov 21 2019 Over recent years there has been an unprecedented upsurge of interest in the general area of disability and disability studies amongst academics and researchers throughout the world. This has generated an increasingly expansive literature, from a variety of perspectives, including cultural studies, development studies, geography, history, philosophy, social policy, social psychology and sociology. Perhaps inevitably, given this heightened interest, a number of important challenges and debates have emerged which raise many significant questions for all those interested in this newly emergent and increasingly important field. Disability Studies Today provides an invaluable introduction to and an overview of these concerns and controversies. Although the field is increasingly interdisciplinary in nature, the emphasis is primarily a sociological one since sociology continues to play a central role in the development of disability studies. Whilst the focus is primarily on theoretical innovation and advancement, the arguments presented in this book have important political and policy implications for both disabled and non-disabled people. Moreover, since disability studies, like ethnic, women's and gay and lesbian studies, has developed from a position of engagement and activism rather than one of detachment, the articles in this volume maintain this tradition. The book contains contributions from established figures, as well as newcomers to the field. Topics covered include: the history of the development of disability studies in Britain and America, key ideas, issues and thinkers, the role of the body, divisions and hierarchies, history, power and identity, work, politics and the disabled peoples' movement, globalization, human rights, research and the role of the academy. This book will prove invaluable to scholars, researchers, students and policy makers and, indeed, all those involved in this increasingly important area of social enquiry.
