The Reassembler Jul 21 2021 'A typically Mayesque celebration of classic engineering ... May is extraordinarily good at explaining what a carburettor is or outlining how a governor works... It's charming, transfixing and surprisingly intimate...It might be the best thing he's ever done.' - Guardian [review of BBC4 TV series] 'Reassembly is merely a form of therapy; something that stimulates a part of my brain that is left wanting in my daily life. When I rebuild a bicycle, I re-order my head. So might you... I'm delighted that you will be holding in your hands a book about putting things back together. It's a subject that fascinates me but which I assumed was a lonely passion that I would take to the grave, unconsummated by the normal channels of human interaction. Welcome! You and I, we are not alone, and our screwdrivers are our flashing Excaliburs as we sally forth to make small parts of the fragmented world whole again.' As in his hit BBC4 TV series, as well as learning the history of the objects, we get a history of the component parts. As James rebuilds an engine, he explains the cylinders, what they are, how they came about and what they do.

[May on Motors](#) Feb 25 2022 Best known as the third presenter in the unholy trinity that is Clarkson, Hammond and May on Top Gear, James May has lived, breathed and dreamt about cars his entire life. There is something about cars that stirs up intense feelings in people - how it makes them look to the outside world, how it makes them feel about themselves, how it looks to their girlfriends or their mates, or their neighbours. These feelings are humorously described in May on Motors, as James takes us on the road and looks at the cars that have shaped him, his world and the ordinary people of Britain. In May on Motors, James has brought together his most controversial and amusing pieces to make a brilliant collection that will amuse and inspire all car enthusiasts.
