Open Science: the Very Idea Dec 30 2019 This open access book provides a broad context for the understanding of current problems of science and of the different movements aiming to improve the societal impact of science and research. The author offers insights with regard to ideas, old and new, about science, and their historical origins in philosophy and sociology of science, which is of interest to a broad readership. The book shows that scientifically grounded knowledge is required and helpful in understanding intellectual and political positions in various discussions on the grand challenges of our time and how science makes impact on society. The book reveals why interventions that look good or even obvious, are often met with resistance and are hard to realize in practice. Based on a thorough analysis, as well as personal experiences in aids research, university administration and as a science observer, the author provides - while being totally open regarding science's limitations- a realistic narrative about how research is conducted, and how reliable 'objective' knowledge is produced. His idea of science, which draws heavily on American pragmatism, fits in with the global Open Science movement. It is argued that Open Science is a truly and historically unique movement in that it translates the analysis of the problems of science into major institutional actions of system change in order to improve academic culture and the impact of science, engaging all actors in the field of science and academia.

China Turns to Multilateralism Aug 25 2019 China's recent rapid economic growth has drawn global attention to its foreign policy, which increasingly has had an impact on world politics. In contrast with China's long-standing preference for bilateralism or unilateralism in foreign policy, recent decades have seen changes in the PRC's attitude and in its declaratory and operational policies, with a trend toward the accepting and advocating of multilateralism in international affairs. Whilst China's involvement has been primarily in the economic arena, for example, participation in the World Trade Organization and ASEAN Plus Three, it has more recently expanded into international security institutions, such as the Shanghai Cooperation Organization. This book records, analyzes, and attempts to conceptualize, this phenomenal development in Chinese foreign policy and its impact on international relations, with the emphasis on China's active participation in multilaterally-oriented regional security regimes. Written by an impressive team of international scholars, this book is the first collective effort in the field of China studies and international relations to look at China's recent turn to multilateralism in foreign affairs. It will appeal to students and scholars of Chinese politics and foreign policy, security studies and international relations.

European Multilingualism Jul 05 2020 This book provides a broad sociolinguistic perspective on major questions of political and cultural Europeanization. It is concerned with European multilingualism as it actually results from the intersecting endeavour of policy making and scientific research. This volume argues that the EU must overcome the major discrepancies of its linguistic diversity politics by developing into a multiple inclusive society beyond the nation-state in order to seriously unfold European multilingualism as a political goal. Expanding on the theoretical and methodological approaches developed within the EU project LINEE (Languages in a Network of European Excellence), this book further focuses on the LINEE key variables of European multilingualism i.e. 'culture', 'discourse', 'identity', 'ideology', 'knowledge', 'LPP', 'multi-competence', and 'power & conflict'. Against this background, this study argues for reconceptualising European multilingualism on the basis of an integrative and multi-focal approach.

[Writing and Motivation](#) Jul 25 2019 Bringing together contributions from international research on writing and motivation this volume addresses the implications of writing instruction based on the 2 main approaches to writing research: cognitive and socio-cultural. It provides systematic analysis of the various models, perspectives, and methods of motivation and writing.

[The Vaccine Book](#) Oct 27 2019 The Vaccine Book provides comprehensive information on the current and future world of vaccines. It reveals the scientific opportunities and potential impact of vaccines, including economic and ethical challenges, problems encountered when producing vaccines, how clinical vaccine trials are designed, and how to introduce vaccines into widespread use. Although vaccines are now available for many diseases, there are still challenges ahead for major diseases such as AIDS, tuberculosis, and malaria. The Vaccine Book is designed for students, researchers, public health officials, and all others interested in increasing their understanding of vaccines. Topics unique to this book: * Ethics * Economics * Diseases that could be prevented * Clinical trial designs * Ideas about the future of vaccines * Challenges facing research scientists in the vaccine area * Burden of vaccine-preventable illness and the impact of vaccines * Scientific obstacles to be overcome by existing and new vaccines * Basic mechanisms of host immunity and pathogen interaction with host tissues * New approaches to future vaccines against challenging diseases * Real and perceived safety issues which dominate vaccine development and vaccination policies * Microbial pathogenesis as a basis for vaccine design * Planning vaccine trials * Introducing new vaccines into the healthcare system * Future challenges for vaccines and immunizations

[Writing Under Pressure](#) Sep 26 2019 In *Writing Under Pressure*, Sanford Kaye, a renowned expert on the subject, presents a system he calls the Quick Writing Process (QWP) that focuses on real-world writing tasks and demonstrates how to produce the clearest, most honest, most powerful work possible under the constraints of time and space. A writing instructor with twenty-five years of experience teaching students and professionals, Kaye tells writers how to budget their time and how to use this time efficiently. Exploring particular writing situations in which QWP can be applied to make the most of what the writer knows, Kaye discusses, for example, the process of taking exams, focusing on how instructors select questions and evaluate essays. This invaluable reference offers essential guidelines for any student faced with a difficult writing assignment that has to be done now.

[Contaminants and the Soil Environment in the Australasia-Pacific Region](#) Jun 15 2021 The Australasia-Pacific Region supports approximately 50% of the world's population. The last half-century has witnessed a rapid increase in the regional population, agricultural productivity, industrial activities and trade within the region. Both the demand for increased food production and the desire to improve the economic conditions have affected regional environmental quality. This volume presents an overview of the fate of contaminants in the soil environment; current soil management factors used to control contaminant impacts, issues related to sludge and effluent disposals in the soil environment; legal, health and social impacts of contaminated land, remediation approaches and strategies to manage contaminated land, some of the problems associated with environmental degradation in the Australasia-Pacific Region and steps that we need to take to safeguard our environment.

OECD/G20 Base Erosion and Profit Shifting Project Making Dispute Resolution More Effective – MAP Peer Review Report, Thailand (Stage 2) Inclusive Framework on BEPS: Action 14 Nov 28 2019 Under BEPS Action 14, members of the OECD/G20 Inclusive Framework on BEPS have committed to implement a minimum standard to strengthen the effectiveness and efficiency of the mutual agreement procedure (MAP). The MAP is included in Article 25 of the OECD Model Tax Convention and commits countries to endeavour to resolve disputes related to the interpretation and application of tax treaties. The BEPS Action 14 Minimum Standard has been translated into specific terms of reference and a methodology for the peer review and monitoring process. The peer review process is conducted in two stages. Stage 1 assesses countries against the terms of reference of the minimum standard according to an agreed schedule of review. Stage 2 focuses on monitoring the follow-up of any recommendations resulting from jurisdictions' Stage 1 peer review report. This report reflects the outcome of the Stage 2 peer monitoring of the implementation of the BEPS Action 14 Minimum Standard by Thailand.

Object-Oriented Technology. ECOOP 2003 Workshop Reader Mar 01 2020 This volume represents the seventh edition of the ECOOP Workshop Reader, a compendium of workshop reports from the 17th European Conference on Object-Oriented Programming (ECOOP 2003), held in Darmstadt, Germany, during July 21–25, 2003. The workshops were held during the first two days of the conference. They cover a wide range of interesting and innovative topics in object-oriented technology and offered the participants an opportunity for interaction and lively discussion. Twenty-one workshops were selected from a total of 24 submissions based on their scientific merit, the actuality of the topic, and their potential for a lively interaction. Unfortunately, one workshop had to be cancelled. Special thanks are due to the workshop organizers who recorded and summarized the discussions. We would also like to thank all the participants for their presentations and lively contributions to the discussion: they made this volume possible. Last, but not least, we wish to express our appreciation to the members of the organizing committee who put in countless hours setting up and coordinating the workshops. We hope that this snapshot of current object-oriented technology will prove stimulating to you. October 2003 Frank Buschmann Alejandro Buchmann Mariano Cilia Organization ECOOP 2003 was organized by the Software Technology Group, Department of Computer Science, Darmstadt University of Technology under the auspices of AITO (Association Internationale pour les Technologies Objets) in cooperation with ACM SIGPLAN. The proceedings of the main conference were published as LNCS 2743.

Lobbying the European Union Jul 17 2021 Bringing together contributions from academics and practitioners on the theme of strategic, intelligent modern lobbying this book provides a thorough and accessible discussion on key ideas pertinent to the pursuance of public affairs in the European Union. Combining innovative academic research with first-hand professional experience it offers the reader a combination of practical recommendations, case studies and academic theory to add new insights to interest group research and lobbying strategies.

Witnessing to Christ Today Mar 13 2021 The Centenary of the World Missionary Conference, held in Edinburgh in 1910, is a suggestive moment for many people seeking direction for Christian mission in the twenty-first century. Since 2005 an international group has worked collaboratively to develop an intercontinental and multid denominational project, now known as Edinburgh 2010, and based at New College, University of Edinburgh.

Clinical Dentistry Daily Reference Guide Feb 09 2021 CLINICAL DENTISTRY DAILY REFERENCE GUIDE The first and only practical reference guide to clinical dentistry Clinical dentistry involves the practice of preventing, diagnosing, and treating patients' oral health conditions. Clinical Dentistry Daily Reference Guide is a one-stop resource loaded with critical information for day-to-day decision making regarding a myriad of clinical scenarios. This invaluable resource saves time by eliminating the need to search through websites, textbooks, and phone apps to find answers. This book offers step-by-step assistance on health history treatment modifications, oral cancer screening, radiographic interpretation, treatment planning, preventive dentistry, periodontics, operative dentistry, endodontics, oral surgery, toothaches, crown and bridge, dentures, partials, implant crowns, occlusal guards, pharmacology, pediatric dentistry, nitrous sedation, and more. This comprehensive guide: Provides quick access to information in an easy-to-read bulleted format Includes hundreds of high-quality clinical images, illustrations, and tables Answers real-life patient questions Contains procedural steps including post-operative instructions, lab prescriptions, troubleshooting, and clinical pearls Features alphabetized medical conditions and treatment modifications, evidence-based guidelines including the dental traumatology guidelines, tables of common medications converted to pediatric dosages, and more. Helps dentists gain confidence in their decision making Clinical Dentistry Daily Reference Guide is a must-have book for all dental students and practicing dentists, both new and seasoned. Other dental professionals that will benefit from this book include dental educators, expanded function dental assistants, and dental hygienists.
