Costing of Health Care Services in Developing Countries Aug 07 2020 The process of health care reforms must be based on demographic, epidemiological and economic evidence if it is to achieve the fundamental target of affordable, sustainable and efficient health care services for the entire population. Consequently, costing of health care services has become a frequently used element of health care reforms. This book presents the essentials of costing in a health economic framework and gives examples from successful costing studies done by the author in Tanzania, Vietnam and Burkina Faso. Based on these examples it demonstrates the importance of costing information for the planning and decision-making process in the field of budgeting, resource allocation, setting an insurance premium and strategic planning. The main message of this book is that costing of health care services is a valuable instrument in the fight for better 'health for all'.

Introduction to Management Accounting, Chap. 1-14 Aug 31 2022 Make the right decisions with Horngrren/Sundem/Stratton! Horngrren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text chapters and also appears in many of the text features: "Making Managerial Decisions" boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist on-line homework with automatic grading and infinite practice for students).

Information Quality and Management Accounting Jun 04 2020 One of the main aims of management accounting is to provide managers with accurate information in order to provide a good basis for decision-making. There is evidence that the information provided by management accounting systems (MAS) is distorted and the occurrence of biases in accounting information is widely accepted among users of MAS. At the same time, the intensity and the frequency of use of MAS increase, too.

Consequently, the quality of the provided information is critical. The focus of this simulation study is twofold. On the one hand, the impact of the sophistication of traditional costing systems on error propagation in the case of a set of input biases is investigated. On the other hand, the impact of single and multiple input biases on the quality of the information provided by traditional costing systems is focused. In order to investigate the research questions, a simulation approach is applied.

Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing Dec 23 2021 In an age of rising environmental concerns, it has become necessary for businesses to pay special attention to the resources they are consuming and the long-term effects of the products they are creating. These concerns, coupled with the current global economic crisis, demand a solution that includes not only business, but politics, ecology, and culture as well. The Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing provides the latest empirical research findings on how sustainable development can work not just for organizations, but for the global economy as a whole. This book is an essential reference source for professionals and researchers in various fields including economics, finance, marketing, operations management, communication sciences, sociology, and information technology.
