Let The Music Play: New Notes For Trivia Apr 06 2020 This book describes a new and exciting variant of trivia games. Rather than just having a mundane question and answer session, this book will introduce you to multi-dimensional "techno-trivia". This technique uses your smart phone, music and blue tooth technology to give musical clues that may help the audience to achieve the correct trivia answer in a more exciting way. This approach can help both the novice and more experienced, and often brilliant, trivia aficionado. Using this system, the question is asked and while everyone contemplates the answer, a song is played. The song's title, the song's artist and even the song's lyrics can be clues leading to the answer. If you don't immediately know the answer, this analysis of the song can help. This produces a multichannel approach that is more complex and entertaining than the commonplace and more ordinary contest. This "techno-trivia" can be played by large groups, small groups, and even individuals. It is a more perfect game that can be played anytime, for example: during a beach trip paralyzed by rain, dinner parties with your friends, or during any future 'lock-down' of society!

The Circle of Knowledge: A Classified, Simplified, Visualized Book of Answers Feb 26 2022 The Circle of Knowledge is an informative book that was designed in 1917, to be both inspiring and entertaining. The book represents the modern, progressive spirit which fits that time, in its forms of expression and its editorship. The purpose of this work is to answer the why, who, what, when, where, how of the wide majority of curious minds, both young and adult, and encourage them to raise further questions. Special measures were taken in creating this work to isolate essentials from non-essentials; to differentiate human interest subjects of universal significance from those of little concern; to deliver living truths instead of dead vocabulary; and finally, to bring the whole within the knowledge of the intermediate reader, without regard to age, in an acceptable and exciting form. The use of visual outlines and tables; maps, drawings, and diagrams; the illustrated works of great painters, sculptors, and architects all are used to give the reader the valuable and cultural knowledge of past and present.
