Watergate: The Hidden History Sep 02 2022 While Richard Nixon's culpability for Watergate has long been established—most recently by PBS in 2003—what's truly remarkable that after almost forty years, conventional accounts of the scandal still don't address Nixon's motive. Why was President Nixon willing to risk his reelection with so many repeated burglaries at the Watergate—and other Washington offices—in just a few weeks? What motivated Nixon to jeopardize his presidency by ordering the wide range of criminal operations that resulted in Watergate? What was Nixon so desperate to get at the Watergate, and how does it explain the deeper context surrounding his crimes? For the first time, the groundbreaking investigative research in Watergate: The Hidden History provides documented answers to all of those questions. It adds crucial missing pieces to the Watergate story—informing that President Nixon wanted, but couldn't get, and that wasn't available to the Senate Watergate Committee or to Woodward and Bernstein. This new information not only reveals remarkable insights into Nixon's motivation for Watergate, but also answers the two most important remaining questions: What were the Watergate burglars after? And why was Nixon willing to risk his Presidency to get it? Watergate: The Hidden History reexamines the historical record, including new material only available in recent years. This includes thousands of recently declassified CIA and FBI files, newly released Nixon tapes, and exclusive interviews with those involved in the events surrounding Watergate—ranging from former Nixon officials to key aides for John and Robert Kennedy. This book also builds on decades of investigations by noted journalists and historians, as well as long-overlooked investigative articles from publications like Time magazine, the Los Angeles Times, and the New York Times.

American Presidents and Oliver Stone Apr 28 2022 Perhaps no current filmmaker has made more provocative films about American history than Oliver Stone. In this book, Carl Freedman gives a detailed and nuanced account of the presidencies of John F. Kennedy, Richard Nixon and George W. Bush as fictionalized in Stone's biographical films JFK, Nixon and W. Offering detailed historical perspectives alongside careful aesthetic criticism, Freedman explores how Stone uses melodrama, tragedy and farce to transform politics into national mythology. Synthesizing film criticism with political and historical analysis, the book transcends the limitations of formalism and empiricism, reflecting on both Stone's achievements as a filmmaker and American politics of the past sixty years. Oliver Stone's importance among filmmakers as the major chronicler of recent US history is the starting point for the analysis of his three 'presidential' films: JFK, Nixon and W. While not claiming equal artistic merit for Stone's films, Freedman makes some comparison with Shakespeare's history plays and draws on T.S. Eliot's notion of 'essential history' to transcend the barren dichotomy of formalism versus empiricism – that is treating historical fiction as either only pure fiction, with nothing to say about real history, or judging it as non-fiction by the extent to which it adheres to superficial historical detail. Instead the focus is on the capacity of Stone's films to illuminate the structural workings of history, contemporary and general. Freedman is thoroughly familiar with his subject, and his meticulous attention to historical accuracy and critical attention to the films is impeccable. This book has a powerfully original focus and makes a significant contribution to the field through offering these detailed historical perspectives alongside much more careful aesthetic criticism of the films. It has the potential to become not only a great source on its subject, but a model of how to approach historical fiction in general. This is an academic study but is written in such an accessible style that it will have genuine appeal to the general reader – to anyone with an interest in cinema, politics and recent history. Wide-ranging, accessible and highly original, American Presidents combines erudition and complex analysis with jargon-free writing and is sure to engage anyone interested in the intersection of American politics and cinema. The academic readership will be among humanities scholars and students of film, popular culture, media, politics, political history and modern history. It will be highly relevant to undergraduate and postgraduate students studying film or modern American history and culture.

If J.F.K. Had Lived Sep 29 2019 An alternative history that poses the question: how would history have changed (or not) if President John F. Kennedy had survived his assassination attempt on November 22, 1963? But the differences in the time line actually date back even further, to the time of George Washington, who in a compromise becomes Lord President George I, thereby changing all subsequent history in very subtle ways. Another great piece of speculative fiction.

[The Wicked Wit of John F. Kennedy](#) Mar 04 2020 In spite of his tragic death in November 1963, John F. Kennedy remains one of the most popular American presidents. Aside from the great set-piece speeches that helped to define him as a world leader, he possessed a richly warm sense of humor and a ready wit honed both at home and on politics. This collection presents hundreds of examples of that very wit, from Kennedy's opinions on the campaign trail to his view of the Cuban Missile Crisis. Christine Koning's previous books include *A Treasury for Mothers and Fabulous Time*. Kennedy or Nixon Sep 21 2021

[Six Crises](#) Nov 23 2021 For many years before he became President, Richard Nixon's decisions vitally affected the well-being of the nation. Six of those decisions significantly shaped the man who would later become the 37th President of the United States. Six Crises is a close-up look at this dynamic man, recalling the demands placed upon him, the thinking behind his decisions, and the pressures of political life.

Oliver Stone Jul 20 2021 Ranging from 1981 to 1997, the 15 conversations featured in this collection reveal a man frustrated by what he sees as the hypocrisies of American politics, of conservatism, and of the Hollywood film industry. Though the subjects of "Nixon, JFK, Born on the 4th of July, The Doors", and "Heaven and Earth" are rooted in the turbulent 1960s, Stone as interviewee and filmmaker is firmly entrenched in the present. Film stills. [JFK](#) Dec 25 2021 Half a century after John F. Kennedy's assassination, his death remains among the most controversial events in American history. But it is not an isolated event. And it was carefully planned, and even rehearsed. A confidential story imparted by a cousin draws together disparate threads and weaves a coherent explanation. According to Frank Sturgis's family, the Bay of Pigs connects the roles of Frank Sturgis, E. Howard Hunt, the CIA (namely Allen Dulles, Richard Bissell, Tracy Barnes, and General Cabell), George Herbert Walker Bush, Richard M. Nixon, the Joint Chiefs of Staff, the Mafia, and the FBI.

Kennedy & Nixon Dec 13 2020 John F. Kennedy and Richard Nixon each dreamed of becoming the great young leader of their age. First as friends, then as bitter enemies, they were linked by a historic rivalry that changed both them and their country. In this startling dual portrait, Chris Matthews shows how the contest between the charismatic Kennedy and the talented yet haunted Nixon propelled America toward Vietnam and Watergate. Fresh, entertaining, and revealing, Kennedy and Nixon shows how the early fondness between the two men—Kennedy, for example, told a trusted friend that if he didn't receive the Democratic nomination in 1960, he would vote for Nixon—degenerated into distrust and bitterness. Using White House tapes, this book shows how Richard Nixon's dread of a Kennedy "restoration" in 1972 drove the dark deeds of Watergate.

[The Making of the President 1960](#) Jan 14 2021 A Harper Perennial Political Classic, *The Making of the President 1960* is the groundbreaking national bestseller and Pulitzer Prize-winning account of the 1960 presidential campaign and the election of John F. Kennedy. With this narrative history of American politics in action, Theodore White revolutionized the way presidential campaigns are reported. Now back in print, freshly repackaged, and with a new foreword written by Robert Dallek, *The Making of the President 1960* remains the most influential publication about the election of John F. Kennedy.

[JFK, Nixon, Oliver Stone and Me](#) Aug 01 2022 "JFK, Nixon, Oliver Stone and Me is the funny, thoughtful memoir of an accomplished former Congressional staffer who left D.C. for Hollywood and a job with Oliver Stone, hoping to help make politically"

[The Real Making of the President Mar 28 2022](#) When John Kennedy won the presidency in 1960, he also won the right to put his own spin on the victory. Rorabaugh cuts through the mythology of this election to explain the operations of the campaign and offer a corrective to Theodore White's flawed classic, *The Making of the President*.

Richard Nixon Mar 16 2021 From a prize-winning biographer comes the defining portrait of a man who led America in a time of turmoil and left us a darker age. We live today, John A. Farrell shows, in a world Richard Nixon made. At the end of WWII, navy lieutenant "Nick" Nixon returned from the Pacific and set his cap at Congress, an idealistic dreamer seeking to build a better world. Yet amid the turns of that now-legendary 1946 campaign, Nixon's finer attributes gave way to unapologetic ruthlessness. The story of that transformation is the stunning overture to John A. Farrell's magisterial biography of the president who came to embody postwar American resentment and division. Within four years of his first victory, Nixon was a U.S. senator; in six, the vice president of the United States of America. "Few came so far, so fast, and so alone," Farrell writes. Nixon's sins as a candidate were legion; and in one unflinching secret plot, as Farrell reveals here, Nixon acted to prolong the Vietnam War for his own political purposes. Finally elected president in 1969, Nixon packed his staff with bright young men who devised forward-thinking reforms addressing health care, welfare, civil rights, and protection of the environment. It was a fine legacy, but Nixon cared little for it. He aspired to make his mark on the world stage instead, and his 1972 opening to China was the first great crack in the Cold War. Nixon had another legacy, too: an America divided and polarized. He was elected to end the war in Vietnam, but his bombing of Cambodia and Laos enraged the antiwar movement. It was Nixon who launched the McCarthy era, who played white against black with a "southern strategy," and spurred the Silent Majority to despise and distrust the country's elites. Ever insecure and increasingly paranoid, he persuaded Americans to gnaw, as he did, on grievances—and to look at one another as enemies. Finally, in August 1974, after two years of the mesmerizing intrigue and scandal of Watergate, Nixon became the only president to resign in disgrace. Richard Nixon is a gripping and unsparring portrayal of our darkest president. Meticulously researched, brilliantly crafted, and offering fresh revelations, it will be hailed as a master work.

[A Lion... A Fox](#) May 30 2022 This intriguing book poses many "what if" questions about former President Richard Nixon. Journey to an alternate history of the presidency that takes place after Nixon wins a close victory in the 1960 presidential election against John F. Kennedy. Nixon is exposed as the real Nixon, the man behind the image. Follow his team as it seeks victory during the primaries, campaign, and election. In this gripping new reality, learn how Nixon might have dealt with the cold war, Cuba, foreign relations, civil rights, organized crime, involvement in Vietnam, and other issues of the day. Join in the hunt to discover, as the title suggests, if Richard M. Nixon was more a lion or a fox? In his book *A Lion... A Fox: The Alternate Presidency of Richard M. Nixon*, Grant Teller introduces the main influences and people in Nixon's life. Meet Murray Chotiner, Nixon's right hand man and chief campaign manager; Bebe Rebozo, his best friend, who had influence with a nefarious group of campaign contributors; and the fictional Anthony Masters, an energetic and idealistic young man who idolized Nixon and worked as an important staffer. Then there were the women in his life: Pat Nixon, his trusted and devoted wife, and Rose Mary Woods, the gatekeeper secretary, who saw herself as the guardian to the president. What impact would this alternate Richard Nixon have on history if he had won the presidency in 1960 instead of 1968, and how would he have changed the world?

[The Letters of John F. Kennedy](#) Oct 30 2019 Published for the fiftieth anniversary year of the assassination of JFK in Dallas in November 1963, these letters, many published for the first time, present both the politician and the man.

King Richard Apr 04 2020 ONE OF USA TODAY'S BEST BOOKS OF THE YEAR • A riveting account of the crucial days, hours, and moments when the Watergate conspiracy consumed, and ultimately toppled, a president—from the best-selling author of *One Minute to Midnight*. In January 1973, Richard Nixon had just been inaugurated after winning re-election in a historic landslide. He enjoyed an almost 70 percent approval rating. But by April 1973, his presidency had fallen apart as the Watergate scandal metastasized into what White House counsel John Dean called "a full-blown cancer." King Richard is the intimate, utterly absorbing narrative of the tension-packed hundred days when the Watergate conspiracy unraveled as the burglars and their handlers turned on one another, exposing the crimes of a vengeful president. Drawing on thousands of hours of newly-released taped recordings, Michael Dobbs takes us into the heart of the conspiracy, recreating these traumatic events in cinematic detail. He captures the growing paranoia of the principal players and their desperate attempts to deflect blame as the noose tightens around them. We eavesdrop on Nixon plotting with his aides, raging at his enemies, while also finding time for affectionate moments with his family. The result is an unprecedented vivid, close-up portrait of a president facing his greatest crisis. Central to the spellbinding drama is the tortured personality of Nixon himself, a man whose strengths, particularly his determination to win at all costs, became his fatal flaws. Rising from poverty to become the most powerful man in the world, he commits terrible errors of judgment that lead to his public disgrace. He makes himself—and then destroys himself. Structured like a classical tragedy with a uniquely American twist, *King Richard* is an epic, deeply human story of ambition, power, and betrayal.

[The Cambridge Companion to John F. Kennedy](#) Jun 26 2019 The Cambridge Companion to John F. Kennedy explores the creation, and afterlife, of an American icon.

Kennedy V. Nixon Jan 26 2022 "For almost half a century 'The Making of the President, 1960' has stood as the standard work on this topic. Kallina has exposed the mythology of Theodore White's description of Camelot. For the first time we have an unbiased portrayal of what happened before, during, and after that pivotal election."—Irving F. Gellman, author of "The Contender: Richard Nixon, the Congress Years, 1946-1952" Readers will never look at the historic 1960 election the same way again."—Matthew Corrigan, author of "Race, Religion, and Economic Change in the Republican South" "Kennedy v. Nixon" is a book for everyone who "thinks 'they know what happened in the pivotal election year of 1960. For fifty years we've accepted Theodore White's premise (from 'The Making of the President, 1960') that Kennedy ran a brilliant campaign while Nixon committed blunder after blunder. But White the journalist was a Kennedy partisan and helped establish the myth of Camelot. Now, five decades later, Edmund Kallina offers a fresh overview of the election's most critical and controversial events. Based upon research conducted at four presidential libraries—those of Eisenhower, Kennedy, Johnson, and Nixon—Kallina is able to make observations and share insights unavailable in the immediate aftermath of one of the closest races in American presidential history. He describes the strengths and mistakes of "both" camps, and examines the impact of civil rights, Cold War tensions, and the televised presidential debates on an election that still looms large in both the political history and the popular imagination of the United States.

Campaign of the Century Oct 03 2022 Based on massive new research, a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F. Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century, yet the accounts to date have been remarkably unbalanced. Far more attention is given to Kennedy's side than to Nixon's. The imbalance began with the first book on that election, Theodore White's *The Making of the President 1960*—in which (as he later admitted) White deliberately cast Kennedy as the hero and Nixon as the villain—and it has been perpetuated in almost every book since then. Few historians have attempted an unbiased account of the election, and none have done the archival research that Irwin F. Gellman has done. Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski, vice-presidential candidate Henry Cabot Lodge, and many others, this book presents the first even-handed history of both the primary campaigns and the general election. The result is a fresh, engaging chronicle that shatters long-held myths and reveals the strengths and weaknesses of both candidates.

[The Uncommon Wisdom of JFK](#) Jul 08 2020 With a variety of the very best quotes, anecdotes and archival footage, this title reveals the core character of a visionary over the course of a remarkable and dramatic life and presidency.

[The Making of a Catholic President Apr 16 2021](#) The 1960 presidential election, won ultimately by John F. Kennedy, was one of the closest and most contentious in American history. The country had never elected a Roman Catholic president, and the last time a Catholic had been nominated—New York Governor Al Smith in 1928—was routed in the general election. From the outset, Kennedy saw the religion issue as the single most important obstacle on his road to the White House. He was acutely aware of, and deeply frustrated by, the possibility that his personal religious beliefs could keep him out of the White House. In *The Making of a Catholic President*, Shaun Casey tells the fascinating story of how the Kennedy campaign transformed the "religion question" from a liability into an asset, making him the first (and still only) Catholic president. Drawing on extensive archival research,

including many never-before-seen documents, Casey takes us inside the campaign to show Kennedy's chief advisors--Ted Sorensen, John Kenneth Galbraith, Archibald Cox--grappling with the staunch opposition to the candidate's Catholicism. Casey also reveals, for the first time, many of the Nixon campaign's efforts to tap in to anti-Catholic sentiment, with the aid of Billy Graham and the National Association of Evangelicals, among others. The alliance between conservative Protestants and the Nixon campaign, he shows, laid the groundwork for the rise of the Religious Right. This book will shed light on one of the most talked-about elections in American history, as well as on the vexed relationship between religion and politics more generally. With clear relevance to our own political situation--where politicians' religious beliefs seem more important and more volatile than ever--The Making of a Catholic President offers rare insights into one of the most extraordinary presidential campaigns in American history.

1960: LBJ vs. JFK vs. Nixon Nov 04 2022 "1960 aims to take us deeper into the campaign than Theodore White's famous 'The Making of the President, 1960. And it does."--Chicago Sun-Times This is award-winning historian David Pietrusza's hard-edged account of the 1960 presidential campaign, the election that ultimately gave America "Camelot" and its tragic aftermath. It is the story of the bare-knuckle politics of the primaries; the party conventions' backroom dealings; the unprecedented television debates; the hot-button issues of race, religion, and foreign policy--and, at the center of it all, three future presidents: Lyndon Johnson, John F. Kennedy, and Richard Nixon. "Terrific." --Robert A. Caro, winner of two Pulitzer Prizes and the National Book Award "A stirring, hard-edged political saga. An outstanding reexamination." --Booklist "1960 provides new insights into that year's hard-fought, pivotal election, but, more than that, 1960 is great storytelling--a fascinating, can't-put-it-down account of how American politics really works." --Former United States Attorney General Richard Thornburgh "Essential for understanding the political forces that in many ways shaped the world we live in today." --David Mark, author of Going Dirty: The Art of Negative Campaigning

The Invisible Bridge May 18 2021 The best-selling author of Nixonland presents a portrait of the United States during the turbulent political and economic upheavals of the 1970s, covering events ranging from the Arab oil embargo and the era of Patty Hearst to the collapse of the South Vietnamese government and the rise of Ronald Reagan.

The Road to Camelot Oct 11 2020 John F. Kennedy and his young warriors invented modern presidential politics. They turned over accepted wisdom that his Catholicism was a barrier to winning an election and plotted a successful course to that constituency. They hired Louis Harris -- a polling entrepreneur -- to become the first presidential pollster. They twisted arms and they charmed. They lined up party bosses, young enthusiasts, and fellow Catholics and turned the traditional party inside out. The last-minute invitation to Lyndon B. Johnson for vice president in 1956 surprised them only because they had failed to notice that he wanted it. They invented The Missile Gap in the Cold War and out-glamoured Richard Nixon in the TV debates. Now journalists Tom Oliphant and Curtis Wilkie provide the most comprehensive account, based on a depth of personal reporting, interviews, and archives. The authors have examined more than 1,600 oral histories at the John F. Kennedy library; they've interviewed surviving sources, including JFK's sister Jean Smith, and they draw on their own interviews with insiders including Ted Sorensen and Arthur Schlesinger, Jr. From the start of the campaign in 1955 when his father tried to persuade President Johnson to run with JFK as his running mate, The Road to Camelot reveals him as a tough, shrewd political strategist who kept his eye on the prize.

Dr. Feelgood Sep 09 2020 Doctor Max Jacobson, whom the Secret Service under President John F. Kennedy code-named "Dr. Feelgood," developed a unique "energy formula" that altered the paths of some of the twentieth-century's most iconic figures, including President and Jackie Kennedy, Marilyn Monroe, Frank Sinatra, and Elvis. JFK received his first injection (a special mix of "vitamins and hormones," according to Jacobson) just before his first debate with Vice President Richard Nixon. The shot into JFK's throat not only cured his laryngitis, but also diminished the pain in his back, allowed him to stand up straighter, and invigorated the tired candidate. Kennedy demolished Nixon in that first debate and turned a tide of skepticism about Kennedy into an audience that appreciated his energy and crispness. What JFK did not know then was that the injections were actually powerful doses of a combination of highly addictive liquid methamphetamine and steroids. The authors reveal heretofore unpublished material about the mysterious Dr. Feelgood. Through well-researched prose and interviews with celebrities including George Clooney, Jerry Lewis, Yogi Berra, and Sid Caesar, the authors reveal Jacobson's vast influence on events such as the assassination of JFK, the Cuban Missile Crisis, the Kennedy-Khrushchev Vienna Summit, the murder of Marilyn Monroe, the filming of the C.B. DeMille classic "The Ten Commandments," and the work of many of the great artists of that era. Jacobson destroyed the lives of several famous patients in the entertainment industry and accidentally killed his own wife, Nina, with an overdose of his formula.

The Last of the President's Men Aug 28 2019 Woodward exposes one of the final pieces of the Richard Nixon puzzle, examining the untold story of Alexander Butterfield, the Nixon aide who disclosed the secret White House taping system that changed history and led to Nixon's resignation. In forty-six hours of interviews with Butterfield, supported by thousands of documents, many of them original and not in the presidential archives and libraries, Woodward has uncovered new dimensions of Nixon's secrets, obsessions, and deceptions.

Rising Star, Setting Sun Feb 01 2020 After winning the presidency by a razor-thin victory on November 8, 1960, over Richard Nixon, Dwight D. Eisenhower's former vice president, John F. Kennedy became the thirty-fifth president of the United States. But beneath the stately veneers of both Ike and JFK, there was a complex and consequential rivalry. In Rising Star, Setting Sun, John T. Shaw focuses on the intense ten-week transition between JFK's electoral victory and his inauguration on January 20, 1961. In just over two months, America would transition into a new age, and nowhere was it more marked than in the generational and personal difference between these two men and their dueling visions for the country they led. The former general espoused frugality, prudence, and stewardship. The young political wunderkind embodied dramatic themes and sweeping social change. Extensively researched and eloquently written, Shaw paints a vivid picture of what Time called a "turning point in the twentieth century" as Americans today find themselves poised on the cusp of another watershed moment in our nation's history.

JFK and LBJ Aug 21 2021 Discusses how personality dominates political effectiveness and examines the greatest failures of the two presidents
Conversations with JFK Jun 18 2021 For many, the presidency of John F. Kennedy was a magic interlude in American history. His admirers saw him as a leader of intelligence and imagination, who wielded power with grace, courage and verve, although detractors have questioned the depth of his convictions and drawn attention to his serial philandering. Kennedy's rise also marked the beginning of modern "celebrity" politics -- a politician with film star charisma who proved ideally suited to the new age of television. Meet the man himself and he'll tell you how it felt to have his finger on the red button when the world teetered on the brink of nuclear war. The book is divided into two parts: a biographical essay that provides a concise overview of JFK's life, achievements, scandals and controversies; and a Q&A dialogue based on rigorous research and incorporating JFK's actual spoken or written words whenever possible, along with rigorously researched biographical interpretations of his various views and positions. Here you will find all the key moments in JFK's life and career: his early days at Harvard and the US Navy; his family background and the importance of his Catholic faith; running for office against Richard Nixon; his clashes with communist power in Berlin and Cuba; the Civil Rights movement; Vietnam; and the president's often scandalous personal life that was carefully concealed from an adoring public. Kennedy's assassination on 22 November 1963 marked the beginning of a tumultuous and bitterly divided decade, and birthed countless conspiracy theories that thrive to this day. These legacies of polarisation and suspicion of established authority have assumed particular salience in the 21st century.

The Brilliant Disaster Jul 28 2019 A recounting of the Bay of Pigs Crisis drawing upon the author's father's connection to the events as they played out.

Deterrent or Defense Feb 12 2021 Here is a much-needed assessment and summing-up on four current strategic situation by B. H. Liddell Hart, the leading military analyst of our time. Taking a clear, hard look at Western defense capabilities and strategic planning, particularly as they are embodied in NATO, he has come up with suggestions for radical but vital revisions in our defense policies. Fifteen years have elapsed since Captain Liddell Hart forecast the consequences of atom-bomb diplomacy. Now, as the NATO powers move uneasily forward in the 1960's, he shows how the development of the H-bomb--and, indeed, the multiplication in general of nuclear weapons on both sides--has become on the one hand, increasingly self-inhibiting, and, on the other, increasingly precarious as a protective insurance policy, especially in view of the development of log-range missiles. The nuclear consequences of the current nuclear parity is nuclear nullity. Thus, the nuclear deterrent, in which the West has put so much trust, is fading except as a deterrent to its own kind of action. But the Western powers have not yet come to grips with the problem of finding an adequate and effective replacement for this "fading deterrent." As a result, the West now finds itself gravely hampered in any attempt to resist the more subtle forms of aggression and pressure. Having carefully analyzed the ailment, the author offers a hopeful cure, demonstrating how the weakness of the West's present position can be remedied without an intolerable outlay in strain and cost.

Clash of Dynasties Jan 02 2020 Clash of Dynasties: Why Gov. Nelson Rockefeller Killed JFK, RFK, and Ordered the Watergate Break-In to End the Presidential Hopes of Ted Kennedy binds together the crimes of the century. Kennedy had a dream for the nation, but Rockefeller had his own nefarious ambition to be president. Rockefeller employed a staff of seventy, paid for by Rockefeller Foundation funds. Actually, he used his staff to serve the 1960 Kennedy election in the hopes that a Kennedy victory would destroy Richard Nixon as a viable Republican national candidate. However, after accepting his support, the Kennedy brothers turned on Rockefeller who had become a Republican frontrunner in the 1964 presidential race. When the allegations surfaced that Rockefeller was using foundation money, Atty. Gen. Robert Kennedy began preparing charges against the governor with the intent of sinking Nelsons political aspirations. Succinctly stated, Rockefeller beat them to the punch by arranging the JFK assassination, although losing the Republican nomination in the waning hours of the primary. Rockefeller's misuse of foundation funds touched off a congressional investigation as well. This sounds very similar to the recent allegations surrounding the Clinton Foundation. Most people will be surprised to learn that the foundation is located on the forty-second floor of the Time-Life Building located in Rockefeller Center. Until very recently, the Rockefeller Foundation was on the forty-first floor. It was Time-Life Inc. that purchased the Zapruder Film and hid it for twelve years. It shows Kennedy's head whipping backwards by a bullet strike to his forehead, firmly suggesting a conspiracy. Representing thirty-five years of research, Clash of Dynasties is much more than a whodunit book; it is about how the Rockefellerocracy still wields malevolent power from behind a secret network of 501(c)(3)s philanthropic foundations Rockefeller, Ford, Carnegie, etc. Visit rockefellerocracy.com.

Freedom of Communications May 06 2020

Let Every Nation Know Dec 01 2019 A collection of thirty-four of John F. Kennedy's speeches, debates, and interviews offers insight into the ideals, politics, and life of the charismatic president.

Nixon's Secrets Feb 24 2022 The inside scoop from a New York Times bestselling author who "really understands Nixon" (President Donald Trump). In this new book, Roger Stone, the New York Times bestselling author of The Man Who Killed Kennedy--the Case Against LBJ, gives the inside story on Nixon's rise and fall in Watergate. Stone charts Nixon's rise from election to Congress in 1946 to the White House in 1968, after his razor-thin loss to John Kennedy in 1960, his disastrous campaign for governor of California in 1962, and the greatest comeback in American Presidential history, arguing that "just as the assassination of JFK prevents a balanced analysis of Kennedy and his times, the myth of Watergate prevents a reappraisal of the 37th President." Stone reveals how the Kennedys wretaped Nixon's hotel room the night before the Nixon-Kennedy debate and stole Nixon's medical records from his psychiatrist's office. He also lays out how Kennedy's running mate, Lyndon Johnson, stole Texas from JFK through vote fraud while Mayor Richard Daley stole Illinois and how JFK actually lost the popular vote. Stone looks at the Nixon Presidency: the desegregation of the public schools, the progressive social programs, Nixon's struggle to end the war in Vietnam, the historic SALT arms reduction agreement with Russia, the saving of Israel in the Six Day War, the opening to China, and the disastrous decision to take America off the Gold standard. "The mainstream media's interpretation of the facts surrounding the Watergate episode are a fantastic and grotesque distortion of historical truth," says Stone. "Cursory examination of the facts in Watergate will reveal that the actions which caused the fall of Nixon cannot be reduced to the simplistic account summarized by Bob Woodward and Carl Bernstein of the Washington Post." The author outlines how White House Counsel John Dean planned, pushed, and covered-up the Watergate break-in, then sought to avoid responsibility for it. He examines the bungled Watergate break-in to determine what exactly Nixon's agents were looking for and how the CIA infiltrated the burglar team and sabotaged the break-in to gain leverage over Nixon. Find out why Nixon demanded the CIA turn over the records of the Bay of Pigs and Kennedy Assassination. Learn how a cabal of military and intelligence hard-liners spied on and undermined Nixon to stop his pro-peace détente foreign policy, his withdrawal of troops from Vietnam, his arms limitation agreement with the Soviets, and his opening to Red China. Discover how Vice President Spiro Agnew was set up to move him out of the line of presidential succession. Stone makes the compelling case that General Alexander Haig orchestrated Nixon's removal from office in a coup d'état and brokered the deal for his pardon. Finally the public will learn what is on the 18 1/2 minute gap in the White House tapes. Stone, a Washington insider for forty years, outlines why FBI Man Mark Felt is not Deep Throat, why there is no Deep Throat, and why Bob Woodward and Carl Bernstein lie about it even today. He reveals how Nixon used the dark secrets he knew to avoid prosecution by blackmailing Gerald Ford for a full free and unconditional pardon. Nixon's secret would not only destroy his presidency--it would save him from prison and allow him to launch his final comeback, advising President Bill Clinton on foreign affairs despite Hillary's attempts to block him and her being fired from the 1974 House Impeachment Committee for lying and violating Nixon's rights.

American Presidents and Oliver Stone Oct 23 2021 Perhaps no current filmmaker has made more provocative films about American history than Oliver Stone. In this book, Carl Freedman gives a detailed and nuanced account of the presidencies of John F. Kennedy, Richard Nixon, and George W. Bush as fictionalized in Stone's biographical films JFK, Nixon, and W. Synthesizing film criticism with political and historical analysis, American Presidents and Oliver Stone transcends the limitations of formalism and empiricism, reflecting on both Stone's achievements as a filmmaker and American politics of the past sixty years. Offering detailed historical perspectives alongside careful aesthetic criticism, Freedman explores how Stone uses melodrama, tragedy, and farce to transform politics into national mythology. Wide-ranging, accessible, and highly original, American Presidents is sure to engage anyone interested in the intersection of American politics and cinema.

Freedom of Communications: The joint appearances of Senator John F. Kennedy and Vice President Richard M. Nixon and other 1960 campaign presentations Nov 11 2020

John F. Kennedy Jun 06 2020 John F. Kennedy is the president that everyone knows. He was a rich man's son, an athlete, a war hero, a ladies' man, an author, a president, his face rendered forever young because the last time Americans saw him, he was riding in a convertible in Dallas, his glamorous wife at his side. Then the bullets struck, and the assassinated president became a legend, the truth of his life obscured by his tragic and untimely death. But JFK had more depth to his character than the magazine covers indicated. Inside you will read about... No Irish Need Apply War and the Kennedys Kennedy in Congress Kennedy for President Kennedy Women The Presidency And much more! The rich man's son was the grandson of Irishmen who knew what it was to be denied jobs because Irish weren't welcome in Boston. The athlete suffered from poor health all his life, from a bad back to Addison's disease. The war hero whose PT-109 boat became part of his campaign legend was the son who survived; elder brother Joe, flying on a secret mission, was killed for his heroism. The ladies' man loved his wife, but fidelity was not a concept revered by the Kennedy men. The Pulitzer Prize that he was awarded for Profiles in Courage should have gone to the person who actually wrote it. In 1963, death in Dallas ended his first term as president, bringing an end to the optimism that he inaugurated when he narrowly defeated Vice President Richard Nixon in the 1960 election. But the Kennedy legend, like Camelot, lives forever.

The Gumshoe and the Shrink Aug 09 2020 The Gumshoe and the Shrink is a tale of political intrigue--a detective story and medical mystery set against the backdrop of the closest and most storied presidential election in American history. It's the never-before-told account of how the craziest private detective in the country uncovered Richard Nixon's most closely guarded secret--that he was seeing a psychotherapist--and how that discovery put victory out of Nixon's reach in the 1960 election. At the center of the story is a manic-depressive private eye named Guenther Reinhardt, who in the fall of 1960 set out to destroy Richard Nixon. With Election Day just a few months away, Reinhardt discovered that Nixon was seeing a psychotherapist. And in those days, the only thing worse for a politician than needing to see a "shrink" was actually seeing one. Nixon's brilliant psychotherapist, Dr. Arnold Hutschnecker, is the other character at the center of this story. Dr. Hutschnecker tried heroically to mold Nixon into the person they both wanted him to be--a man of peace. But like the fictional Dr. Frankenstein, his experiment failed terribly and a monster was created instead. The secret battle for the presidency detailed in The Gumshoe and the Shrink is supported by two key documents that have never been seen before: Guenther Reinhardt's 12-page confidential report on the relationship between Nixon and Dr. Hutschnecker, and Dr. Hutschnecker's unpublished memoirs detailing his treatment of Richard Nixon. These documents provide many fascinating insights into their "forbidden" relationship--and into Nixon's tortured psychology.

Kennedy & Nixon Jun 30 2022 In this compelling, smart, and well-researched dual biography, Chris Matthews shows how the contest between the charismatic John F. Kennedy and the talented yet haunted Richard Nixon propelled America toward Vietnam and Watergate. John F. Kennedy and Richard Nixon each dreamed of becoming the great young leader of their age. First as friends, then as bitter enemies, they were linked by a historic rivalry that changed both them and their country. Fresh, entertaining, and revealing, Kennedy & Nixon reveals that the early fondness between the two men--Kennedy, for example, told a trusted friend that if he didn't receive the Democratic nomination in 1960, he would vote for Nixon--degenerated into distrust and bitterness. Using White House tapes, this book exposes Richard Nixon's dread of a Kennedy "restoration" in 1972 drove the dark deeds of Watergate. "Matthews tells his stories well, and Americans have a seemingly bottomless need to have these stories retold" (The New York Times Book Review).
