Time and Tide Apr 15 2021 Lucy Nash has just finished up her sophomore year of high school and is anticipating an uneventful summer at her rural Georgia home. . . that is, until a weird twist of fate and physics takes her on a trip back through time to the year 1975 with Cameron Hall, a boy her age whose own time is thirty years into her future. Cameron is hoping to stop a series of child disappearances, one of which deeply affected his family, and ends up teaming up with his accidental "passenger" to solve the crime. But despite their access to resources from the future, can two teenagers resolve a mystery that has remained a cold case for over sixty years. . . and what impact will their presence in the past have on their own lives - and their own futures?

Lambretta & Vespa Street Racers Feb 11 2021 Scooter sales had already peaked in Britain by the mid-1960s - led by the likes of the Lambretta and Vespa. Originally designed as transportation for commuters, the scooter came to be seen more as a vehicle for leisure. Ownership shifted to the younger generation and their appetite for speed and power was insatiable. Shops appeared offering performance tuning services for the first time and a new era of scootering dawned. Production of the Lambretta ceased in 1971 and although Vespa survived, the scooter scene went underground during the 1970s. The passion for tuning continued to flourish however and the release of Quadrophenia inspired a new wave of devotees going into the 1980s. Companies began investing heavily and the introduction of the T51 cylinder kit for the Lambretta and the T5 Vespa by Piaggio took the tuning scene in a new direction. Now the pure Lambretta and Vespa street racer came to the forefront. Owners were prepared to blow huge budgets and their stunning creations took these machines to a new level. Today there is continued investment from manufacturers and competition is still strong as the Lambretta and Vespa Street racer scene continues to thrive. In Lambretta & Vespa Street Racers, author Stuart Owen traces the development of scooter tuning down the decades using dozens of rare period images and highlighting every significant technological milestone along the way. The different but inseparable stories of both Lambretta and Vespa tuning are told in full with compelling insight and expert knowledge.

Lois on the Loose Jun 17 2021 Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world.

Failure Mechanisms in Alloys Aug 20 2021 The era of lean production and excellence in manufacturing, advancing with sustainable development, demands the rational utilization of raw materials and energy resources, adopting cleaner and environmentally-friendly industrial processes. In view of the new industrial revolution, through digital transformation, the exploitation of smart and sophisticated materials systems, the need of minimizing scrap and increasing efficiency, reliability and lifetime and, on the other hand, the pursuit of fuel economy and limitation of carbon footprint, are necessary conditions for the imminent growth in a highly competitive economy. Failure analysis is an interdisciplinary scientific topic, reflecting the opinions and interpretations coming from a systematic evidence-gathering procedure, embracing various important sectors, imparting knowledge, and substantiating improvement practices. The deep understanding of material/component role (e.g., rotating shaft, extrusion die, gas pipeline) and properties will be of central importance for fitness for purpose in certain industrial processes and applications. Finally, it is hoped and strongly believed that the accumulation of additional knowledge in the field of failure mechanisms and the adoption of the principles, philosophy, and deep understanding of failure analysis process approach will strongly promote the learning concept, as a continuously evolving process leading to personal and social progress and prosperity.

Scooterboys Sep 20 2021 Scooterboys are the lost tribe of British youth culture. Unrecognised, uncelebrated and unwanted; misunderstood by a general public who mistook us for Mods. We weren't Mods though. By the 1980s myself and tens of thousands of scooter riders collectively rejected that label. Instead, we took the roadmap of British youth disaffection and carved a new bypass. This route took us beyond the UK's faded seaside resorts, allowing us to spread our creed across the continents. Tuned and customised Vespa and Lambretta scooters gave us freedom to roam; transport to live for the weekend. Shared experiences of riots, local hostility and police harassment built strong fraternal bonds that endure to this day. Despite decades of two-wheeled rebellion our threat level was never high enough to put us on the national security radar. This low profile has its benefits. We aren't doomed to follow the same cycle as Mods. First feared, then pilloried, accepted and finally adopted as part of UK's rich culture. As British as a vindaloo. The cult of Scooterboy has escaped death-by-public-acceptance, simply by remaining too underground. Too difficult to distinguish from what came before. And that's just perfect. You'll never see Scooterboys parodied in TV insurance adverts or low budget fly-on-the-walls. The poorly-rendered caricature is always some cliché Mod on a 'Christmas Tree' scooter. If you rode to rallies in the 80s and 90s then this book will mirror your experiences. If you've never had a scooter then it offers a rare glimpse of life inside the lost tribe of two-stroke terrorists.

Beautiful Flower Jun 29 2022 Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young, strong, black woman who is afraid to have her heart broken for a second time. The thrill of new romance seems to fill the emptiness in her life, but her old life isn't as easy to escape as she first thought. Mistakes that she thought she had left behind threaten to undo everything that she has begun to build in this new chapter of her life, but she isn't the only one battling the demons of her past. The poetic and passionate Amir harbors some dark secrets of his own, and when the truth begins to come out, the connection between her two lovers, old and new, may end her short reign of happiness before it ever fully begun. With love from one man and sworn vengeance from another, Zuria is trapped in the middle, trying desperately to make her way through the tangled troubles of family, love, and happiness. The problem is, she might lose more than the man of her dreams. As this complex and spellbinding story reaches its peak, Zuria will have to risk mind, body, and soul for herself and the people she loves, but will that final risk mean achieving the life she'd always dreamed of? Or will she end up making the ultimate sacrifice?
