Readers' Guide to Periodical Literature Jan 27 2020

DEALING WITH THE MENTALLY ILL PERSON ON THE STREET May 11 2021 This unique guide will serve as a street survival guide for public safety officers and supervisors alike. The author, Doctor Daniel Rudolfossi, a sworn police officer and police psychologist in the NYPD and DEA among other agencies, offers a thorough assessment and intervention guide for clinicians and public safety professionals in dealing with mentally ill persons. Using his technique, the Eco-Ethological Existential Analytic method, he presents an original approach toward compassionate and safe interventions with mentally ill citizens who become involved with public safety officers. It will open the doors to an effective and highly meaningful guide officers can put into practice immediately, so that officers and supervisors can maximize the outcome of safe and effective humane processing of mentally ill with the potential for violence. Case examples and question-and-answer sections are also provided that offer user-friendly guidelines for ensuring custody to rehabilitation of the mentally ill street person. The guide also provides information on how to gain self-care and referral to peers when the stressors of dealing with the mentally ill start to increase to burnout and "compassion fatigue" in first responders and mental health counselors. It will also provide a wide overview as well as in-depth coverage of the evolving specialty of police psychology. The book will prove to be an invaluable resource for a wide audience of professional police officers, emergency medical technicians, firefighters, military guard, public and private security, criminal justice practitioners, counselors, social workers and others in responding to such crises. From triage through the police custodial role to outreach and cooperation with local and community mental health clinics, the approaches offered in this book will lead to the best of all possible outcomes.

Iowa Occupational Planning Guide Jul 01 2020 Designed to help vocational counselors, curriculum planners and job applicants in selecting occupations which may offer the greatest potential for employment in Iowa.

TASER® Conducted Electrical Weapons: Physiology, Pathology, and Law Oct 28 2022 TASER® Conducted Electrical Weapons are rapidly replacing the club for law-enforcement control of violent subjects within many countries around the globe. A TASER CEW is a hand-held device that delivers a 400-volt pulse with a duration tuned to control the skeletal muscles without affecting the heart at a distance of up to 6.5 meters over tiny wires. If necessary, it begins with an arcing voltage of 50,000 V to penetrate thick clothing; the 50,000 V is never delivered to the body itself. Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation, this book will have significant utility. This volume is written for cardiologists, emergency physicians, pathologists, law enforcement management, corrections personnel, and attorneys.

Policing and Minority Communities Sep 27 2022 This insightful book examines the allegations against the professionalism, transparency, and integrity of law enforcement toward minority groups, from a global perspective. It addresses the challenges inherent in maintaining strong ties with members of the community, and draws attention to obstacles in ensuring public confidence and trust in rule of law institutions. Most importantly, the book provides insight into mechanisms and proposals for policy reform that would permit enhanced police-community partnership, collaboration and mutual respect. Acknowledging the consistency of this concern despite geographic location, ethnic diversity, and religious tolerance, this book considers controversial factors that have caused many groups and individuals to question their relationship with law enforcement. The book examines the context of police-community relations with contributed research from Nigeria, South Africa, Kosovo, Turkey, New Zealand, Mexico, Scandinavia and other North American and European viewpoints. It evaluates the roles that critical factors such as ethnicity, political instability, conflict, colonization, mental health, police practice, religion, critical criminology, socialism, and many other important aspects and concepts have played on perceptions of policing and rule of law. A valuable resource for law enforcement practitioners and researchers, policy makers, and students of criminal justice, Policing and Minority Communities: Contemporary Issues and Global Perspectives confronts crucial challenges and controversies in policing today with quantitative and qualitative research and practical policy recommendations.

The New Untouchables Jun 12 2021 Examines police violence in America and sheds new light on the complex issues surrounding police brutality--urban crime, police frustrations, and cover-ups

Handbook of Police Psychology Dec 26 2019 The Handbook of Police Psychology features contributions from over 30 leading experts on the core matters of police psychology. The collection surveys everything from the beginnings of police psychology and early influences on the profession; to pre-employment screening, assessment, and evaluation; to clinical interventions. Alongside original chapters first published in 2011, this edition features new content on deadly force encounters, officer resilience training, and police leadership enhancement. Influential figures in the field of police psychology are discussed, including America's first full-time police psychologist, who served in the Los Angeles Police Department, and the first full-time police officer to earn a doctorate in psychology while still in uniform, who served with the New York Police Department. The Handbook of Police Psychology is an invaluable resource for police legal advisors, policy writers, and police psychologists, as well as for graduates studying police or forensic psychology.
