**Making Haste From Babylon** Oct 30 2019 At the end of 1618, a blazing green star soared across the night sky over the Northern Hemisphere. From the Philippines to the Great Lakes, the comet became a sensation and a symbol, a warning of doom or a promise of salvation. Two years later, as the Pilgrims prepared to sail across the Atlantic on board the Mayflower, the atmosphere remained charged with fear and expectation. Men and women readied themselves for war, pestilence or divine retribution. Against this background, and amid deep economic depression, the Pilgrims conceived their enterprise of exile. Within a decade, despite crisis and catastrophe, they built a thriving settlement at New Plymouth, based on beaver fur, corn and cattle. In doing so, they laid the foundations for Massachusetts, New England and a new nation. Using a wealth of new evidence - from landscape, archaeology and hundreds of overlooked or neglected documents - Nick Bunker gives a vivid and strikingly original account of the Mayflower project and the first decade of the Plymouth Colony. **Making Haste from Babylon** tells the story of the early pilgrim settlers in unrivalled depth, from their roots in religious conflict and village strife at home to their final creation of a permanent foothold in America.

**Leading with Authenticity in Times of Transition** May 30 2022 Organizations today are awash in change. Managing change requires leaders to focus simultaneously on managing the business and providing effective leadership to the people. More often than not, it is the focus on the people side that loses out. This book offers a framework for understanding the issues and competencies that contribute to effective leadership during times of change. Its purpose is to help leaders determine how to choose and move among a variety of managerial approaches--to help them see what's working, what's not working, and what's missing. In this way, leaders can more clearly assess their impact and learn how to meet the demands of both managing the business and leading the people.

**24 Hours inside the President's Bunker** Jan 14 2021 After Maj. Robert J. Darling organizes President Bush's trip to Florida on Sept. 10, 2001, he believes the next couple of days will be quiet. He has no idea that a war is about to begin. The next day, after terrorists crash airliners into the World Trade Center towers and the Pentagon, Maj. Darling rushes to the president's underground chamber at the White

House. There, he takes on the task of liaison between the vice president, national security advisor and the Pentagon. He works directly with the National Command Authority, and he's in the room when Vice President Cheney orders two fighter jets to get airborne in order to shoot down United Flight 93. Throughout the attacks, Maj. Darling witnesses the unprecedented actions that leaders are taking to defend America. As Vice President Cheney, Secretary of State Condoleezza Rice, and others make decisions at a lightning pace with little or no deliberation, he's there to lend his support. Follow Darling's story as he becomes a Marine Corps aviator and rises through the ranks to play an incredible role in responding to a crisis that changed the world in 9-11-01: **The White House: 24 Hours Inside the President's Bunker**. **Astray** Sep 29 2019 This fascinating, fact-inspired fiction collection from Emma Donoghue, author of the bestselling *Room*, is a sequence of fourteen stories about travels to, in, and from North America. With the turn of each page, the characters that roam across these pages go astray. They are emigrants, runaways, drifters; gold miners and counterfeiterers, attorneys and slaves. They cross borders of race, law, sex, and sanity. They travel for love or money, under duress or incognito. Donoghue describes the brutal plot hatched by a slave in conjunction with his master's wife to set them both free, and takes us to an early Puritan community in Massachusetts unsettled by an invented sex scandal. **Astray** also includes 'The Hunt', a shocking confession of one soldier's violent betrayal during the American Revolution, which was shortlisted for the Sunday Times Short Story Award. These strange, true tales light up four centuries of wanderings, offering a past in scattered pieces, and a surprising and moving history for restless times.

**Surviving Off Off-Grid** Nov 04 2022 Describes how to live a self-sufficient, sustainable family life and not be dependent on modern industrial society and its emphasis on continuous consumption for survival.

**Bunker** Jun 30 2022 Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In **Bunker**, acclaimed urban explorer and cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From

the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, Bunker is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.

**Synchronic** Feb 12 2021 **Synchronic: 13 Tales of Time Travel** introduces 13 varied and original takes on the pitfalls and paradoxes of time travel-from some of today's most talented voices. From Michael Bunker's story of a father, a son, and the legendary Santa Anna Gold, to Jason Gurley's heart-wrenching tale of an astronaut forever torn from his young wife and daughter, these stories will keep you on the edge of your seat, and often have you guessing right up until the final word. You'll meet a prison therapist who treats his patients by going back and preventing their crimes; a woman who can't stop reliving her life, no matter how much it hurts; a space marine suffering from a time-altering brain injury; a woman who will betray the man she loves to correct a horrible mistake; a vengeful soul from ages past; and a time cop charged with preserving the timelines of multiple universes. You'll experience a world where time travel is so common, reality itself hangs by a thread; a love story that overcomes the unforgiving barriers of time; a thrilling encounter with a pack of T. rex; a historian's efforts to alter Roman history; and the first manned mission to the Red Planet-or is it? So sit back and enjoy. Just be sure you've got plenty of time.

**Bunker Hill** Aug 21 2021 What lights the spark that ignites a revolution? What was it that, in 1775, provoked a group of merchants, farmers, artisans and mariners in the American colonies to unite and take up arms against the British government in pursuit of liberty? Nathaniel Philbrick, the acclaimed historian and bestselling author of *In the Heart of the Sea* and *The Last Stand*, shines new and brilliant light on the momentous beginnings of the American Revolution, and those individuals - familiar and unknown, and from both sides - who played such a vital part in the early days of the conflict that would culminate in the defining Battle of Bunker Hill. Written with passion and insight, even-handedness and the eloquence of a born storyteller, **Bunker Hill** brings to life the robust, chaotic and blisteringly real origins of America.

**No Beast So Fierce** Apr 16 2021 An angry and

mercilessly suspenseful novel about an ex-con's attempt to negotiate the "straight world" and his swan dive back into the paradoxical security of crime. It is airtight in its construction, almost photorealistic in its portrayal of L.A. lowlife and utterly knowledgeable about the terrors of liberty, the high of the quick score and the rage that makes the finger tighten on the trigger of the gun. *No Beast So Fierce* was Eddie Bunker's debut novel and has the searing intensity of a novel based precisely on experience, with Bunker having spent most of his early life in maximum security penitentiaries for a variety of offences including armed robbery. It has been suggested that Tarantino draws on *No Beast So Fierce* for the botched robbery in *Reservoir Dogs*, a film in which Bunker plays the character of Mr Blue. **The Last Pilgrims** Oct 03 2022 A post-apocalyptic novel set in a future agrarian Texas.

**Bunker Hill Los Angeles** Jul 28 2019 Bunker Hill is the highest point of downtown Los Angeles, both literally and figuratively. Its circle of life has created a continuous saga of change, each chapter rich with captivating characters, structures, and culture. In *Bunker Hill Los Angeles: Essence of Sunshine and Noir*, historian Nathan Marsak tells the story of the Hill, from the district's inception in the mid-19th century to its present day. Once home to wealthy Angelenos living in LA's "first suburb," then the epicenter of the city's shifting demographics and the shadow and vice of an urban underbelly, Bunker Hill survived its attempted erasure and burgeoned as a hub of arts, politics, business, and tourism. As compelling as the story of the destruction of Bunker Hill is—with all the good intentions and bad results endemic to city politics—it was its people who made the Hill at once desirable and undesirable. Marsak commemorates the poets and writers, artists and activists, little guys and big guys, and of course, the many architects who built and rebuilt the community on the Hill—time after historic time. Any fan of American architecture will treasure Marsak's analysis of buildings that have crowned the Hill: the exuberance of Victorian shingle and spindlework, from Mission to Modern, from Queen Anne to Frank Gehry, Bunker Hill has been home to it all, the ever-changing built environment. With more than 250 photographs—many in color—as well as maps and vintage ephemera to tell his dramatic visual story, Marsak lures us into Bunker Hill Los Angeles and shares its lost world, then guides us to its new one. Nathan Marsak studied under the eminent historian of Los Angeles, Reyner Banham, at University of California, Santa Cruz, and completed his graduate work with noted Sullivan/Wright scholar Narciso Menocal at University of Wisconsin, Madison. He worked on the curatorial staff of Los Angeles Museum of Contemporary Art and served as historian for the LAPD Museum archives. *Bunker Hill Los Angeles* is his second book; his first was *Los Angeles Neon* (2002).

**Pennsylvania** Nov 23 2021 "Pennsylvania is a brilliant tale of extra-planetary colonization. With parallels to the European settlement of the America's, Michael Bunker draws on his Amish roots and lifestyle to portray that tenuous balance between mankind and its

I daresay the wait for the next great Amish science fiction author may be finally at an end." **HUGH HOWEY**, NYT Bestselling Author of **WOOL** and **Peace in Amber**. "You'll quickly go from wondering 'Amish science fiction?' to asking 'Why the heck didn't anyone think of this before?' Fast-paced, intricately plotted, and providing a novel perspective on our own world, Pennsylvania is a refreshingly original take on dystopian sci-fi." **DAVID GATEWOOD** ...Sensational! **Molecular Symmetry and Spectroscopy** Feb 01 2020 Molecular Symmetry and Spectroscopy deals with the use of group theory in quantum mechanics in relation to problems in molecular spectroscopy. It discusses the use of the molecular symmetry group, whose elements consist of permutations of identical nuclei with or without inversion. After reviewing the permutation groups, inversion operation, point groups, and representation of groups, the book describes the use of representations for labeling molecular energy. The text explains an approximate time independent Schrödinger equation for a molecule, as well as the effect of a nuclear permutation or the inversion of  $E^*$  on such equation. The book also examines the expression for the complete molecular Hamiltonian and the several groups of operations commuting with the Hamiltonian. The energy levels of the Hamiltonian can then be symmetrically labeled by the investigator using the irreducible representations of these groups. The text explains the two techniques to change coordinates in a Schrödinger equation, namely, (1) by using a diatomic molecule in the rovibronic Schrödinger equation, and (2) by a rigid nonlinear polyatomic molecule. The book also explains that using true symmetry, basis symmetry, near symmetry, and near quantum numbers, the investigator can label molecular energy levels. The text can benefit students of molecular spectroscopy, academicians, and investigators of molecular chemistry or quantum mechanics.

does money figure into a happy life? In *The Geometry of Wealth*, behavioral finance expert Brian Portnoy delivers an inspired answer, building on the critical distinction between being rich and being wealthy. While one is an unsatisfying treadmill, the other is the ability to underwrite a meaningful life, however one chooses to define that. Truly viewed, wealth is funded contentment. At the heart of this groundbreaking perspective, Portnoy takes readers on a journey toward wealth, informed by disciplines ranging from ancient history to modern neuroscience. He contends that tackling the big questions about a joyful life and tending to financial decisions are complementary, not separate, tasks. These big questions include: • How is the human brain wired for two distinct experiences of happiness? And why can money "buy" one but not the other? • What are the touchstones of a meaningful life, and are they affordable? • Why is market savvy among the least important sources of wealth but self-awareness is among the most? • How does one strike a balance between striving for more while being content with enough? This journey memorably contours along three basic shapes: A circle, triangle and square help us to visualize how we adapt to evolving circumstances, set clear priorities, and find empowerment in simplicity. In this accessible and entertaining book, Portnoy reveals that true wealth is achievable for many - including those who despair it is out of reach - but only in the context of a life in which purpose and practice are thoughtfully calibrated.

**Bunker 13** Jun 26 2019 A brilliant international thriller, set in contemporary Kashmir, about an investigative journalist, espionage, and the temptations of drugs, sex, and corruption in the Indian Army. Over a period of years he has been clandestinely investigating a source of corruption in the guerrilla war on India's frontier: in the midst of skirmishes with the "Mossies" in Kashmir, the sale of arms and drugs--often back to the insurgents they have been seized from--is an ever-renewable source of profit. MM hits the jackpot when a brutal border-patrol raid on which he is tagging along uncovers an enormous cache of both arms and high-grade heroin; but the goods in hand also provide him with a tempting brokerage opportunity.
