**The Witch-Hunt in Early Modern Europe** Sep 22 2021 Between 1450 and 1750 thousands of people – most of them women – were accused, prosecuted and executed for the crime of witchcraft. The witch-hunt was not a single event; it comprised thousands of individual prosecutions, each shaped by the religious and social dimensions of the particular area as well as political and legal factors. Brian Levack sorts through the proliferation of theories to provide a coherent introduction to the subject, as well as contributing to the scholarly debate. The book: Examines why witchcraft prosecutions took place, how many trials and victims there were, and why witch-hunting eventually came to an end. Explores the beliefs of both educated and illiterate people regarding witchcraft. Uses regional and local studies to give a more detailed analysis of the chronological and geographical distribution of witch-trials. Emphasises the legal context of witchcraft prosecutions. Illuminates the social, economic and political history of early modern Europe, and in particular the position of women within it. In this fully updated third edition of his exceptional study, Levack incorporates the vast amount of literature that has emerged since the last edition. He substantially extends his consideration of the decline of the witch-hunt and goes further in his exploration of witch-hunting after the trials, especially in contemporary Africa. New illustrations vividly depict beliefs about witchcraft in early modern Europe.

**The Triumph of the Moon** Oct 12 2020 Ronald Hutton is known for his colourful and provocative writings on original subjects. This work is no exception: for the first full-scale scholarly study of the only religion England has ever given the world; that of modern pagan witchcraft, which has now spread from English shores across four continents. Hutton examines the nature of that religion and its development, and offers a microhistory of attitudes to paganism, witchcraft, and magic in British society since 1800. Its pages reveal village cunning folk, Victorian ritual magicians, classicists and archaeologists, leaders of woodcraft and scouting movements, Freemasons, and members of rural secret societies. We also find some of the leading of figures of English literature, from the Romantic poets to W.B. Yeats, D.H. Lawrence, and Robert Graves, as well as the main personalities who have represented pagan witchcraft to the world since 1950. Densely researched, Triumph of the Moon presents an authoritative insight into a hitherto little-known aspect of modern social history.

**Witchcraft, the Devil, and Emotions in Early Modern England** Feb 02 2020 This book represents the first systematic study of the role of the Devil in English witchcraft pamphlets for the entire period of state-sanctioned witchcraft prosecutions (1563-1735). It provides a rereading of English witchcraft, one which moves away from an older historiography which underplays the role of the Devil in English witchcraft and instead highlights the crucial role that the Devil, often in the form of a familiar spirit, took in English witchcraft belief. One of the key ways in which this book explores the role of the Devil is through emotions. Stories of witches were made up of a complex web of emotionally implicated accusers, victims, witnesses, and supposed perpetrators. They reveal a range of emotional experiences that do not just stem from malefic witchcraft but also, and primarily, from a witch's links with the Devil. This book, then, has two main objectives. First, to suggest that English witchcraft pamphlets challenge our understanding of English witchcraft as a predominantly non-diabolical crime, and second, to highlight how witchcraft narratives emphasized emotions as the primary motivation for witchcraft acts and accusations.

*Witchcraft, Demonology and Magic* Dec 14 2020 Witchcraft and magic are topics of enduring interest for many reasons. The main one lies in their extraordinary interdisciplinarity: anthropologists, folklorists, historians, and more have contributed to build a body of work of extreme variety and consistence. Of course, this also means that the subjects themselves are not easy to assess. In a very general way, we can define witchcraft as a supernatural means to cause harm, death, or misfortune, while magic also belongs to the field of supernatural, or at least esoteric knowledge, but can be used to less dangerous effects (e.g., divination and astrology). In Western civilization, however, the witch hunt has set a very peculiar perspective in which diabolical witchcraft, the invention of the Sabbat, the persecution of many thousands of (mostly) female and (sometimes) male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft. This Special Issue of Religions dedicated to Witchcraft, Demonology, and Magic features nine articles that deal with four different regions of Europe (England, Germany, Hungary, and Italy) between Late Medieval and Modern times in different contexts and social milieus. Far from pretending to offer a complete picture, they focus on some topics that are central to the research in those fields and fit well in the current "cumulative concept of Western witchcraft" that rules out all mono-causality theories, investigating a plurality of causes.
