F-14 Tomcat Pilot's Flight Operating

Manual Vol. 2 Dec 19 2021 PLEASE NOTE:

THIS IS VOLUME 2 OF 2. YOU MUST PURCHASE BOTH BOOKS TO HAVE A COMPLETE SET. Developed as both an air superiority fighter and a long-range naval interceptor, Grumman's F-14 Tomcat was the U.S. Navy's primary fighter from 1974 until 2006. Over 700 were built. The F-14 flew its first combat missions shortly after its initial deployment in late 1974, flying in support of the American withdrawal from Saigon. In 1981 it drew first blood, as two F-14s from VF-41 downed two Libyan Su-22s. The plane compiled a notable combat record for the United States in both Gulf Wars and NATO actions in Bosnia. Planes sold to the Shah of Iran prior to his ouster remain the last F-14s in active service, as the U.S. Navy retired it in October 2006. This F-14 pilot's flight operating handbook was originally produced by the U.S. Navy. It has been slightly reformatted but is reproduced here in its entirety. It provides a fascinating view inside the cockpit of one of history's great planes.

AIR CRASH INVESTIGATIONS FAILING

BRAKES The Crash of TAM Linhas Aereas

Flight JJ3054 Oct 17 2021 On 17 July 2007, at 17:19 local time, an Airbus A-320, operated as flight JJ3054 by TAM Linhas Aéreas, was on its way from Porto Alegre, Brazil, for a domestic flight to Congonhas Airport in São Paulo city, São Paulo State, Brazil. During the landing, at 18:54 local time, the aircraft veered to the left, overran the left edge of the runway, collided with a building, and with a fuel service station. All persons on board - six crewmembers, and 181 passengers - perished. The crash also caused 12 fatalities on the ground. The runway had recently been resurfaced, but it did not yet have water-channeling grooves cut into it to reduce the danger of hydroplaning, making landing during rain a dangerous endeavour. Flight Data Recorder information showed that immediately prior to touchdown, both thrust levers were in CL (or "climb") position, with
