***Communication in Mission Feb 23 2020 Communicating the Gospel—To All People, By All Means Communication has always been the heartbeat of God's interaction with humankind, and without thoughtful communication, mission is not fully effective. With the rise of technology and social media, the church faces a unique set of opportunities. At the same time, our shrinking world presents challenges and requires an increased sensitivity to social, cultural, and geopolitical triggers. With case studies that span the globe from Australia and Asia to the Black church and Muslim youth diaspora in the United States, this book closely considers what is working in the twenty-first century and what isn't. From post-colonial contexts to creative-access countries, this collection doesn't shy away from today's complex issues. Communication in Mission pulls together diverse voices—some seem like shouts and others like gentle whispers—but each has an important contribution for all who will listen and learn. This synthesis of personal experiences from field practitioners and theoretical concepts from scholars lays a foundation for application, calling for careful and intentional communication in the ongoing work of missions. Full of hope, this book looks forward to the gospel being received as Good News around the globe.***

*The Mission in China Aug 11 2021 After following the call to China, Sandra King proceeded to open three orphanages and three half-way homes to rescue children and find them new homes. Many of these children had special needs and were therefore shunned by society. *Women and Christian Mission Apr 19 2022 What are Christian women thinking about mission? How do they do mission? What informs their knowledge and action as they address issues in a complex world where religious proselytizing has become suspect? This empirical study explores those questions, finding congruence among women from diverse backgrounds and cultural contexts. Women in mission face common identity issues, utilize art and beauty in their work, and develop character as they overcome obstacles in their cultural and denominational settings. Through nearly one hundred interviews of women in Europe, Asia, Brazil, and the United States, a study of women's theologies of mission, lectures, and countless conversations with women around the globe, this study finds common themes among contemporary women doing Christian mission. This book fills a lacuna in mission studies that professors, pastors, and church women and men will find informative and refreshing.*

*Missional Leadership Jul 10 2021 The purpose and aim of this book is to develop an appropriate leadership model for missional churches. This implies a positioning of this book within the broader theology of mission and a consensus on the theology of the Missio Dei, originating at the 1952 conference of the International Missionary Council in Willingen, Germany. In this approach to the theology of mission, mission is understood as the work of the Trinitarian God, and the church is privileged to participate in God's mission. It is against this background that the growing consensus on missional ecclesiology challenges leadership models developed for a different time and a different kind of church (with less or no emphasis on the missional character of the church). The aim is to reflect theologically on the role of leadership in the missional church. What kind of ideas about power, authority and leadership are appropriate for a missional church? New missional challenges demand new ideas about missional leadership. Church organisation and leadership reflects a theological position – there is a strong relation between ecclesiology and church organisation. The nature of the church provides the framework to understand the character of the church. What the church is determines what the church does. The church organises what it does and agrees on rules that regulate ministries and organisation. Issues such as the way the church organises and governs what it does, and thus church leadership, need to be answered against this background and understanding. Church polity and organisation, as well as leadership, must reflect the identity, calling, life and order of the church. This book, therefore, addresses life in the Trinity, participation in the Missio Dei and contours of the missional church as the point of entry to develop leadership insights. It contributes towards the development of an appropriate model of leadership for missional churches, because although recent developments in the theology of mission comprehensively addressed the area of missional ecclesiology, there is a gap in the development of a leadership model based on the concept of authority in the missional church.*

*Spirituality in Mission: May 08 2021 Authors from eighteen countries give us their perspectives on biblical principles and cultural expressions of spirituality particularly as the church engages in God's mission. The anthology of texts enriches our understanding of the depth and the meaning of being spiritual and the diversity of forms to live out the Christian faith. The issue today is how spirituality should direct and guide a daily life as followers of Jesus in the engagement in the mission of God. No doubt that it has to do with our inner life and our relationship to God, but it is in showing our love and concern to others that we prove our love to God, according to the Apostle John (1 John 4). Mission without spirituality will only be a human effort to convince people of religious theories. Spirituality without a missionary involvement of the church will not express God's desire that the transforming gospel reaches every person. This book will help you rethink your understanding of what is spiritual, revisit your own spiritual journey, and appreciate the different forms of spirituality as they are described and performed around the globe.*

**J. Hudson Taylor** Oct 25 2022 *James Hudson Taylor (1832-1905), was a British Protestant Christian missionary to China, and founder of the China Inland Mission. The society that he began was responsible for bringing over 800 missionaries to the country who began 125 schools and directly resulted in 18,000 Christian conversions, as well as the establishment of more than 300 stations of work with more than 500 local helpers in all eighteen provinces. He wrote a book called China's Spiritual Need and Claims in 1865 which was instrumental in generating sympathy for China and volunteers for the mission field, who began to go out in*

1862. Taylor was known for his sensitivity to Chinese culture and zeal for evangelism. He adopted wearing native Chinese clothing even though this was rare among missionaries of that time. Under his leadership, the CIM was singularly nondenominational in practice and accepted members from all Protestant groups, including individuals from the working class and single women as well as multinational recruits. Primarily because of the CIM's campaign against the Opium trade, Taylor has been referred to as one of the most significant Europeans to visit China in the 19th Century. In this book, Taylor tells his own story--from his call to the mission field through his early mission experiences--"In Retrospect."

*Positioning the Missionary Nov 02 2020 Positioning the Missionary examines Anglican missionary work in nineteenth-century British Columbia. Its chief protagonists are John Booth Good, an agent of the Society for the Propagation of the Gospel, and the Nlha7kapmx people of southwestern B.C. Asking why the Nkha7kapmx embraced Good, how he sought to evangelize and civilize them, and how they responded, it situates Good's mission at several scales: the local ethnographic literature; histories of contact and conflict in mainland B.C. from the early nineteenth century; the theology and sociology of mission; and the recent critical literature on European colonialism. Christophers rethinks mission work in the light of contemporary theories of colonial discourse and disciplinary power, and speculates about the interpretative potential of such concepts. In addition to Good's encounter with the Nlha7kapmx, Positioning the Missionary also refers to other colonial missions, identifying by turns the peculiarity of Good's experience and the ways in which it conforms to broader patterns of mission history. As a reflection on the ongoing politics of colonialism, this book discusses Good's contribution to the devastation of Nlha7kapmx culture and his duplicitous role in the appropriation of Nlha7kapmx lands.*

*Challenged: Living Our Faith in a Post Modern Age Sep 19 2019 My wife and I love our sons unconditionally and equally. Talking with one of them about his atheism has brought me to a new dimension in my relationship with him, to a review of my own christian beliefs, to a more critical examination of the church, and to a different understanding of ministry in today's world. As personal as I make this all sound, my family represents a thousand families, a hundred thousand and more, who have sat in painful silence because religious differences have taken away their voice. They tire of confrontation, angry discussions, verse hurling and jabbing one another with theories over every conceivable divisive issue. It is a powerful idea that those who do not share our faith should know that we do, not so much in our argument as in our love. It is time to listen.*

Despite the shift in the center of gravity of Christianity to the global South, intra-ecclesial tensions globally remain those of the relationship of culture to religion. The questions posed revolve around to what extent Western Christianity should be adapted to local cultures. Should we talk of Christianity in non-Western contexts or of majority world Christianity? Is it appropriate to describe the shift as the emergence of global Christianity or world Christianity? Should Christianity in the global South mimic Christianity in the global North, or can it be different in the light of the diversity of these cultures? Can Africans, Asians, Latin Americans, Europeans and North Americans – the entire global community – speak of God in the same way? This book is devoted to*

*examining varieties of the intercultural process in world Christianity. It understands culture broadly as a common meaning upon which communities' social order is organized. Culture in this sense is the whole life of people. It is the integrator of the filial bond holding people together and the various institutional structures – economic, technological, political and legal – that guarantee peace and survival in societies, states, and nations, both locally and internationally. As this book shows, the centrality of culture for world Christianity equally showcases the important position the scale of values occupies in world Christianity.*

*THE CHALLENGE OF TRANSLATING TRUTH Jul 30 2020 The Bible has faced opposition from Satan's world since the beginning, from supposed "friend" and foe alike. An innumerable number of faithful followers of God have paid with their lives to bring us the Bible in our language today. Even today, there is much pressure from the so-called Christian community and the scholarly world to be faithful to man as opposed to being faithful to God and the original language text when translating the Bible. The closing chapters will deal with that, for now, let's look at the hazardous duty of Bible translation and the lives of three great men. TRANSLATING TRUTH will deal with the process of going from the original language critical text to the Bible translation in English. Also, it will address the differences as well, so the reader can know which translations are to be most trusted. There are rules and principles to Bible translation that will give the reader the closest English equivalent of what God's Word had said in the original language of Hebrew, Aramaic, and Greek. It is art to be balanced in the application of these rules and principles. While Bible translators are no longer hung or burned at the stake, there is still enormous pressure on their lives. If a translator does not color within the lines of certain groups, they can be ostracized to the point of being unable to work. They are privately and publicly mocked. For example, the literal translators are wrongly viewed as knuckle-dragging Neanderthals who cannot give up the dated way of translating the Word of God by the modern idealist way of carrying out the work of Bible translation by the dynamic equivalent, interpretive translators. Modern-day scholars and many within the so-called Christian community will treat the translator who is faithful to God and the original text with contempt, scorn, mockery, and derision, even outright hostility. The final section of chapters could never be exhaustive as to what could be said about the trustworthiness of our Bible but it is more than enough to give you a sense that what we have today is the closest to what we have ever had when it comes to our literal translations being a mirrorlike reflection of the originals in English.*

*Methodists and their Missionary Societies 1760-1900 Jul 22 2022 Methodism played an important part in the spread of Christianity from its European heartlands to the Americas, Asia, Africa and the Pacific. From John Wesley's initial reluctance, via haphazard ventures and over-ambitious targets, a well-organized and supported Wesleyan Society developed. Smaller branches of British Methodism undertook their own foreign missions. This book, together with a companion volume on the 20th century, offers an account of the overseas mission activity of British and Irish Methodists, its roots and fruits. John Pritchard explores many aspects of mission, ranging from Labrador to New Zealand and from Sierra Leone to Sri Lanka, from open air preaching to political engagement, from the isolation of early pioneers to the creation of self-governing churches. Tracing the nineteenth-century missionary work of the Churches with Wesleyan roots which went on to unite in 1932, Pritchard explores the shifting theologies and attitudes of missionaries who crossed cultural and geographical frontiers as well as those at home who sent and supported them. Necessarily selective in the personalities and events it describes, this book offers a comprehensive overview of a world-changing movement - a story packed with heroism, mistakes, achievements, frustrations, arguments, personalities, rascals and saints.*

*an urgent need for contextualized theology of mission, God, Christ, and the church that is rooted in indigenous cultural traditions and the dual Vietnamese spirit of resistance and assimilation. Dr KimSon Nguyen navigates the religio-cultural dimensions of Vietnamese spirituality and Daoism that have hindered the assimilation of the Christian faith in the Vietnamese context and explores a fresh approach to missiology in Vietnam. Dr Nguyen draws upon his deep knowledge of Vietnamese evangelical history to analyze contextualization and mission theology in Vietnam. He proposes an evangelical theology of God as Đ?o (way / ?), the centrality of the Vietnamese home as the “house of the Lord,” and ancestor veneration as a theological framework for an indigenous theology of the family. Narrowing the gap between culturally removed evangelical missionary practice and widespread syncretistic spirituality in Vietnam, Nguyen calls for a paradigm shift in Vietnamese mission theology that is both robustly evangelical and authentically Vietnamese.*

*Russian Baptist Mission Theology in Historical and Contemporary Perspective Jan 16 2022 Since the disintegration of the USSR many Russian Baptists have actively engaged in evangelism, church planting, and acts of social service. This book is a response to the need to critically evaluate the effectiveness of past mission efforts and their undergirding theology. In this detailed study, Dr Andrey Kravtsev combines historical and qualitative studies to outline the understanding of mission developed by Russian Baptists during the Soviet era when they were almost completely isolated from global missiological developments. First, Kravtsev identifies four key missiological concepts and uses them to analyze the history of mission theology in global evangelical mission movements and the Russian Baptists. He then interviewed thirty leaders from the Russian Union of Evangelical Christian-Baptists to find their view of these concepts, and their convictions of the need to reconsider traditional missiological views. From his findings, Dr Kravtsev suggests five themes for facilitating the transition of Russian Baptist mission theology from the late-Soviet model of eschatological escapism, to a holistic, missional evangelicalism. This book places evangelical mission in contemporary Russian socio-political and ideological contexts and provides an important contribution for leading churches to a renewed missionary encounter with culture.*

*Mission in the Early Church Aug 19 2019 How did Christian missions happen in the early church from AD 100 to 750? Beginning with a brief look at the social, political, cultural, and religious contexts, Mission in the Early Church tells the story of early Christian missionaries, their methods, and their missiology. This book explores some of the most prominent themes of mission in early Christianity, including suffering, evangelism, Bible translation, contextualization, ministry in Word and deed, and the church. Based on this survey, modern readers are invited to a conversation that considers how early Christian mission might inform global mission thought and practice today.*

*The Presbyterian Mission Enterprise Aug 23 2022 American Presbyterians have a remarkable heritage of foreign mission work. While today the mission and ministry of the Presbyterian Church and all of mainline Protestantism is in a time of reformation and deep change, it is vital to remember this heritage of world mission. The Presbyterian Mission Enterprise tells this story by highlighting significant mission leaders through the ages. Our story includes Francis Makemie, a colonial-era missionary pastor and church planter who gathered with colleagues to form the first Presbytery in 1706. Tough, old-school Presbyterians like Ashbel Green insisted on a distinctive Presbyterian mission effort, and Presbyterians were among those who heard the call exemplified by William Carey to take the gospel to the whole world. This vision beckoned Walter Lowrie into leadership, and Presbyterians joined the great missionary movement. Robert Speer was a driving force behind this growing movement, negotiating a moderate path through bitter conflicts. After the traumas of World War II, John Coventry Smith worked to reconfigure and redirect the mission enterprise. Now, in an era marked by fragmentation and realignment, leaders like Clifton Kirkpatrick and Hunter Farrell work to continue the Presbyterian mission enterprise as a vital piece of the way forward. Our heritage guides our future.*

*Love Lost for the Cause of Christ Jun 09 2021 In many ways, sacrifice is a prerequisite for obeying the Great Commission. When we examine the lives of “missionary heroes,” we immediately notice their willingness to sacrifice comforts that contemporary believers consider necessities.
