*Her Three Bears Part One* Mar 15 2021 Life was perfect, quiet, and uneventful. Entirely mundane. But as the story goes, that was just the calm before the storm that tore my life to ribbons. One dark, fateful night. One accident that shattered my world. One unforgettable move. And now my life is anything but mundane. My name is Astraea Davis, but you can just call me Rae. This is the tale of a girl whose world was ripped apart and pieced back together in the unforgiving cold. Two months ago my parents were murdered. Their death, as much a mystery to me as the path I'm thrown on because of it. A path that has me contending with the tendrils of an unseen enemy, the quips of an asshole teacher, and the pain from a neglectful aunt. But even the darkest paths have a ray or two of light. For the sun always shines brightest after a brutal and unforgiving storm. A new best friend. A new job that I love. A lickable new boss and his equally sexy as sin, brother. These are my rays in the storm raging around me. As the secrets I didn't know I was hiding are unveiled and the threats loom closer, will the new bonds I've developed hold or will everything around me implode ... again? \*\*\*\*\* Her Three Bears is a two part Goldilocks and the Three Bears retelling, a part of the Fairly Twisted Chronicles. *Bear Trading* Jan 13 2021 The first edition of this book was published during a raging bull run and still proved a sell-out success. The reason is simple -- the bears are always with us. Fat bears, slow bears and little bears are not the traders' enemy. When markets stumble, private traders DO make money. Already, thousands of Australians earn their living by trading the financial markets. Many traders have progressed, step-by-step, from long-term investing to position equity trading, acquiring their skills against the background of the seemingly ever-rising market. They may have found that trading for a living is hardly the easiest of careers, even in the good times, when the bulls are running. They wonder if it is possible to continue trading when the market is rocked by the bears. Daryl Guppy knows from experience that it is. The bears are always with us. Even at the height of a bull run, still some corners of the equity market are in their grip and he shows how to trade these 'bear dips'. He has also traded during the resources and Asian bear markets and many of the examples in this book are trades he has personally taken. There are two sides to the market -- long and short. The author explores the short side -- selling high and buying low -- and demonstrates practical ways to trade these warrants and options. In this comprehensive book, Daryl Guppy discusses a broad sample of methods the private trader can use not only to survive, but to prosper in falling or static markets.
