Active Control of Offshore Steel Jacket Platforms Aug 03 2020 Offshore platforms are widely used to explore, drill, produce, store and transport ocean resources, and are usually subjected to environmental loading, which can lead to deck facility failure and platform fatigue failure, inefficient operation and even crew discomfort. In order to ensure the reliability and safety of offshore platforms, it is important to explore effective ways of suppressing the vibration of offshore platforms. This book provides a brief overview of passive, semi-active and active control schemes to deal with vibration of offshore platforms. It then comprehensively and systematically discusses the recent advances in active systems with optimal, sliding model, delayed feedback and network-based control. Intended for readers interested in vibration control and ocean engineering, it is particularly useful for researchers, engineers, and graduate students in the fields of system and control community, vibration control, ocean engineering, as well as electrical and electronic engineering.

ACTIVE VOICE - Definition The form of a verb in which the subject is the person or thing that performs the action. Example: They finished the work. [subject -- "they", verb -- "finished", object -- "work"] In this sentence, the subject (they) acts on the object (work). Other Examples: The teacher praises him. She posted the letter. I buy new books. We will celebrate his birthday. PASSIVE VOICE - Definition The form of a verb in which the subject is affected by the action of the verb. Important Note -- The object of the active voice becomes the subject in the passive voice. Example: The work was finished by them. [subject -- "work", passive verb -- "was finished", object -- "them"] In this example, the subject (work) is not the doer; it is being acted upon by the doer ('them') Other Examples: He is praised by the teacher. The letter was posted by her New books are bought by me. His birthday will be celebrated by us. WHEN TO USE PASSIVE VOICE (1). You should use passive voice when you do not know the active subject. And move the subject of the active voice into the position of the object in the passive voice. Rule 2: Passive voice needs a helping verb to express the action. Put the helping verb in the same tense as the original active sentence. The main verb of the active voice is always changed into past participle (third form of the verb) in different ways. Rule 3: Place the active sentence's subject into a phrase beginning with the preposition 'by'. Rule 4: If the object in an active voice sentence is a pronoun (me, us, you, him, her, they, it), it changes in passive voice sentence as follows: me -- I; us -- we; you -- you; him -- he; her -- she; them -- they; it -- it Rule 5: Subject- Verb Agreement Make the first verb agree with the new subject in passive voice. Rule 6: When there are two objects (direct object and indirect object), only one object is interchanged. The second object remains unchanged. Following Tenses Cannot Be Changed Into Passive Voice: 1.
