Die Kreuzfahrerstaaten als multikulturelle Gesellschaft Oct 04 2020 Das internationale besetzte Kolloquium vom September 1994 widmete sich einem zuvor vernachlässigten Thema. Es ist eine wesentliche Erkenntnis des Kolloquiums, daß die Einwanderung - die hier untersucht wird für den Adel, die Kirche, die Zentralverwaltung, die Wirtschaft und die Kunst - die Kreuzfahrerstaaten vor intellektueller und kultureller Versteinerung bewahrte und sie auf der Höhe der europäischen Entwicklung hielt. Bei den Minderheiten zeigen mehrere Beiträge die Schwierigkeiten im Zusammenleben mit den lateinischen Eroberern, mit denen man trotz aller Abneigung zu fragilen

Symbiosen kommen mußte.
Aus dem Inhalt: Jonathan Riley-Smith: Families, Crusades and Settlement in the Latin East, 1102-1131 Bernard Hamilton: King Consorts of Jerusalem and their Entourages from the West from 1186 to 1250 Hans Eberhard Mayer: Einwanderer in der Kanzlei und am Hof der Kreuzfahrerkönige von Jerusalem Rudolf Hiestand: Der Lateinische Klerus der Kreuzfahrerstaaten: geographische Herkunft und politische Rolle Marie-Luise Favreau-Lilie: Durchreisende und Zuwanderer. Zur Rolle der Italiener in den Kreuzfahrerstaaten Peter Edbury: Famagusta Society ca. 1300 from the Registers of Lamberto di Sambuceto David Jacoby: Italian Migration and the Settlement in Latin Greece: The Impact on the Economy Benjamin Z. Kedar: Some New Sources on Palestinian Muslims before and during the Crusades

Jean Richard: Vassaux, tributaires ou alliés? Les chefferies montagnardes et les Ismailiens dans l'orbite des Etats des Croisés Gérard Dédéyan: Le rôle politique et militaire des Arméniens dans les Etats croisés pendant la première partie du XIIe siècle Nurith Kenaan Kedar: The Role and Meanings of Crusader Architectural Decoration: From Local Romanesque Traditions to Gothic Hegemony *Fluxus Scores and Instructions* Dec 26 2019 In 1962, George Maciunas declared Fluxus "anti art, concept art, automatism, Brutism, brutalism, Dadaism, concretism, Lettrism, nihilism, indeterminacy--theatre, happenings, prose, poetry, philosophy, plastic arts, music, cinema, dance." This thorough, well-designed volume culled from the renowned Gilbert and Lila Silverman Fluxus Collection, Detroit, and published to accompany an

exhibition at the Museum of Contemporary Art, Denmark, looks at the armature of the movement to think about the function of scores--what they are, how they work, what they lead to... Some are scores in the traditional musical sense, some are instructions for events or performances, some describe setups for situations or installations and some are the work itself--that is, the concept. Artists include George Brecht, John Cage, Dick Higgins, Alison Knowles, George Maciunas, Jackson Mac Low, Yoko Ono and Nam June Paik among others.

compilation from his legendary photographic career capturing American landscapes. The photographs are arranged chronologically into five major periods, from his first photographs made in Yosemite and the High Sierra in 1916 to his work in the National Parks in the 1940s up to his last important photographs from the 1960s. An introduction and brief essays on selected images provide information about Adams' life, document the evolution of his technique, and give voice to his artistic vision. Few artists of any era can claim to have produced four hundred images of lasting beauty and significance. It is a testament to Adams' vision and lifetime of hard work that a book of this scale can be compiled. ANSEL ADAMS: 400 PHOTOGRAPHS is a must-have for anyone who appreciates photography and the allure of the natural world.

Dialogues of Love Mar 09

2021 First published in Rome in 1535, Leone Ebreo's Dialogues of Love is one of the most important texts of the European Renaissance. Well known in the Italian academies of the sixteenth century, its popularity quickly spread throughout Europe, with numerous reprintings and translations into French, Latin Spanish, and Hebrew. It attracted a diverse audience that included noblemen, courtesans, artists, poets, intellectuals, and philosophers. More than just a bestseller, the work exerted a deep influence over the centuries on figures as diverse as Giordano Bruno, John Donne, Miguelde

Cervantes, and Baruch Spinoza. Leone's Dialogues consists of three conversations - 'On Love and Desire,' 'On the Universality of Love,' and 'On the Origin of Love' - that take place over a period of three subsequent days. They are organized in a dialogic format, much like a theatrical representation, of a conversation between a man, Philo, who plays the role of the lover and teacher, and a woman, Sophia, the beloved and pupil. The discussion covers a wide range of topics that have as their common denominator the idea of Love. Through the dialogue, the author explores many different points of view and complex philosophical ideas. Grounded in a distinctly Jewish tradition, and drawing on Neoplatonic philosophical structures and Arabic sources, the work offers a useful compendium of classical and contemporary thought, yet was not incompatible with Christian doctrine. Despite the unfinished state and somewhat controversial, enigmatic nature of Ebreo's famous text, it remains one of the most significant and influential works in the history of Western thought. This new, expertly translated and annotated English edition takes into account the latest scholarship and provides an invaluable resource for today's readers. The Golden Bull May 11 2021 The Golden Bull of 1356 (German: Goldene Bulle, Latin: Bulla Aurea) was a decree issued by the Imperial Diet at Nuremberg and Metz (Diet of Metz (1356/57)) headed by the Emperor Charles IV which fixed, for a period of more than four hundred years, important aspects of the constitutional structure of the Holy Roman Empire. It was named the Golden Bull for the golden seal it carried.

The Best Camera Is The One That's With You Feb 26 2020 A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase

underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named Best Camera. Best Camera has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. Best Camera also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. *The Best Camera Is The One That's With You—shoot!*

Maciunas' Learning Machines Jul 21 2019 The art of cross-linked thinking consists in facilitating dealing with complexity and admitting new insights. This approach, prevailing in all realms of knowledge, determines also the artistic praxis of Fluxus initiator George Maciunas. This book shows some hundred diagrams and maps related to history from antiquity to postmodernism; they serve to visualize artistic, political, and economic correlations. If it were up to Maciunas, there wouldn't be any real concept of the past without percepts. With his maps, diagrams, and tables, a big part of which is published for the first time, he tries to draw a picture of history in a different way. The result seems

fascinating both on a scientific and artistic level. It opens insights into eye-opening correlations between dates and facts as well as makes appear completely novel forms of knowledge transfer.

Fear of Judging Jan 27 2020

For two centuries, federal judges exercised wide discretion in criminal sentencing. In 1987 a complex bureaucratic apparatus termed Sentencing "Guidelines" was imposed on federal courts. FEAR OF JUDGING is the first full-scale history, analysis, and critique of the new sentencing regime, arguing that it sacrifices comprehensibility and common sense.

The Negative Jan 07 2021

Ansel Adams (1902-1984) produced some of the 20th century's most iconic photographic images and helped nurture the art of photography through his creative innovations and peerless technical mastery. The Negative--the second volume in Adams' celebrated series of books on photographic techniques--has taught generations of photographers how to use film and the film development process creatively. Examples of Adams' own work clarify the principles discussed. This classic handbook distills the knowledge gained through a lifetime in photography and remains as vital today as when it was first published. Anchored by a detailed discussion of Adams' Zone System and his seminal concept of visualization, The Negative covers artificial and natural

light, film and exposure, and darkroom equipment and techniques. Beautifully illustrated with photographs as well as instructive line drawings, this classic manual can dramatically improve your photography. "Adams is a clear-thinking writer whose concepts cannot but help the serious photographer." - New York Times "A master-class kind of guide from an undisputed master." - Publishers Weekly Over 1 million copies sold.

The Dream of Fluxus Feb 08

2021 A biography of this leading member of the Fluxus movement. George Maciunas (1931-1978) established strangely radical modes of presentation in the name of Fluxus. In his view the bulk of the conventional art business--museums, theaters, concert halls, opera houses, and publishers--should cease to exist. Traditional works of art were to be replaced by Fluxus. Art was to be so uncomplicated that it could be realized by anyone, anywhere. New pieces would have their copyrights protected and would be available for the price of a paperback. Maciunas was a staunch opponent of personal enrichment and came up with spartan solutions for almost every life situation. Despite his tireless efforts, he never achieved his ultimate goal, and he died impoverished and in miserable circumstances. 100 duotone illustrations.
