Piety and Politics Jul 28 2019 Malaysia, home to some twenty million Muslims, is often held up as a model of a pro-Western Islamic nation. The government of Malaysia, in search of Western investment, does its best to perpetuate this view. But this isn't the whole story. Over the last several decades, Joseph Liow shows, Malaysian politics has taken a strong turn toward Islamism. This book offers a comprehensive analysis of the growing role of Islam in the last quarter century of Malaysian politics. Conventional wisdom suggest that the ruling UMNO party has moved toward Islamism to fend off challenges from the more heavily Islamist opposition party, PAS. Liow argues, however, that UMNO has often taken the lead in moving toward Islamism, and that in fact PAS has often been forced to react. The result, Liow argues, is a game of "piety-trumping" that will be very difficult to reverse, and that has dire consequences not only for the ethnic and religious minorities of Malaysia, but for their democratic system as a whole.

New Thinking for the New Millennium Aug 21 2021 The last millennium has not been a great success. We have advanced in science and technology, but not much in human behaviour. Is it possible that this has been due to poor thinking? Edward de Bono maintains that the thinking of the last millennium has been concerned with WHAT IS. This is the thinking of analysis, criticism and argument. What we have not sufficiently developed is the thinking concerned with WHAT CAN BE. This is thinking that is creative and constructive, and which seeks to solve conflicts and problems by designing a way forward. The emphasis of his proposed new thinking is on design and not judgement.

The Multiplying Menace Dec 13 2020 Twelve-year-old Maggie Malloy can make wishes come true. But she's learned that people like magic better in storybooks than in real life, and longs to find someone who understands her power. When she's forced to spend a year with her grandmother, Maggie discovers an old magic repair shop—and the owner, Mr. McGuire, is a real magician, just like Maggie! She becomes Mr. Maguire's apprentice and learns how to repair cauldrons, break disfiguring hexes, and mend magic hats that won't stop duplicating rabbits. But Maggie is in more trouble than she bargained for when an evil magician, Milo the Magnificent, comes to town with his deadly magic act....

Machine and Industrial Design in Mechanical Engineering Nov 11 2020 This book gathers the latest advances, innovations, and applications in the field of machine science and mechanical engineering, as presented by international researchers and engineers at the 11th International Conference on Machine and Industrial Design in Mechanical Engineering (KOD), held in Novi Sad, Serbia on June 10-12, 2021. It covers topics such as mechanical and graphical engineering, industrial design and shaping, product development and management, complexity, and system design. The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.

Catatan Ayah tentang Cintanya kepada Ibu Aug 01 2022 Ada kenyataan yang tak

bisa kau bantah. Seperti aku yang tak bisa menyangkal darah balian di nadiku. Juga tak bisa membantah kenyataan bahwa tak sedikit pun aku mengenal rupa ayahku. Ada cinta yang datang tanpa harus kau pahami. Seperti dalam kisah yang diam-diam kutemukan dalam catatan Ayah. Catatan tentang cinta yang ternyata masih menyala. Sekaligus tentang cinta yang masih meninggalkan banyak luka. Catatan yang juga mengingatkanku akan cinta yang perlu dituntaskan. Cintaku, apakah kepada gadis masa kecilku yang kembali; ataukah kepada perempuan bermata teduh yang setia menanti. Akankah cinta mampu membawaku pulang, pada darah balian yang tak akan pernah bisa kumungkiri? Dalam catatan Ayah tentang cintanya kepada Ibu, jawabannya kutemukan. *** Sebuah buku novel tentang kisah percintaan yang romantis, persembahkan penerbit Gagasmedia -GagasMedia-

Unity in Diversity and the Standardisation of Clinical Pharmacy Services Sep 21 2021 Unity in Diversity and the Standardisation of Clinical Pharmacy Services represents the proceedings of the 17th Asian Conference on Clinical Pharmacy (ACCP 2017), held 28—30 July 2017 in Yogyakarta, Indonesia. The primary aim of ACCP 2017 was to bring together experts from all fields of clinical pharmacy to facilitate the discussion and exchange of research ideas and results. The conference provided a forum for the dissemination of knowledge and exchange of experiences. As such, it brought together clinical pharmacy scholars, pharmacy practitioners, policy makers and stakeholders from all areas of pharmacy society and all regions of the world to share their research, knowledge, experiences, concepts, examples of good practice, and critical analysis with their international peers. This year also marks the celebration of 20 years of ACCP. Central themes of the conference and contributed papers were Clinical Pharmacy, Social and Administrative Pharmacy, Pharmacy Education, Pharmacoeconomics, Pharmacoepidemiology, Complementary and Alternative Medicine (CAM) and a number of related topics in the field of Pharmacy.

The Birdwoman's Palate Dec 25 2021 In this exhilarating culinary novel, a woman's road trip through Indonesia becomes a discovery of friendship, self, and other rare delicacies. Aruna is an epidemiologist dedicated to food and avian politics. One is heaven, the other earth. The two passions blend in unexpected ways when Aruna is asked to research a handful of isolated bird flu cases reported across Indonesia. While it's put a crimp in her aunt's West Java farm, and made her own confit de canard highly questionable, the investigation does provide an irresistible opportunity. It's the perfect excuse to get away from corrupt and corrosive Jakarta and explore the spices of the far-flung regions of the islands with her three friends: a celebrity chef, a globe-trotting "foodist," and her coworker Farish. From Medan to Surabaya, Palembang to Pontianak, Aruna and her friends have their fill of local cuisine. With every delicious dish, she discovers there's so much more to food, politics, and friendship. Now, this liberating new perspective on her country--and on her life--will push her to pursue the things she's only dreamed of doing.

Biomaterials and Biomedical Engineering Jul 08 2020 Biomedical engineering involves the application of the principles and techniques of engineering to the enhancement of medical science as applied to humans or animals. It involves an

interdisciplinary approach which combines the materials, mechanics, design, modelling and problem-solving skills employed in engineering with medical and biological sciences so as to improve the health, lifestyle and quality-of-life of individuals. Biomedical engineering is a relatively new field, and involves a whole spectrum of disciplines covering: bioinformatics, medical imaging, image processing, physiological signal processing, biomechanics, biomaterials and bioengineering, systems analysis, 3-D modelling, etc. Combining these disciplines, systematically and synergistically yields total benefits which are much greater than the sum of the individual components. Prime examples of the successful application of biomedical engineering include the development and manufacture of biocompatible prostheses, medical devices, diagnostic devices and imaging equipment and pharmaceutical drugs. The purpose of this book is to present the latest research and development carried out in the areas of biomedical engineering, biomaterials and nanomaterials science and to highlight the applications of such systems. Particular emphasis is given to the convergence of nano-scale effects, as related to the delivery of enhanced biofunctionality.

Arya Winters and the Tiramisu of Death Nov 23 2021 Arya Winters is your typical cozy heroine. She lives in a cottage in a small English village, and bakes for a living - well, she specializes in macabre desserts. She has nosy neighbors, who she avoids ruthlessly due to her social anxiety. And she has a keen interest in all things sexy, especially Branwell Beam, the writer next door. When her neighbor Tobias Yards turns up dead after eating poisoned tiramisu (definitely not poisoned when she baked it), no one seems to connect it to Arya's Auntie Meera's recent death. Instead, they blame her excruciatingly average ex-boyfriend—and Tobias's nephew—and so she takes matters into her own hands. Now all she has to do to uncover the truth is to get over her aversion to Other People. Besides that, it's just a matter of getting beyond some yellow tape, dodging her former BFF Tallulah from secondary school, and getting into Branwell's pants—he seems strangely reluctant. What Arya doesn't realize is that the murderer is dangerous, preying on lonely people who've experienced trauma, and that she might have to do all she can not to become the next victim.

Friars, Soldiers, and Reformers Feb 12 2021 The Franciscan mission San José de Tumacácori and the perennially undermanned presidio Tubac become John L. Kessell's windows on the Arizona-Sonora frontier in this colorful documentary history. His fascinating view extends from the Jesuit expulsion to the coming of the U.S. Army. Kessell provides exciting accounts of the explorations of Francisco Garcés, de Anza's expeditions, and the Yuma massacre. Drawing from widely scattered archival materials, he vividly describes the epic struggle between Bishop Reyes and Father President Barbastro, the missionary scandals of 1815-18, and the bloody victory of Mexican civilian volunteers over Apaches in Arivaipa Canyon in 1832. Numerous missionaries, presidials, and bureaucrats—nameless in histories until now—emerge as living, swearing, praying, individuals. This authoritative chronicle offers an engrossing picture of the continually threatened mission frontier. Reformers championing civil rights for mission Indians time and again challenged the friars' "tight-fisted paternalistic control" over their wards. Expansionists repeatedly saw their plans dashed by Indian raids, uncooperative

military officials, or lack of financial support. *Frairs, Soldiers, and Reformers* brings into sharp focus the long, blurry period between Jesuit Sonora and Territorial Arizona.

Tripping Arcadia Jul 20 2021 From debut author Kit Mayquist, a propulsive and atmospheric modern Gothic with all the splendor of *The Great Gatsby* . . . and all the secrets, lies, and darkness that opulence can hide. Med school dropout Lena is desperate for a job, any job, to help her parents, who are approaching bankruptcy after her father was injured and laid off nearly simultaneously. So when she is offered a position, against all odds, working for one of Boston's most elite families, the illustrious and secretive Verdeaus, she knows she must accept it—no matter how bizarre the interview or how vague the job description. By day, she is assistant to the family doctor and his charge, Jonathan, the sickly, poetic, drunken heir to the family empire, who is as difficult as his illness is mysterious. By night, Lena discovers the more sinister side of the family, as she works overtime at their lavish parties, helping to hide their self-destructive tendencies . . . and trying not to fall for Jonathan's alluring sister, Audrey. But when she stumbles upon the knowledge that the Verdeau patriarch is the one responsible for the ruin of her own family, Lena vows to get revenge—a poison-filled quest that leads her further into this hedonistic world than she ever bargained for, forcing her to decide how much—and who—she's willing to sacrifice for payback. The perfect next read for fans of Mexican Gothic, *Tripping Arcadia* is a page-turning and shocking tale with an unforgettable protagonist that explores family legacy and inheritance, the sacrifices we must make to get by in today's world, and the intoxicating, dangerous power of wealth.

Seduced by Logic Jun 06 2020 Newton's explanation of the natural law of universal gravity shattered the way mankind perceived the universe, and hence it was not immediately embraced. After all, how can anyone warm to a force that cannot be seen or touched? But for two women, separated by time and space but joined in their passion for Newtonian physics, the intellectual power of that force drove them to great achievements. Brilliant, determined, and almost entirely self-taught, they dedicated their lives to explaining and disseminating Newton's discoveries. Robyn Arianrhod's *Seduced by Logic* tells the story of Emilie du Chatelet and Mary Somerville, who, despite living a century apart, were connected by their love for mathematics and their places at the heart of the most advanced scientific society of their age. When Newton published his revolutionary theory of gravity, in his monumental *Principia* of 1687, most of his Continental peers rejected it for its reliance on physical observation and mathematical insight instead of religious or metaphysical hypotheses. But the brilliant French aristocrat and intellectual Emilie du Chatelet and some of her early eighteenth-century Enlightenment colleagues—including her lover, Voltaire—realized the *Principia* had changed everything, marking the beginning of theoretical science as a predictive, quantitative, and secular discipline. Emilie devoted herself to furthering Newton's ideas in France, and her translation of the *Principia* is still the accepted French version of this groundbreaking work. Almost a century later, in Scotland, Mary Somerville taught herself mathematics and rose from genteel poverty to become a

world authority on Newtonian physics. She was f?ted by the famous French Newtonian, Pierre Simon Laplace, whose six-volume *Celestial Mechanics* was considered the greatest intellectual achievement since the *Principia*. Laplace's work was the basis of Mary's first book, *Mechanism of the Heavens*; it is a bittersweet irony that this book, written by a woman denied entry to university because of her gender, remained an advanced university astronomy text for the next century. Combining biography, history, and popular science, *Seduced by Logic* not only reveals the fascinating story of two incredibly talented women, but also brings to life a period of dramatic political and scientific change. With lucidity and skill, Arianrhod explains the science behind the story, and explores - through the lives of her protagonists - the intimate links between the unfolding Newtonian revolution and the development of intellectual and political liberty.

Recent Advances in Microalgal Biotechnology Oct 30 2019 Microalgae are sunlight driven single-cell factories for protein, lipids, carbohydrates, pigments, vitamins and minerals, etc. Microalgae have long been used as health food and additives for human consumption, as well as animal feed in aquaculture. Microalgae also prove to be beneficial to environmental cleanup such as bioremediation of industrial flue gases and waste water. Recently, owing to the demand of renewable energy, microalgal biofuels, biodiesel in particular, have attracted unprecedentedly interest. Also, microalgae emerge as promising hosts for the expression of recombinant proteins. Nevertheless, there are still tremendous challenges involved in the algae production pipeline such as strain improvement, mass cultivation, harvest and drying, biomass disruption, and recycling of water and nutrients, which have been impeding commercial application of microalgae in many different ways. The great opportunities lying ahead will be the innovations and breakthroughs occurred in microalgal biotechnology. This book brings together recent advances in microalgal biotechnology, dedicated to both the understanding of the fundamentals and development of industry-oriented technologies.

Pachinko May 06 2020 * The million-copy bestseller* * National Book Award finalist * * One of the New York Times's 10 Best Books of 2017 * * Selected for Emma Watson's Our Shared Shelf book club * 'This is a captivating book ... Min Jin Lee's novel takes us through four generations and each character's search for identity and success. It's a powerful story about resilience and compassion' BARACK OBAMA. Yeongdo, Korea 1911. In a small fishing village on the banks of the East Sea, a club-footed, cleft-lipped man marries a fifteen-year-old girl. The couple have one child, their beloved daughter Sunja. When Sunja falls pregnant by a married yakuza, the family face ruin. But then Isak, a Christian minister, offers her a chance of salvation: a new life in Japan as his wife. Following a man she barely knows to a hostile country in which she has no friends, no home, and whose language she cannot speak, Sunja's salvation is just the beginning of her story. Through eight decades and four generations, Pachinko is an epic tale of family, identity, love, death and survival.

Autumn Bridge Jun 18 2021 In the year 1311, in the highest tower of Cloud of Sparrows Castle, a beautiful woman sits by the window, watching as enemies gather below and fires spread through the night. As she calmly awaits her fate, she begins to write, carefully setting down on a scroll the secret history of the Okumichi clan...of the gift of prophecy they share and the extraordinary destiny that awaits them. For six centuries, these remarkable writings lay hidden—until they are uncovered by an American woman, a missionary named Emily Gibson, who arrived in Edo harbor in 1861, in flight from a tragic past. Soon an extraordinary man would enter her life: Lord Genji of the Okumichi clan, a nobleman with a gift of prophecy who must defend his embattled family—and confront forbidden feelings

for an outsider in his midst. Emily, too, soon finds herself at a turning point; courted by two westerners, she knows her heart belongs to the one man she cannot have. But Emily has found a mission of her own: translating Genji's ancestral history, losing herself in an epic tale of heroism and forbidden love. For here is the story of Lady Shizuka, the beautiful witch-princess who has enchanted Okumichi men for generations...of Genji's ancestors, Lord Hironobu and Lord Kiyori, and of the terrible betrayals that befell them...and of Genji's parents: a wastrel father and his child bride whose tragic love has shaped Genji as a leader and as a man. As Emily sifts through the fragile scrolls, she begins to see threads of her own life woven into the ancient writings. And as past and present collide, a hidden history comes to life, and with it a secret prophecy that has been shrouded for centuries, and may now finally be revealed. Takashi Matsuoka's spellbinding novel is infused with spectacle, intricately woven, magically told. Autumn Bridge is a feast for the senses, a work of truly dazzling storytelling.
