**The Unfinished Revolution: Russia 1917-1967** Nov 10 2020 The George Macaulay Trevelyan lectures delivered in the University of Cambridge January-March 1967.

*October* Jan 01 2020 Multi-award-winning author China Miéville captures the drama of the Russian Revolution in this “engaging retelling of the events that rocked the foundations of the twentieth century” (Village Voice) In February of 1917 Russia was a backwards, autocratic monarchy, mired in an unpopular war; by October, after not one but two revolutions, it had become the world’s first workers’ state, straining to be at the vanguard of global revolution. How did this unimaginable transformation take place? In a panoramic sweep, stretching from St. Petersburg and Moscow to the remotest villages of a sprawling empire, Miéville uncovers the catastrophes, intrigues and inspirations of 1917, in all their passion, drama and strangeness. Intervening in long-standing historical debates, but told with the reader new to the topic especially in mind, here is a breathtaking story of humanity at its greatest and most desperate; of a turning point for civilization that still resonates loudly today.

*The Bloomsbury Handbook of the Russian Revolution* Aug 20 2021 Through 30 interpretative essays, The Bloomsbury Handbook of the Russian Revolution sees an international team of leading scholars comprehensively examine Russia's revolutionary years. In the wake of the 2017 centenary, this handbook is the first reference point for anyone wishing to learn more about the changes which took place in Russia between 1917 and 1921 and subsequently the 20th century. Split into six sections covering political crises, politicians and parties, social groups, identities, regions and peoples, and civil war, the volume covers the collapse of Tsarism and the February Revolution, the emergence of the Provisional Government, and major historical figures such as Lenin, Kerensky and the Socialist Revolutionary leader Viktor Chernov. It also explores the events surrounding the Bolshevik seizure of power in October 1917, the first year of Soviet Government until the Bolshevik dictatorship was established, and the impact on Russia of the subsequent civil war. The focus is broader than these issues of high politics, however, since this handbook also considers events in the provinces as well as revolutionary Petrograd, and examines the social impact of the revolution in terms of class, gender, age and culture.

*Voices of Revolution, 1917* Mar 03 2020 Although much has been written about the political history of the Russian revolution, the human story of what the revolution meant to ordinary people has rarely been told. This book gives voice to the experiences, thoughts, and feelings of the Russian people--workers, peasants, soldiers--as expressed in their own words during the vast political, social, and economic upheavals of 1917. The documents in the volume include letters from individuals to newspapers, institutions, or leaders; collective resolutions and appeals; and even poetry. Selected from the State Archive of the Russian Federation in Moscow, nearly all the texts are published here for the first time. In these writings we hear the voices of ordinary Russians seeking to understand the revolution and make sense of the values, ideals, and discontents of their turbulent times. Not only do they speak of their particular needs and desires--for solutions to the economic crisis or an end to the war, for example--they also reveal how relatively unprivileged Russians thought about such questions as political power, freedom, justice, democracy, social class, nationhood, and civic morality. Mark Steinberg provides introductions to the documents, explaining the language of popular revolution in Russia and setting the writings in the context of the history of the time.

*The Challenge of Revolution* Dec 24 2021 This is an explanation of recent events in Russia. It examines the causes, processes, and consequences of Russia's political development, showing how the recent Russian experience can cast light on theories of revolution and political developments.

**The Standard of Living and Revolutions in Russia, 1700-1917** Jan 13 2021 Routledge is proud to publish the first full-scale anthropometric history of Imperial Russia; Mirinov mobilizes an immense volume of archival material to chart how the standard of living in Russia changed over slightly more than two centuries.

**About Russia, Its Revolutions, Its Development and Its Present** Sep 08 2020 "The author analyzes modern Russian history from a new perspective. Due to the ideological heritage of the XIX and XX century, the social settings of the sociopolitical history of the USSR (1917-1945) have not been fully identified. Detailed examination of ideological and political concepts shows that the revolution of 1917 became not a middle class, proletarian movement, but rather a plebeian one. The misjudgment by the new power enabled growth but caused tremendous losses of human lives and material damages. Socialization of economy and strict centralization led to a new social structure and established terror as an instrument for social reorganization. WWII revealed the necessity of a correction of these developments, but the events of the Cold War circumvented any further considerations"--Provided by publisher.

Two Revolutions Nov 30 2019

**The Russian Revolution of 1917** Jul 19 2021 Contains primary source material.

The Last of the Tsars May 17 2021 In March 1917, Nicholas II, the last Tsar of All the Russias, abdicated and the dynasty that had ruled an empire for three hundred years was forced from power by revolution. Now, on the hundredth anniversary of that revolution, Robert Service, the eminent historian of Russia, examines Nicholas's life and thought from the months before his momentous abdication to his death, with his family, in Ekaterinburg in July 1918. The story has been told many times, but Service's deep understanding of the period and his forensic examination of hitherto untapped sources, including the Tsar's diaries and recorded conversations, as well as the testimonies of the official inquiry, shed remarkable new light on his troubled reign, also revealing the kind of Russia that Nicholas wanted to emerge from the Great War. The Last of the Tsars is a masterful study of a man who was almost entirely out of his depth, perhaps even wilfully so. It is also a compelling account of the social, economic and political ferment in Russia that followed the February Revolution, the Bolshevik seizure of power in October 1917 and the beginnings of Lenin's Soviet socialist republic.

**Revolutions: A Very Short Introduction** Apr 15 2021 Revolutions have shaped world politics for the last three hundred years. This volume shows why revolutions occur, how they unfold, and where they created democracies and dictatorships. Jack A. Goldstone presents the history of revolutions from America and France to the collapse of the Soviet Union, 'People Power' revolutions, and the Arab revolts.

*Russia in Revolution* Jul 31 2022 The Russian Revolution of 1917 transformed the face of the Russian empire, politically, economically, socially, and culturally, and also profoundly affected the course of world history for the rest of the twentieth century. Now, to mark the centenary of this epochal event, historian Steve Smith presents a panoramic account of the history of the Russian empire, from the last years of the nineteenth century, through the First World War and the revolutions of 1917 and the establishment of the Bolshevik regime, to the end of the 1920s, when Stalin simultaneously unleashed violent collectivization of agriculture and crash industrialization upon Russian society. Drawing on recent archivally-based scholarship, *Russia in Revolution* pays particular attention to the varying impact of the Revolution on the various groups that made up society: peasants, workers, non-Russian nationalities, the army, women and the family, young people, and the Church. In doing so, it provides a fresh way into the big, perennial questions about the Revolution and its consequences: why did the attempt by the tsarist government to implement political reform after the 1905 Revolution fail?; why did the First World War bring about the collapse of the tsarist system?; why did the attempt to create a democratic system after the February Revolution of 1917 not get off the ground?; why did the Bolsheviks succeed in seizing and holding on to power?; why did they come out victorious from a punishing civil war?; why did the New Economic Policy they introduced in 1921 fail?; and why did Stalin come out on top in the power struggle inside the Bolshevik party after Lenin's death in 1924? A final chapter then reflects on the larger significance of 1917 for the history of the twentieth century - and, for all its terrible flaws, what the promise of the Revolution might mean for us today.

*The Unfinished Revolution* Nov 03 2022 The George Macaulay Trevelyan lectures delivered in the University of Cambridge January-March 1967 - Social structure - Class struggle - The Soviet Union and the Chinese Revolution.

The Russian Revolution, 1900-1927 Dec 12 2020 This popular, concise and approachable text discusses the key debates and themes surrounding the Russian Revolution. The expanded fourth edition has been thoroughly revised and updated in the light of the latest research, and now features a new scene-setting Introduction and maps.

**Wall Street and the Bolshevik Revolution** Oct 10 2020 "Why did the American Red Cross Mission to Russia include more financiers than medical doctors? Rather than caring for the victims of war and revolution, its members seemed more intent on negotiating contracts with the Kerensky government, and subsequently the Bolshevik regime ... Sutton establishes tangible historical links between US capitalists and Russian communists. Drawing on State Department files, personal papers of key Wall Street figures, biographies and conventional histories, Sutton ... traces the foundations of Western funding of the Soviet Union"--Publisher's description.

**The Russian Revolution** Nov 22 2021 At the turn of the century, the Russian economy was growing by about 10% annually and its population had reached 150 million. By 1920 the country was in desperate financial straits and more than 20 million Russians had died. And by 1950, a third of the globe had embraced communism. The triumph of Communism sets a

profound puzzle. How did the Bolsheviks win power and then cling to it amid the chaos they had created? Traditional histories remain a captive to Marxist ideas about class struggle. Analysing never before used files from the Tsarist military archives, McMeekin argues that war is the answer. The revolutionaries were aided at nearly every step by Germany, Sweden, and Switzerland who sought to benefit - politically and economically - from the changes overtaking the country. To make sense of Russia's careening path the essential question is not Lenin's "who, whom?", but who benefits?

Red October Jul 07 2020 "The Russian Revolution is the collective term for a series of revolutions in Russia in 1917, which dismantled the Tsarist autocracy and led to the creation of the Russian SFSR. The Emperor was forced to abdicate and the old regime was replaced by a provisional government during the first revolution of February 1917 (March in the Gregorian calendar; the older Julian calendar was in use in Russia at the time). In the second revolution, during October, the Provisional Government was removed and replaced with a Bolshevik (Communist) government"--Wikipedia.

**A People's History of the Russian Revolution** May 29 2022 The Russian Revolution may well be the most misunderstood event in modern history. In *A People's History of the Russian Revolution*, Neil Faulkner sets out to debunk the myths. In this fast-paced introduction to the tumultuous events, the Russian people are the heroes. Faulkner shows how a mass movement of millions, organised in democratic assemblies, mobilised for militant action, destroyed a regime of landlords, profiteers and warmongers. He rejects caricatures of Lenin and the Bolsheviks as authoritarian conspirators, 'democratic-centralists' or the progenitors of Stalinist dictatorship. He argues that the Russian Revolution was an explosion of democracy and creativity - and that it was crushed by bloody counter-revolution and replaced with a monstrous form of bureaucratic state-capitalism. Laced with first-hand testimony, this history seeks to rescue the democratic essence of the revolution from its detractors and deniers, offering a perfect primer for the modern reader.

Tiny Revolutions in Russia Jun 29 2022 Presenting a large collection of anecdotes and jokes from different periods of the twentieth century, this book provides an unusual and original perspective on Soviet and Russian history.

*Hundred Years of the Russian Revolution* Oct 02 2022 The book reflects upon the Russian Revolution of 1917 and the ensuing developments in Russia, the rest of the former Soviet Union, Central and Eastern Europe and elsewhere in the world. It discusses the impact of the legacies of the Russian Revolution on political systems, ideologies, economic and social structures and culture. The book answers some pertinent questions: To what extent are these legacies relevant today for the contextualisation of memory politics, social institutions, and international relations? How does an analysis of 1917 and its legacies contribute to the comparative study of revolutions and social change?

*The Russian Revolution* Jun 25 2019 A history of the events leading up to the 1917 Russian Revolution.

The Russian Revolution and Civil War, 1917-1921 Sep 28 2019 This is a critically annotated bibliography of some 6000 books, pamphlets, and articles in all the major West European languages, relating to the Russian Revolution and Civil War of 1917 to 1921. Several thousand further references and citations are included in the annotations.

**Russian Revolutions Of 1917** Mar 15 2021 A leading authority on the Soviet Union examines the two revolutions of February and October 1917 which serve as a symbol to socialists and established communism in Russia.

War and Revolution in Russia, 1914-22 Jun 05 2020 This essential introduction synthesises the wealth of new material available on the Russian Revolution into a clear overview which is ideal for beginners. Leading expert Christopher Read treats the period 1914-22 as a whole in order to contextualise and better understand the events of 1917 and their impact.

**The Russian Revolutions** Jul 27 2019 This book is the first English-language edition of Weber's writings on the revolutions in Russia in 1905 and February 1917. Weber discusses the events and examines the issue of Russian 'liberalization' and its prospects in a way that, after the dissolution of the Soviet Union, has great relevance today.

**Russia's Failed Revolutions** Mar 27 2022 Chronicles the struggle for political and intellectual freedom in Russia from 1825 to the present and examines why no revolt so far has succeeded in promoting that kind of self-determination

The Russian Revolution, 1905-1921 Jan 25 2022 The Russian Revolution, 1905-1921 is a new history of Russia's revolutionary era as a story of experience-of people making sense of history as it unfolded in their own lives and as they took part in making history themselves. The major events, trends, and explanations, reaching from Bloody Sunday in 1905 to the final shots of the civil war in 1921, are viewed through the doubled perspective of the professional historian looking backward and the contemporary journalist reporting and interpreting history as it happened. The volume then turns toward particular places and people: city streets, peasant villages, the margins of empire (Central Asia, Ukraine, the Jewish Pale), women and men, workers and intellectuals, artists and activists, utopian visionaries, and discontents of all kinds. We spend time with the famous (Vladimir Lenin, Lev Trotsky, Alexandra Kollontai, Vladimir Mayakovsky, Isaac Babel) and with those whose names we don't even know. Key themes include difference and inequality (social, economic, gendered, ethnic), power and resistance, violence, and ideas about justice and freedom. Written especially for students and general readers, this history relies extensively on contemporary texts and voices in order to bring the past and its meanings to life. This is a history about dramatic and uncertain times and especially about the interpretations, values, emotions, desires, and disappointments that made history matter to those who lived it.

**The State and Revolution** May 05 2020 In July 1917, when the Provisional Government issued a warrant for his arrest, Lenin fled from Petrograd; later that year, the October Revolution swept him to supreme power. In the short intervening period he spent in Finland, he wrote his impassioned, never-completed masterwork *The State and Revolution*. This powerfully

argued book offers both the rationale for the new regime and a wealth of insights into Leninist politics. It was here that Lenin justified his personal interpretation of Marxism, savaged his opponents and set out his trenchant views on class conflict, the lessons of earlier revolutions, the dismantling of the bourgeois state and the replacement of capitalism by the dictatorship of the proletariat. As both historical document and political statement, its importance can hardly be exaggerated. Translated and edited with an introduction by Robert Service

History for the IB Diploma: Imperial Russia, Revolutions and the Emergence of the Soviet State 1853-1924 Aug 08 2020 An exciting series that covers selected topics from the Higher Level options in the IB History syllabus. This coursebook covers Higher Level option 5, Topic 5, Imperial Russia, Revolutions and the Emergence of the Soviet State 1853-1924. The text is divided into clear sections following the IB syllabus structure and content specifications. It offers a sound historical account along with detailed explanations and analysis, and an emphasis on historical debate to prepare students for the in-depth, extended essay required in the Paper 3 examination. It also provides plenty of exam practice including student answers with examiner's comments, simplified mark schemes and practical advice on approaching the Paper 3 examination.

A Companion to the Russian Revolution Oct 22 2021 A compendium of original essays and contemporary viewpoints on the 1917 Revolution The Russian revolution of 1917 reverberated throughout an empire that covered one-sixth of the world. It altered the geo-political landscape of not only Eurasia, but of the entire globe. The impact of this immense event is still felt in the present day. The historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity—the causes and meanings of revolution are many, as is reflected in contemporary scholarship on the subject. A Companion to the Russian Revolution offers more than thirty original essays, written by a team of respected scholars and historians of 20th century Russian history. Presenting a wide range of contemporary perspectives, the Companion discusses topics including the dynamics of violence in war and revolution, Russian political parties, the transformation of the Orthodox church, Bolshevism, Liberalism, and more. Although primarily focused on 1917 itself, and the singular Revolutionary experience in that year, this book also explores time-periods such as the First Russian Revolution, early Soviet government, the Civil War period, and even into the 1920's. Presents a wide range of original essays that discuss Brings together in-depth coverage of political history, party history, cultural history, and new social approaches Explores the long-range causes, influence on early Soviet culture, and global after-life of the Russian Revolution Offers broadly-conceived, contemporary views of the revolution largely based on the author's original research Links Russian revolutions to Russian Civil Wars as concepts A Companion to the Russian Revolution is an important addition to modern scholarship on the subject, and a valuable resource for those interested in Russian, Late Imperial, or Soviet history as well as anyone interested in Revolution as a global phenomenon.

**The Russian Revolution: A Very Short Introduction** Aug 27 2019 This Very Short Introduction provides an analytical narrative of the main events and developments in Soviet Russia between 1917 and 1936. It examines the impact of the revolution on society as a whole—on different classes, ethnic groups, the army, men and women, youth. Its central concern is to understand how one structure of domination was replaced by another. The book registers the primacy of politics, but situates political developments firmly in the context of massive economic, social, and cultural change. Since the fall of Communism there has been much reflection on the significance of the Russian Revolution. The book rejects the currently influential, liberal interpretation of the revolution in favour of one that sees it as rooted in the contradictions of a backward society which sought modernization and enlightenment and ended in political tyranny. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Reaction & Revolutions** Feb 23 2022 This second edition aims to provide both a narrative and an analysis of the background, course and effects of the 1917 revolution in Russia. Beginning with an examination of Tsardom, the text describes the growth of revolutionary movements, analyzes the failure of government to modernize Russia, and concludes with a study and assessment of the impact of Bolshevism between 1917 and 1924. The book also incorporates the evidence relating to the Russian Revolution that has come to light since the collapse of the USSR in the early 1990s. Features include study guides, exercises, advice on tackling differentiated exam questions, points to consider and key issues and dates. The text is designed for A/AS level students and undergraduates.

*States and Social Revolutions* Feb 11 2021 Theda Skocpol shows how all three combine to explain the origins and accomplishments of social-revolutionary transformations.

**Bankers and Bolsheviks** Jun 17 2021 A must-read financial history for investors navigating today's volatile global markets Following an unprecedented economic boom fed by foreign investment, the Russian Revolution triggered the largest sovereign default in history. In *Bankers and Bolsheviks*, Hassan Malik tells the story of this boom and bust, chronicling the experiences of leading financiers of the day as they navigated one of the most lucrative yet challenging markets of the first modern age of globalization. He reveals how a complex web of factors—from government interventions to competitive dynamics and cultural influences—drove a large inflow of capital during this tumultuous period. This gripping book demonstrates how the realms of finance and politics—of bankers and Bolsheviks—grew increasingly intertwined, and how investing in Russia became a political act with unforeseen repercussions.

**Revolutionary Dreams** Apr 03 2020 Stites explores the ideals behind the revolution, including drawing parallels between philosophies of imperial Russia's intelligentsia class and how the Bolsheviks molded their ideas during the revolution.

*A Concise History of the Russian Revolution* Oct 29 2019 An authoritative history of the Russian Revolution and the "violent and disruptive acts" that created the first modern totalitarian regime, portraying the crisis at the heart of the tsarist empire "A deep and eloquent condemnation of the revolution and its aftermath." —The New York Times Drawing on archival

materials released in Russia, Richard Pipes chronicles the upheaval that began as a conservative revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises, and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the character of Lenin and Russia's long authoritarian tradition. What ensues is a path-clearing work that is indispensable to any understanding of the events of the century.
