Peer Review and Manuscript Management in Scientific Journals Nov 10 2020 This comprehensive yet concise book provides a thorough and complete guide to every aspect of managing the peer review process for scientific journals. Until now, little information has been readily available on how this important facet of the journal publishing process should be conducted properly. Peer Review and Manuscript Management in Scientific Journals fills this gap and provides clear guidance on all aspects of peer review, from manuscript submission to final decision. Peer Review and Manuscript Management in Scientific Journals is an essential reference for science journal editors, editorial office staff and publishers. It is an invaluable handbook for the set-up of new Editorial Offices, as well as a useful reference for well-established journals which may need guidance on a particular situation, or may want to review their current practices. Although intended primarily for journals in science, much of its content will be relevant to other scholarly areas. This wonderful work by Dr. Hames can be used as a textbook in courses for both experienced and novice editors, and I trust that it is what Dr. Hames intended when she prepared this beautiful book. Every scientific editor should read it. Journal of Educational Evaluation for Health Professionals, 2008 This book is co-published with the Association of Learned and Professional Society Publishers (ALPSP) (www.alpss.org) ALPSP members are entitled to a 30% discount on this book.

Better Than Best Practice Aug 08 2020 This is a brand new multi-media resource to support new and experienced primary school teachers develop skills of critical reflection in order to improve teaching and learning. An integrated DVD and textbook present a range of innovative case studies comprising video clips of real teachers in the classroom, together with context and narrative, step-by-step guidance through key issues, and commentary and debate from experts and professionals in the field.

Good Practice Guide Jun 25 2019 How do you obtain permission? How can you satisfactorily tackle objections? How can you convince planning officers of the value of your work? Drawing on substantial experience from both applicant and local planning authority perspectives, this book provides tactics and practical steps to help architects secure early validation of applications and successful outcomes. It's a practical guide to understanding the planning system and maximizing the potential for successful outcomes. Readers will develop a greater understanding of the principles that are vital in the preparation and negotiation of applications against the very complex detail of regulatory arrangements.

IEEE Recommended Practice for Applying Low-voltage Circuit Breakers Used in Industrial and Commercial Power Systems Sep 08 2020 Information is provided for selecting the proper circuit breaker for a particular application. This recommended practice helps the application engineer specify the type of circuit breaker, ratings, trip functions, accessories, acceptance tests, and maintenance requirements. It also discusses circuit breakers for special applications, e.g., instantaneous only and switches. In addition, it provides information for applying circuit breakers at different locations in the power system, and for protecting specific components. Guidelines are also given for coordinating combinations of line-side and load-side devices.

[The Form Book](#) Jan 13 2021 Filling in a form may be an everyday experience, yet as an aspect of design that affects all our lives, forms are quite often overlooked.

This is a handbook on form design for designers, students and anyone interested in improving client communication and information handling.

Building Down Barriers Oct 10 2020 With rapid changes in procurement processes and increasing pressure for improvement, cohesion and efficiency, practitioners need to be aware of industry-wide generally acknowledged best practice. The recent Latham and Egan reports in the UK have spurred further initiatives from the demand side of the industry to speed the pace of reform. This text examines those new initiatives, clearly explaining and comparing them with each other and with similar initiatives from other countries such as the USA or Singapore, and painting a vivid picture of the future of the construction industry under the effects of such changes. Aimed at anyone involved in construction supply chain from supplier to end user.

The Business of Human Rights Aug 27 2019 The spotlight of global scrutiny has shone particularly brightly on corporations' adverse impacts on human rights in recent years. Corporations make up more than two-thirds of the world's top economies today, and so rightly they are being called to account for their impacts on society and the communities in which they operate. The Business of Human Rights demystifies the relevance of human rights for business, explaining how the corporate responsibility to respect human rights under the UN Guiding Principles can be implemented in practice. It provides a straightforward, practical guide that can be easily read and interpreted by managers to help businesses navigate this complex area of legislation and "soft" law to fulfil their responsibilities. It explains the potential legal, financial and reputational implications for corporations and the steps they need to take to address them. The book tracks some of the major global developments in business and human rights, including the emergence of foreign, transnational, and international law and the proliferation of multi-stakeholder initiatives on business and human rights. Case studies from a range of sectors and industries – such as extractives, apparel, fast-moving consumer goods, electronics, and banking and finance – illustrate the enormous risks and opportunities human rights pose for business in practice. The Business of Human Rights will equip corporate executives, sustainability practitioners, academics, students, and anyone interested in business's impacts on society with the essential information and tools they need to quickly come up to speed with the rapidly evolving area of business and human rights.

New Principles of Best Practice in Clinical Audit Feb 23 2022 Revised and updated authoritative text showing how health professionals, managers and staff assess the quality of care against recommended best practice.

Benchmarking for Best Practice Jun 17 2021 Benchmarking for Best Practice uses up-to-the-minute case-studies of individual companies and industry-wide quality schemes to show how and why implementation has succeeded. For any practitioner wanting to establish best practice in a wide variety of business areas, this book makes essential reading. It is also an ideal textbook on the applications of TQM since it describes concepts, covers definitions and illustrates the applications with first-hand examples. Professor Mohamed Zairi is an international expert and leading figure in the field of benchmarking. His pioneering work in this area led to the implementation of sixty comprehensive benchmarking projects in companies worldwide. He has written several books on this subject including 'Practical Benchmarking' in 1992.

Charity Accounting and Taxation Sep 01 2022 This sixth edition of Charity Accounting and Taxation provides those who deal in UK charity finances with a clear and easy-to-follow guide to all aspects of preparing annual financial statements for UK charities of all sizes. The book is updated in line with the UK's FRS 102 and the revised Charity SORP. Due to the nature of charities – such as their legal structure and the fact that they deal with money from a large number of third parties – their annual accounts are subject to tight regulation, including a statutory annual audit for most. Last published in 2010, this current edition contains expert guidance from the Buzzacott charity team on preparing all aspects of a financial statement so that it complies with relevant legislation, including the Charities Act 2011; financial reporting standards, including FRS 102 which comes into force on January 1, 2015; and the revised Statement of Recommended Practice (SORP) issued by the Charity Commission in the summer of 2014. The book also provides advice on complying with all tax legislation and suggests planning points that will allow charities to avoid any potential direct pitfalls and manage their affairs in the most tax-efficient way. It is an invaluable source of guidance on preparing and auditing charity accounts prepared in line with the revised Charity SORP. Both finance teams within charities and accountants and auditors in practice with charities among their client base will use this on a regular basis. Contents include: charity * trustees' responsibilities * accounting requirements * trustees' report * accounting policies and accounts structure * statement of financial activities * incoming resources * resources expanded * balance sheet presentation * fixed assets, valuations, and depreciation * current assets, liabilities, and reserves * cash flow statements * notes and disclosures * summarized accounts * Scottish, Irish, and exempt charities * audit and other external scrutiny * tax exemptions and charities * tax and trading activities of charities * tax incentives to donors * charities and VAT * appendices.

Beginning Literacy with Language Dec 12 2020 Beginning literacy with language : young children learning at home & school.

Mental Capacity Act 2005 code of practice Jul 07 2020 The Mental capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

Communicating Construction Apr 03 2020 This book is a wide-ranging exploration of PR and communication in the construction industry, with a strong emphasis on communications theory, strategy and technique. The editors begin with an introduction to the UK construction industry and its supply chains, as well as various elements of PR in relation to the construction process. Subsequent chapters provide a strategic overview, practical examples, success stories, case studies and personal perspectives on PR for different parts of the built environment and reputational issues in construction. Chapters include expert advice on communications for architecture, planning, building consultancy, building products and manufacturers, general and specialist contractors, construction technology, infrastructure and communicating sustainability in the built environment. The conclusion looks at the current and upcoming reputational priorities for communicators in construction, as well as the top ten priorities for implementing PR as a strategic management discipline in the industry. This book is essential reading for all construction PR teams, students studying both for built environment and PR/marketing degrees and CPD courses, and anyone working in the built environment sector who needs to consider PR and marketing as part of their role.

[Mobile ID Device Best Practice Recommendation, Version 1.0](#) Jul 27 2019 The Mobile ID device should be viewed in the context of a portable biometric acquisition

station, one that is not intended to be stationary and hardwired to a much larger system used for comparing or matching biometric samples. This is in contrast to traditional booking stations and other biometric enrollment stations incorporate physically secured full-sized live-scan fingerprint readers, other biometric capture devices, or photo capture stations with setups adhering to distance, lighting, and other photo capture standards. Mobile ID devices allow one to collect biometric data in remote locations. Here is a community-developed series of guidelines that will provide the required levels of interoperability for various operational scenarios. Illustrations.

Financial Regulation in the EU Feb 11 2021 Financial regulation has dramatically evolved and strengthened since the crisis on both sides of the Atlantic, with enhanced international coordination through the G-20 and the Financial Stability Board and, at the regional level, a definite contribution from the European Union. However the new regulatory environment has its critics, with many divergent voices arguing that over-regulation has become a root cause of our current economic stagnation. This book provides a bigger picture view of the impact and future of financial regulation in the EU, exploring the relationship between microeconomic incentives and macroeconomic growth, regulation and financial integration, and the changes required in economic policy to further European integration. Bringing together contributions from law, economics and management science, it offers readers an accessible but rigorous understanding of the current state of play of the regulatory environment, and on the future challenges. Coverage will include: • A review of the recent regulatory changes from a legal and economic perspective • Analysis of how the economic model of financial institutions and entities is impacted by the new frameworks • How to improve securitization and new instruments under MIFID II • Issues in the enhanced supervision under delegated acts for AIFMD, CRR-CRD IV and Solvency II • How long term funding can be supplied in lieu of the non-conventional monetary policies • A new architecture for a safer and more efficient European financial system Financial Regulation in the EU provides much needed clarity on the impact of new financial regulation and the future of the economy, and will prove a must have reference for all those working in, researching and affected by these changes.

Best Practice in Motivation and Management in the Classroom Nov 30 2019 This text offers practical information and vicarious practice for both beginning as well as veteran teachers to become more knowledgeable, skilled, and effective in their work. Through study, application of what has been studied, and the analysis and evaluation of the end result of this application, teachers who care to improve can improve. And, teachers who are already successful in their teaching can be even more successful. Effective teachers are active learners themselves. This text therefore provides a specific context and focus for this active learning in the areas of student motivation and classroom management which are considered critical for best practice in teaching in classrooms today. The book reviews appropriate strategies when responding to specific types of student misbehavior and also discusses zero tolerance policies, expulsion, teaching special students, addressing diversity, violence, school uniforms, and drug abuse as related to management and motivation. It is highlighted with supporting case study examples, question and activity sections by chapter, and a helpful glossary. Also provided is an overview of ten popular models for classroom management with the theorists associated with their development. By reading this book, teachers will get their students to achieve at high levels in demonstrating what they have learned through the application of the most important, intertwined areas of motivation and classroom management.

Good Practice in the Law and Safeguarding Adults Mar 15 2021 Good Practice in the Law and Safeguarding Adults provides an up-to-date summary of developments in the legislative framework and best practice relevant to the area of adult protection work. It explains legislation that can be used in adult protection work, covering criminal and civil law, and crucial national guidance such as Achieving Best Evidence. Issues covered include confidentiality and information-sharing in adult protection work, capacity issues, police investigations, financial abuse, advocacy, witness support and honour-based violence. The book is illustrated throughout with case studies and good practice points. This book will be essential reading for anyone working with vulnerable adults, including health and social care workers, care managers, support workers, volunteers, advocates, police, probation staff, prison staff, lawyers training officers and students.

Recommended Practice for Engineered Brick Masonry Jun 05 2020

Interpretation and Application of IPSAS Nov 03 2022 Clear, practical IPSAS guidance, explanation, and examples Interpretation and Application of IPSAS provides practical guidance on the implementation and application of the International Public Sector Accounting Standards. This book brings readers up to date on the standards, and describes their proper interpretation and real-world application. Examples and mini-case studies clarify the standards' roles throughout, giving readers a better understanding of complex processes, especially where the IPSAS deviate from IFRS. Readers also gain insight into smoothly navigating the transition for a public sector entity, which is moving to either IPSAS under accrual basis of accounting or to cash accounting IPSAS, plus an overview of IPSAS adoption status and methods around the world. Global public sector accounting is highly diversified, resulting in ongoing moves to harmonize standards worldwide. The IPSAS are international standards that largely follow the IFRS model, but differ in some key areas and include standards in places where IFRS has none. This book provides complete guidance to IPSAS, with clear explanation and expert insight. Understand the meaning and role of each standard Apply the standards to real-world scenarios Manage the process of transition to IPSAS These standards are meant to be followed by all public sector entities, including national and regional governments and local authorities. They've been adopted by the UN, NATO, the European Commission, and others, and either have been or soon will be adopted in Malaysia, Switzerland, Spain, and more.

Procurement Systems Jan 01 2020 Procurement Systems details the whole spectrum of procurement issues in the construction industry, starting with the client /customer and running through managerial, cultural and IT-based issues. The book commences with an overview of previous work and a section on selection criteria is provided to enable practitioners to make their choices of procurement form. Importantly, performance comparisons of different procurement forms are discussed and the main emphasis of the book is to highlight best practice based on the most up-to-date research. One chapter deals specifically with developmentally orientated procurement issues in NICs (newly industrialised countries), where best practice is assessed from a different set of perspectives. The authors contributing to this book are among the most highly respected and eminent in the field.

Mentoring in Schools Mar 27 2022 Mentoring is a compulsory teaching requirement. This volume provides a practical and up-to-date mentoring guide for all practising mentors working in schools at primary and secondary levels, as well as those responsible for initial teacher training.

Land Access and Resettlement Sep 20 2021 This book is an up-to-date, accessible and practical guide on how to optimally plan for, implement and review land access and resettlement. It provides step-by-step information on how to avoid pitfalls, ensure that best practice is being employed and the correct standards are being applied. With useful real-life examples of when projects have gone well and when they haven't, the book is based on the main lessons that have been learned on-the-ground over the past decade. Natural resource projects can have considerable impacts on local communities, chiefly due to the need to acquire large areas of land. When projects are located in developing and middle income economies, the impacts are most keenly felt, as it often requires displacement of large rural populations, with predominately land-based livelihoods. The authors have planned, implemented and reviewed over 50 land access and resettlement projects in over 30 countries internationally, and conducted benchmarking exercises on a further 60 projects. This experience provides the basis for the book. The book guides the reader through the different stages of preparing for a land resettlement project. Land Access and Resettlement is a key social risk for the natural resources sector, particularly the mining, oil and gas industries, who are operating in a context of increased awareness and regulation regarding the potential social impacts of their activities. At the same time, companies increasingly appreciate the business case for 'getting social right'. This book provides a practical road map to corporate leaders, project managers, practitioners, academia, government and civil society for practically planning and implementing successful land access and resettlement, and creating win-win outcomes for companies and communities.

Good Practice in Safeguarding Children Oct 22 2021 Good Practice in Safeguarding Children considers how front-line professionals can keep the best interests of the child at the heart of their work when statutory guidance, the way agencies are integrated and the delivery of services are changing. Liz Hughes and Hilary Owen have drawn together contributors' experiences of working with safeguarding children on a broad range of issues, including neglect, trafficked children, parents with learning difficulties and child protection supervision. The contributors discuss current dilemmas in safeguarding children work and provide models of good practice, including case scenarios and exercises. This book explores how changes in the system offer an opportunity to enhance the quality of service provision, to achieve better outcomes for children and their families. This book is a must-read book for all front-line practitioners involved in safeguarding children, including social workers, child and adolescent mental health practitioners, police officers, healthcare professionals, probation workers and teachers. It is also suitable for undergraduate, post-graduate and post-qualifying students.

Clinical Practice Guidelines We Can Trust Aug 20 2021 Advances in medical, biomedical and health services research have reduced the level of uncertainty in clinical practice. Clinical practice guidelines (CPGs) complement this progress by establishing standards of care backed by strong scientific evidence. CPGs are statements that include recommendations intended to optimize patient care. These statements are informed by a systematic review of evidence and an assessment of the benefits and costs of alternative care options. Clinical Practice Guidelines We Can Trust examines the current state of clinical practice guidelines and how they can be improved to enhance healthcare quality and patient outcomes. Clinical practice guidelines now are ubiquitous in our healthcare system. The Guidelines International Network (GIN) database currently lists more than 3,700 guidelines from 39 countries. Developing guidelines presents a number of challenges including lack of transparent methodological practices, difficulty reconciling conflicting guidelines, and conflicts of interest. Clinical Practice Guidelines We Can Trust explores questions surrounding the quality of CPG development processes and the establishment of standards. It proposes eight standards for developing trustworthy clinical practice guidelines emphasizing transparency; management of conflict of interest; systematic review-guideline development intersection; establishing evidence foundations for and rating strength of guideline recommendations; articulation of recommendations; external review; and updating. Clinical Practice Guidelines We Can Trust shows how clinical practice guidelines can enhance clinician and patient decision-making by translating complex scientific research findings into recommendations for clinical practice that are relevant to the individual patient encounter, instead of implementing a one size fits all approach to patient care. This book contains information directly related to the work of the Agency for Healthcare Research and Quality (AHRQ), as well as various Congressional staff and policymakers. It is a vital resource for medical specialty societies, disease advocacy groups, health professionals, private and international organizations that develop or use clinical practice guidelines, consumers, clinicians, and payers.

Recommended Practice for Shotcreting (ACI 506-66) Jul 19 2021

The Green Book Dec 24 2021 This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

Best Practice Apr 15 2021 THE BRAND NEW BESTSELLER FROM THE AUTHOR OF OUT OF PRACTICE Love and laughter with the residents of Larkford is exactly what the doctor ordered! Dr Alice Walker has become accomplished at presenting a façade to the world - to anyone watching, she is the epitome of style, composure and professionalism. But perhaps it was to be expected that the cracks might begin to show at some point. Thankfully Grace is on hand to offer both friendship and support when it's needed most. Meanwhile, Dr Holly Graham has her hands full both professionally and personally. Planning a wedding with Taffy Jones is challenging enough, even before some surprising news changes everything. At last beloved Larkford resident, Elsie, still has a few tricks left up her sleeve! Dr Dan Carter, on the other hand, has decided to throw himself into his career - the best antidote he's found to unrequited love. When tragedy strikes in the heart of Larkford, Dan makes it his mission to help the community. Praise for Penny Parkes 'A wonderful setting, characters you care about, a page-turning plot, laugh-out-loud funny. I loved it' Katie Fforde 'Delightfully warm' Jo Thomas Penny Parkes' first novel, Out of Practice, won the RNA's ROMANTIC COMEDY OF THE YEAR AWARD in 2017.
