PgMP: Program Management Professional Exam Study Guide Dec 16 2021 In this book, best selling author, Paul Sanghera, offers cohesive, concise, yet comprehensive coverage of all the topics included in the PgMP exam. With a laser sharp focus on the exam objectives, the Study Guide goes beyond just being an "exam cram." The material is presented in a logical learning sequence: a section builds upon previous sections and a chapter on previous chapters. All concepts, simple and complex, are defined and explained when they appear the first time. There is no hopping from topic to topic and no technical jargon without explanation. Because no prior knowledge of program management is assumed, this book will be useful for both: those new to program management, as well as individuals with years of experience. Although the primary purpose of the book is to help you pass the PgMP exam, it will also serve as a great reference for the program managers before and after the exam. Special Features: Hundreds of review questions with fully explained answers A complete practice exam with fully explained answers The real world scenarios to help you deal with the program management issues in the real world and also to answer the scenario based questions in the exam Notes and tips to highlight the crucial points Exam's Eye View section at the end of each chapter to emphasize the important points from the exam's perspective Key Terms section at the end of each chapter that lists the important terms and concepts introduced in the chapter along with their definitions The exam objectives fully explained before their coverage in each chapter

Project Management Workbook and PMP / CAPM Exam Study Guide Aug 20 2019 Sharpen your project management skills and prepare for the latest PMP®/CAPM® exam The Project Management Workbook and PMP/CAPM Exam Study Guide is a two-in-one resource for mastering the Project Management Body of Knowledge (PMBOK®). As the companion to Project Management: A Systems Approach to Planning, Scheduling, and Controlling, this book provides the opportunity to strengthen your understanding of project management in real-world application, with questions, problems, and cases designed to enhance your critical thinking skills. Functioning as a stand-alone study guide to the Project Management Professional (PMP) Certification Exam, this book helps you develop the critical skills of a successful project manager with questions that show you what to expect on exam day. Interesting, enjoyable, and thought-provoking, this workbook and study guide helps you dig into the PMBOK and gain the professional insights that come only from applying what you've learned. Reading the PMBOK doesn't fully prepare you to pass the PMP exam, let alone function as a project manager in the real world. Understanding how to apply the various methodologies is vital to your success, and this book gives you a wealth of guided practice to hone your skills in advance. Practice applying project management concepts Test your grasp of the PMBOK methodology Preview the PMP with simulated exam questions Enhance your critical thinking and project management skills The project manager's role is broad in scope and detailed in function. Don't try to memorize the PMBOK, internalize it; this approach gives you a ready body of knowledge available for recall as needed, and helps you become a more efficient, more effective project manager. Instinctive knowledge comes from copious practice, and the Project Management Workbook and PMP/CAPM Exam Study Guide is your ideal resource for developing your skills.
